Bent Martin Sherman, 1998 Applause Books Martin Sherman's worldwide hit play *Bent* took London by storm in 1979 when it was first performed by the Royal Court Theatre with Ian McKellen as Max, a character written with the actor in mind. The play itself caused an uproar. It educated the world. Sherman explains. People knew about how the Third Reich treated Jews and to some extent gypsies and political prisoners. But very little had come out about their treatment of homosexuals. Gays were arrested and interned at work camps prior to the genocide of Jews, gypsies and handicapped and continued to be imprisoned even after the fall of the Third Reich and liberation of the camps. The play *Bent* highlights the reason why a largely ignored German law, Paragraph 175, making homosexuality a criminal offense which Hitler reactivated and strengthened during his rise to power.

Law and Literature Lenora Ledwon, 2015-06-03 First published in 1996. The first anthology of its kind in this dynamic new field of study, this volume offers students the best of both worlds: theory and literature. Organized around specific themes to facilitate use of the text in a variety of courses, the material is highly accessible to undergraduates and is suitable as well for graduate students and law students. The anthology includes important articles by key figures in the law and literature debate and presents seven thematically arranged sections that:

- Survey the various theoretical perspectives that inform the relationship of law and literature.
- Examine the interplay of ethics, law and justice.
- Highlight the great scope and variety of the law's contributions to the creation of a world view.
- Illustrate various legal approaches to punishment.
- Detail and analyze the law's inherent capacity for the oppression of individuals and groups.
- Demonstrate that law is grounded in language and storytelling.
- Show that despite its solemnity, the law has a comic side.

Each section includes excerpts from poetry, drama, fiction and nonfiction. The excerpts include writings addressing the law's impact on the outsider, women, Native Americans, Hispanics, African Americans and homosexuals, as well as writings by lawyers, judges and law professors giving the reader an insider's view of the legal system. The selections range from Plato to John Barth and Wallace Stevens. At this time of increased interest in the quality of legal writing, this course material illustrates the importance of language, word choice, metaphor and narrative. It demonstrates the practical application of literary effects, techniques and devices and provides valuable insights into law as a vital component of the social fabric.

SPECIAL FEATURES All law schools that do not already have one in place are required to institute a course in Law and Literature. This new anthology is the first of its kind and has been specifically designed to meet the requirements of a Law and Literature course. Selections from judges, lawyers and professors of law give students an insider's view of the legal system. Chronological coverage from Plato to such 20th century writers as John Barth and Wallace Stevens offers students a broad range of selections that examine the relationship between law, justice, ethics and literature. Multicultural writings address the law's capacity for the oppression of individuals and groups, including women, Native Americans, African Americans, Hispanics and homosexuals. Law and punishment: several selections examine this area from various points of view.

Suitable for courses in Law and literature courses in law schools and undergraduate divisions as well as interdisciplinary courses in English literature
