A Little Girl Dreams of Taking the Veil Max Ernst, 1982 Max Ernst and Alchemy M. E. Warlick, 2001-03-15 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M E Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst's work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst's works as it affirms his standing as one of Germany's most significant artists of the twentieth century

Max Ernst Max Ernst, Werner Spies, 1986 Max Ernst used the word frottage to describe a medium invented by him in 1925 which proved to be his most original contribution to automatism in art He created a frottage by placing paper over a textured surface and then rubbing it to yield a print

Prehistoric Future Ralph Ubl, 2013-11-06 One of the most admired artists of the twentieth century Max Ernst was a proponent of Dada and founder of surrealism known for his strange evocative paintings and drawings In Prehistoric Future Ralph Ubl approaches Ernst like no one else has using theories of the unconscious surrealist automatism Freudian psychoanalysis the concept of history as trauma to examine how Ernst's construction of collage departs from other modern artists Ubl shows that while Picasso Braque and Man Ray used scissors and glue to create collages Ernst employed techniques he himself had forged rubbing and scraping to bring images forth onto a sheet of paper or canvas to simulate how a screen image or memory comes into the mind's view In addition Ernst scoured the past for obsolete scientific illustrations and odd advertisements to illustrate the rapidity with which time passes and to simulate the apprehension generated when rapid flows of knowledge turn living culture into artifact Ultimately Ubl reveals Ernst was interested in the construction and phenomenology of both collective and individual modern history and memory Shedding new light on Ernst's working methods and the reasons that his pieces continue to imprint themselves in viewers' memories Prehistoric Future is an innovative work of critical writing on a key figure of surrealism Max Ernst from the Collection of Mr. and Mrs. Jimmy Ernst Jeffrey J. the painter and the creative processes behind his work enhanced by testaments by many of his friends including fellow Surrealists Andr Breton Paul luard Roberto Matta and Hans Arp as well as others such as New York art dealer Julien Levy BEYOND PAINTING also contains Ernst s revolutionary experiment in collage The Lion of Belfort as well as a preface by New York artist Robert Motherwell and a chronology of Ernst s life written by the artist himself *Surrealist Collage in Text and Image* Elza Adamowicz,1998-05-28 A new analysis of Surrealist collage in France leading to a radical reassessment of Surrealism
