**Restless Travellers** Antonio José Miralles Pérez, 2011-08-08 The first part of this book deals with Britain's imperial age its militants and its critics The selection of works generates a large field of debate explored using traditional or innovative approaches The 19th century is presented as a time for writers J E Aylmer E Marryat Norris G A Henty Conan Doyle who tell stories of Europeans venturing forth into uncivilised regions of the world where they meet other races But writers of a different outlook are also considered Before the twilight of Empire women were born in England Virginia Woolf and in Ireland Elizabeth Bowen who would use the ductile means of literature to narrate journeys into the female self instead of masculine tales set in distant lands The imperial experience is a subject of concern and reflection with special interest when authored by natives of former colonies such as Michael Ondaatje's Hindu Sirk hero in The English Patient and the Nigerian girls in some of Patience Agbabi's poems The idea of travelling into or out of the culture to which one apparently belongs and the contradictory feelings such an experience causes pervades the writer's mind and the ensuing narrative The second part can be regarded as a North American miscellany mostly devoted to the African culture although also dealing with European heritage In order to recognise Asian and South American influences as well authors such as Fred Wah Ariel Dorfman and Julia Alvarez have been included Black literature is represented by two 19th century writers Mary Ann Shadd and Martin R Delany who remind us of the fight against slavery and segregation and the path to equality Various 20th century writers Toni Morrison Ernest Gaines Harryette Mullen August Wilson address the African Americans quest for identity presented by some as a journey southwards away

from the place of birth or an unsatisfactory life and in search of self knowledge in the land of their forefathers These journeys provide materials for different genres and tones enabling readers to examine the aspirations and fears of a community whose contribution to the history and literature of America has stimulated continuous study The two parts of the book are connected by the underlying discussion of essential conflicts that have occupied travellers traversing imperial spaces or experiencing foreign lands as well as travellers who instead of exotic adventures or romantic sojourns want to settle in a new country be accepted by a nation their ancestors did not know or exercise rights they were denied on their native soil **The**

**Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential *Masterpieces of 20th-Century American Drama* Susan C. W. Abbotson, 2005-09-30 American playwrights have made enormous contributions to world drama during the last century and their works are widely read and performed This reference conveniently introduces 10 of the most important modern American plays read by students An introductory essay concisely overviews modern American drama and each of the chapters that follow examines a particular play Among the

plays discussed are Thornton Wilder's *Our Town*, Arthur Miller's *Death of a Salesman*, Lorraine Hansberry's *A Raisin in the Sun*, and August Wilson's *The Piano Lesson*. Each chapter includes a biography, a plot summary, an analysis of the play's themes, characters, and dramatic art, and a review of its historical background and reception. Chapters list works for further reading, and the volume closes with a selected general bibliography.

[The Cambridge Companion to August Wilson](#)  
Christopher Bigsby, 2007-11-29  
One of America's most powerful and original dramatists, August Wilson offered an alternative history of the twentieth century as seen from the perspective of black Americans. He celebrated the lives of those seemingly pushed to the margins of national life but who were simultaneously protagonists of their own drama and evidence of a vital and compelling community. Decade by decade, he told the story of a people with a distinctive history who forged their own future, aware of their roots in another time and place but doing something more than just survive. Wilson deliberately addressed black America, but in doing so, he discovered an international audience. Alongside chapters addressing Wilson's life and career and the wider context of his plays, this Companion dedicates individual chapters to each play in his ten-play cycle, which are ordered chronologically, demonstrating Wilson's notion of an unfolding history of the twentieth century.

[A History of Modern Drama, Volume II](#)  
David Krasner, 2016-03-03  
A History of Modern Drama, Volume II, explores a remarkable breadth of topics and analytical approaches to the dramatic works, authors, and transitional events and movements that shaped world drama from 1960 through to the dawn of the new millennium. Features detailed analyses of plays and playwrights, examining the influence of a wide range of writers from mainstream icons such as Harold Pinter and Edward Albee to more unorthodox works by Peter Weiss and Sarah Kane. Provides global coverage of both English and non-English dramas, including works from Africa and Asia to the Middle East. Considers the influence of art, music, literature, architecture, society, politics, culture, and philosophy on the formation of postmodern dramatic literature. Combines wide-ranging topics with original theories, international perspective, and philosophical and cultural context. Completes a comprehensive two-part work examining modern world drama, and alongside A History of Modern Drama, Volume I, offers readers complete coverage of a full century in the evolution of global dramatic literature.
