Maximes Clabiques Garnier:

Collected Maxims and Other Reflections François de La Rochefoucauld, 2008-05-08 Our virtues are most often only vices in disguise Deceptively brief and insidiously easy to read La Rochefoucauld's shrewd unflattering analyses of human behaviour have influenced writers thinkers and public figures as various as Voltaire Proust de Gaulle Nietzsche and Conan Doyle The author gave himself the following advice The reader's best policy is to assume that none of these maxims is directed at him and that he is the sole exception After that I guarantee that he will be the first to subscribe to them This is the fullest collection of La Rochefoucauld's writings ever published in English and includes the first complete translation of the *Reflexions diverses* Miscellaneous Reflections A table of alternative maxim numbers and an index of topics help the reader to locate any maxim quickly and to appreciate the full range of La Rochefoucauld's thought on any of his favourite themes such as self love vice and virtue love and jealousy friendship and self interest passion and pride ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more *Disguised Vices* Michael Moriarty, 2011-09-08 The notions of virtue and vice are vital components of the Western ethical tradition But in early modern France they were called into question as writers such as La Rochefoucauld argued that what appears as virtue is in fact disguised vice *Disguised Vices* analyses the underlying logic of such claims and explores what is at stake in them **Maximes** François duc de La Rochefoucauld, 2001 The second English translation of La Rochefoucauld's maxims was made by Mrs Aphra Behn a woman who is now admired as England's first professional female author This facing page bilingual edition offers an accurate translation of the text an introduction and extensive annotations of the maxims Maxims François duc de La Rochefoucauld, 2001 English and French texts **Portrait of the King** Louis Marin, 1988-02-12 **La Rochefoucauld: Maximes** D. J. Culpin, 1995

Encyclopedia of the Essay Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies **Catholic Particularity in Seventeenth-Century French Writing** Richard Parish, 2011-07-28 le christianisme est étrange Pascal Pensées Pascal's assertion that Christianity is strange provides the theme for Richard Parish's exploration of Catholic particularity as it was expressed in the writing of the French seventeenth century This was a period of quite exceptional fertility in a range of

genres apologetics sermons devotional manuals catechisms martyr tragedies lyric poetry polemic and spiritual autobiography Parish examines a broad cross section of this corpus with reference to the topics of apologetics physicality language discernment polemics and salvation and draws evidence both from canonical figures Pascal Bossuet F nelon St Fran ois de Sales Madame Guyon and from less easily available texts Parish aims to consider all those distinctive features that the heritage of the Catholic Reformation brought to the surface in France and to do so in support of the numerous ways in which Christian doctrine could be understood as being strange it is by turns contrary to expectations paradoxical divisive carnal and inexpressible These features are exploited imaginatively in the more conventional literary forms didactically in pulpit oratory and empirically in the accounts of personal spiritual experience In addition they are manifested polemically in debates surrounding penance authority inspiration and eschatology and often push orthodoxy to its limits and beyond in the course of their articulation This volume provides an unsettling account of a belief system to which early modern France often unquestioningly subscribed and shows how the element of cultural assimilation of Catholic Christianity into much of Western Europe only tenuously contains a subversive and counter intuitive creed The degree to which that remains the case will be for the reader to decide *Men and Women Making Friends in Early Modern France* Lewis C. Seifert, Rebecca M.

Wilkin, 2016-03-03 Today the friendships that grab people's imaginations are those that reach across inequalities of class and race The friendships that seem to have exerted an analogous level of fascination in early modern France were those that defied the assumption inherited from Aristotle and patristic sources that friendships between men and women were impossible Together the essays in *Men and Women Making Friends in Early Modern France* tell the story of the declining intelligibility of classical models of male friendship and of the rising prominence of women as potential friends The revival of Plato's friendship texts in the sixteenth century challenged Aristotle's rigid ideal of perfect friendship between men In the seventeenth century a new imperative of heterosociality opened a space for the cultivation of cross gender friendships while the spiritual friendships of the Catholic Reformation modeled relationships that transcended the gendered dynamics of galanterie *Men and Women Making Friends in Early Modern France* argues that the imaginative experimentation in friendships between men and women was a distinctive feature of early modern French culture The ten essays in this volume address friend making as a process that is creative of self and responsive to changing social and political circumstances Contributors reveal how men and women fashioned gendered selves and also circumvented gender norms through concrete friendship practices By showing that the benefits and the risks of friendship are magnified when gender roles and relations are unsettled the essays in this volume highlight the relevance of early modern friend making to friendship in the contemporary world *Fallen Nature, Fallen Selves* Michael Moriarty, 2006-05-25 *Fallen Nature Fallen Selves* is an investigation of psychological and ethical thought in seventeenth century France emphasizing both continuities and discontinuities with ancient and medieval thought Michael Moriarty's examination discusses most of the period's major

authors some well known others less so the abstract and general analyses of philosophers and theologians Descartes Jansenius Malebranche are juxtaposed with the less systematic and more concrete investigations of writers like Montaigne and La Rochefoucauld not to mention the theatre of Corneille Moliere and Racine This study will be of interest to all researchers working in early modern French literature and in the history of ideas **BOOK JACKET** **Early Modern French Thought** Michael Moriarty, 2003 This book is an examination of three major French thinkers of the seventeenth century Descartes Pascal and Malebranche of whom the latter two are comparatively little studied in the English speaking world It deals with a common attitude of suspicion towards everyday experience which they see as dominated and obscured by sensation imagination and the presence of the body This attitude however obliges them to develop detailed and sophisticated accounts of the shaping of experience not only by the body but by interpersonal and social relationships and of the tension between humannature as it is and as we experience it The treatment of Descartes thus challenges the interpretation that sees him as eliminating the body from subjectivity while that of Pascal and Malebranche shows how their critical attitude towards experience a fertile source for twentieth century French thinkers is linked with their religious doctrines especially their Augustinian emphasis on Original Sin **Tradition et modernité de l'aphorisme** Philippe Moret, 1997 *Th se Lettres* 1997 *Vauvenargues and La Rochefoucauld* Peter Martin Fine, 1974 **Romanic Review**, 1927 The Maxims in the Novels of Duclos B.G. Silverblatt, 2012-12-06 "Better in France?" Frédéric Ogée, 2005 This book discusses the way ideas and forms traveled between Britain and France during the eighteenth century and the extent to which the circulation of ideas between the two countries could be difficult The volume shows that this difficulty because it was acknowledged and often thematized contributed to an increased awareness of what was really at stake in the very concept of Enlightenment The examination of points of contact between the two cultures contacts that became very much the fashion in the course of the eighteenth century helps us understand how apparently common concepts and concerns fared differently from one country to the next while being enriched by those contacts The conversation of aesthetic theories and artistic forms of expression between the two countries sheds interesting light on the overall confrontation of conflicting theories of power and control that expressed themselves throughout the period of complete political redistribution The ways myths and stories forms and theories traveled and changed currency gives us a clearer political grasp on the whole history of exchanges as writers and artists encouraged or irritated by the new myth of Progress kept putting forward nothing else but models and strategies of public and private political economy Frederic Ogee is Professor of English Literature at the University of Paris 7 Denis Diderot *National Union Catalog*, 1973 Includes entries for maps and atlases *Nietzsche on Human Emotions* Yunus Tuncel, 2021-11-23 Much has been said on particular feelings that appear in Nietzsche's works such as pity revenge altruism guilt shame and resentment But there has not been a significant study on Nietzsche's overall teachings on feeling and emotion What does Nietzsche mean by feeling and the related phenomena Out of such disparate types of feelings and

disparate reflections by Nietzsche on them can one make sense or can one speak of a theory of feelings in Nietzsche If so how does this theory fit with his philosophy of value On the other hand how do his teachings relate to some of the later concepts of his philosophy such as the overhuman the will to power and the eternal return of the same While the book will contextualize Nietzsche's emotive theory in relation to other emotive theories in the history of ideas it will also explore Nietzsche's influence on later generations in this area Although Nietzsche is a brilliant and original philosopher of the emotions and passions there has been to date no concerted attempt to present and examine him as such This admirable study by Yunus Tuncel goes a long way towards meeting this need and is essential reading for all scholars and readers of Nietzsche Keith Ansell Pearson Emeritus Professor of Philosophy University of Warwick It's remarkable there hasn't been a good book on Nietzsche and the emotions until this remarkable work by Yunus Tuncel His insightful discussions range from ressentiment and Schadenfreude to a crucial emotion in these sad times the feeling of power Graham Parkes University of Vienna

The Public Mirror Larry F. Norman, 2010-08-15 Though much beloved and widely produced Molière's satirical comedies pose a problem for those reading or staging his works today how can a genre associated with biting caricature and castigation deliver engaging theater Instead of simply dismissing social satire as a foundation for Molière's theater as many have done Larry F. Norman takes seriously Molière's claim that his satires are first and foremost effective theater Pairing close readings of Molière's comedies with insightful accounts of French social history and aesthetics Norman shows how Molière conceived of satire as a public mirror provoking dynamic exchange and conflict with audience members obsessed with their own images Drawing on these tensions Molière portrays characters satirizing one another on stage with their reactions providing dramatic conflict and propelling comic dialogue By laying bare his society's system of imagining itself Molière's satires both enthralled and enraged his original audience and provide us with a crucial key to the classical culture of representation

Method and Variation Emma Gilby, 2017-12-02 French philosophical and scientific writers of the early modern period made various use of forms of narrative language that aims to tell a story in their texts Equally authors of fiction often sought to appropriate the language and tools of philosophical and scientific investigation The contributions in this collection from some of the most distinguished and exciting scholars working in French Studies today aim to bring into question oppositional relationships between terms such as philosophy and fiction when these are applied to early modern texts They consider authors as diverse as Montaigne Descartes La Rochefoucauld Mme de Villedieu and Mme de Lafayette If we are to be true to the early modern period they argue we have to acknowledge it as a time when the figurative anecdotal and fictive on the one hand and the truth seeking on the other influence each other mutually Emma Gilby is University Lecturer in French University of Cambridge Paul White is Research Associate in French University of Cambridge
