Schaffner, 2016-06-21 Today our fatigue feels chronic our anxieties amplified Proliferating technologies command our attention Many people complain of burnout and economic instability and the threat of ecological catastrophe fill us with dread We look to the past imagining life to have once been simpler and slower but extreme mental and physical stress is not a modern syndrome Beginning in classical antiquity this book demonstrates how exhaustion has always been with us and helps us evaluate more critically the narratives we tell ourselves about the phenomenon Medical cultural literary and biographical sources have cast exhaustion as a biochemical imbalance a somatic ailment a viral disease and a spiritual failing It has been linked to loss the alignment of the planets a perverse desire for death and social and economic disruption Pathologized demonized sexualized and even weaponized exhaustion unites the mind with the body and society in such a way that we attach larger questions of agency willpower and well being to its symptoms Mapping these political ideological and creative currents across centuries of human development Exhaustion finds in our struggle to overcome weariness a more significant effort to master ourselves **Music at Michigan**, 1994 **The International Corporate 1000** R.
