**Maverick's Madness** Lorrain Allen, 2021-04-26

Maverick's bigot father raised him to be a racist. The moment he sees me, the biracial new girl, an invisible target is placed on my back. Before the first day of school, he turns most of the senior class against me. Maverick thought I would roll over and take his abuse, never anticipating a battle. He was mistaken. I will fight until my last breath. Maverick and his friends can suck it. When I don't fold under pressure, he comes at me full force, wanting to destroy me. He never expected to be the one to fold.

**Magick, Mayhem, and Mavericks** Cathy Cobb, 2010-09-09. Science popularizer Cathy Cobb takes a unique approach to explaining the concepts of physical chemistry by telling the story of the geniuses and eccentrics who made groundbreaking discoveries in this fascinating field that bridges chemistry, physics, and mathematics. The result is entertaining and illuminating. Her tale is about the colorful varieties of human character as well as the struggles to understand the workings of the material world. Through true stories of rebels, recluses, heroes, and rogues, she helps the reader to discover how one idea built upon another and how an elegant discipline arose out of centuries of difficult trial and error. Starting with the ancient Greeks, Cobb takes the reader on a sweeping tour of history. She shows how an understanding of basic chemical properties gradually arose out of ancient Greek mathematics, Muslim science, medieval magick, and the healing arts. Her tour continues through the scientific revolution, the emergence of physical chemistry as an independent discipline, and up to the present. Today, physical chemists contribute to the fields of chemical physiology, chemical oscillations, and waves, quantum mechanics, and the curious and promising field of nanotechnology. This absorbing, eloquently written history of science is loaded with intuitive imagery, everyday analogies, and a colorful cast of characters who are guaranteed to entertain as well as edify.

Alex Grey, artist, author of *Net of Being* and *Transfigurations*, and co-founder of The Chapel of Sacred Mirrors. Some of the most important thinkers of our time speak in their own words to two brilliant interviewers. Anyone aspiring to understand the new millennium we are entering will have to read this book. Every page explodes like an intellectual firecracker. A first-rate job. Robert Anton Wilson, author of *Cosmic Trigger* and *The Illuminatus Trilogy*.
