Romano, Todd A. Curry, 2019-08-30 Written opinions are the primary means by which judges communicate with external actors These sentiments include the parties to the case itself but also more broadly journalists public officials lawyers other judges and increasingly the mass public In *Creating the Law* Michael K Romano and Todd A Curry examine the extent to which judges tailor their language in order to avoid retribution during their retention and how institutional variations involving intra chamber dynamics may influence the written word of a legal opinion Using an extensive dataset that includes the text of all death penalty and education decisions issued by state supreme courts from 1995 2010 Romano and Curry are the first to examine the connection between retention incentives and language choices They utilize text analysis techniques developed in the field of communications and apply them to the text of judicial decisions In doing so they find that judges write with their audience in mind and emphasize duelling strategies of justification and persuasion in order to please diverse audiences that may be paying attention

Furthermore the process of drafting a majority opinion is a team exercise and when more individuals are involved in its crafting the product will reflect this complexity This book gives students the tools for understanding how institutional variation affects judicial outcomes and shows how language relates to decision making in the judiciary more specifically

**If It Pleases the Court** Jax A. Stone, 2014-11-06 The sole intent behind the creation of this book is to tell a story of a subject line exposing legal corruption and domestic violence Most people do realize that there is always a little corruption in any form of government but after becoming aware of the real life events this book portrays this story had to be told As you start to follow this story through the pages I think you will be blown away and frankly astonished at just how far corruption can grow if not held in check As the author I was so taken by the story as told by J L Montgomery that I knew it would have to be me who would bring this story to light If it is your desire to have a book grab your attention upfront and carry you on an epic journey of one incident building on another this book will do it for you Powerful and realistic story line packed with deceit corruption and betrayal Even for those of you who thought you had seen or witnessed everything this book will be a wakeup call that will show you just how far a person or organization is willing to push the lines of morality and justice to have their way This is a story of a young lady starting out life with a bright future that quickly turned to a

nightmare that she could not escape She learned the hard way that justice can be purchased by the very people who were trying to inflict harm and destruction on her way of life In reading my book I hope you will agree with me that this act of judicial corruption and failure to enforce laws truly needed an avenue to be expressed and brought to the public's attention
