May The Twelfth Mass Observation:

May the twelfth : mass-observation day-surveys 1937 ; by over two hundred observers Humphrey Jennings,1987 May the Twelfth Humphrey Jennings,1937 *May the Twelfth* Humphrey Jennings,Charles Madge,1937 **May the Twelfth** Mass Observation,2012-08-02 Mass Observation was founded by Tom Harrisson Charles Madge and Humphrey Jennings in 1937 Its purpose was to create an anthropology of ourselves in other words to study the everyday lives of ordinary people in Britain Discounting an initial pamphlet this was the first book to be published It appears in Faber Finds as a part of an extensive reissue programme of the original Mass Observation titles May the Twelfth is a portrait of life on a single day the day of the Coronation of George VI in 1937 Compiled from the individual reports of hundreds of people the Mass Observers from all walks of life it vividly recreates the atmosphere and excitement of a great national occasion When first published it received a long review from Evelyn Waugh in the short lived Night and Day One might have imagined it wouldn't have been to his taste but he was won round Having congratulated Faber on the price of 12s 6d he goes on to say it would be hard to find any recent work of the same length which had so little that was dull and so much that was highly amusing He especially praises the London section The succeeding section on London's May 12 could scarcely be better It provides a real documentary survey of the event as seen by the crowds *Mass-Observation* Jennifer J. Purcell,2023-02-09 This book reproduces the original 1937 founding pamphlet of Mass Observation the compelling social research project that ran for decades in the mid 20th century with expert commentary throughout It also features brand new supporting essays by and informative interviews with prominent scholars of Mass Observation which reflect on the organisation its origins and its influence on multiple academic disciplines including history sociology and anthropology An introductory essay by the editor synthesizes the arguments of this material as well as contributing vital historical context and suggestions for ways in which other disciplines might benefit from the use of Mass Observation approaches and archival material There is also a chronology of Mass Observation its publications and major figures associated with it Mass Observation offers an unparalleled wealth of insights into the lived experiences of Britons in the 20th century and this volume provides the best introduction to it available familiarizing you with both the original Mass Observation aims and what value this fascinating material carries for us today *Mass Observation and Everyday Life* N. Hubble,2005-11-01 The social research organization Mass Observation was founded in 1937 In this book the true extent and significance of Mass Observation's unique role in the formation of postwar Britain's idea of itself through the examination of everyday life across the long twentieth century An excellent guide to Mass Observation and the period generally this scholarly work also provides surprising insights into the role social research has played in the development of policy and mass democracy **The Mass Observers** James Hinton,2013-03-14 The first full scale history of Mass Observation the independent social research organisation which set out to document the attitudes opinions and every day lives of British people between 1937 and 1949 Corrects and revises much of our existing knowledge

of M O and opens up new and important perspectives on the organisation itself *Mass-Observation and Visual Culture*
 LucyD. Curzon,2017-07-05 *Mass Observation and Visual Culture* Depicting Everyday Lives in Britain critically analyses the role that visual culture played in the early development of Mass Observation the innovative British anthropological research group founded in 1937 The group s production and use of painting collage photography and other media illustrates not only the broad scope of Mass Observation s efforts to document everyday life but also more specifically the centrality of visual elements to its efforts at understanding national identity in the 1930s Although much interest has previously focused on Mass Observation s use of written reports and opinion surveys as well as diaries that were kept by hundreds of volunteer observers this book is the first full length study of the group s engagement with visual culture Exploring the paintings of Graham Bell and William Coldstream the photographs of Humphrey Spender the paintings collages and photographs of Julian Trevelyan and Humphrey Spender s photographs and widely recognized Mass Observation film *Spare Time* among other sources *Mass Observation and Visual Culture* Depicting Everyday Lives in Britain positions these works as key sources of information with regard to illuminating the complex character of British identity during the Depression era **Handbook of Ethnography**
 Paul Atkinson,2001-03-22 This handbook provides a critical guide to the past present and future of ethnography **May the 12th** Humphrey Jennings,Charles Madge,1937 *The Biopolitics of Care in Second World War Britain* Kimberly Mair,2022-01-13 During the crisis of the Second World War in Britain official Air Raid Precautions made the management of daily life a moral obligation of civil defence by introducing new prescriptions for the care of homes animals and persons displaced through evacuation This book examines how the Mass Observation movement recorded and shaped the logics of care that became central to those daily routines in homes and neighbourhoods Kimberly Mair looks at how government publicity campaigns communicated new instructions for care formally while the circulation of wartime rumours negotiated these instructions informally These rumours she argues explicitly repudiated the improper socialization of evacuees and also produced a salient but contested image of the host as a good wartime citizen who was impervious to the cultural invasion of the ostensibly animalistic dirty and destructive house guest Mair also considers the explicit contestations over the value of the lives of pets conceived as animals who do not work with animal caregivers whose use of limited provisions or personal sacrifice could then be judged in the context of wartime hardship Together formal and informal instructions for caregiving reshaped everyday habits in the war years to an idealized template of the good citizen committed to the war and nation with Mass Observation enacting a watchful form of care by surveilling civilian feeling and habit in the process *Britain's War: Into Battle, 1937-1941* Daniel Todman,2016-08-05 Great Britain s refusal to yield to Nazi Germany in the Second World War remains one of the greatest survival stories of modern times Commemorated evoked and mythologized as it has been chiseled and engraved onto countless monuments the subject of an endless stream of books and films its triumphant outcome was by no means predetermined In December 1940 months after war was declared the director of plans at the War Office in

London was asked to draft a paper on how to win the war He replied that he could only plan for not losing Britain's War Into Battle 1937 1941 is the first of two volumes in which Daniel Todman offers a brilliantly fresh retelling an epic history to fit an epic story Opening with his discovery of some war medals sitting in a hearing aid box that likely belonged to his grandfather Todman realizes that despite it all a new generation seems unaware of what was truly at stake when Churchill invoked Britain's finest hour The war was far greater than any single heroic hour For six years Britain was at the dark heart of history finding its way forward hour by hour day by day year by year This volume spans the beginning and the end of the beginning from the massive changes required to get the country onto a war footing through the failure of appeasement the invasion of Poland the phony war the fall of France the miracle of Dunkirk the Battles of Britain and the Blitz ending with America's course changing entrance into the conflict in late 1941 Todman's colossal project seamlessly merges economic strategic social cultural and military history in one compelling narrative Rapid industrialization social disruption food rationing Westminster politics class snobbery and the mobilization of a global empire are woven together with the major opening battles Here also are key individuals the politicians industrialists pub owners housewives the pilots of the RAF and the sailors at Dunkirk caught in the maelstrom that threatened to engulf not just a small island nation but the world itself **The Historical Contexts and Contemporary Uses of Mass Observation** Lucy D. Curzon, Benjamin Jones, 2024-10-17 The Historical Contexts and Contemporary Uses of Mass Observation embraces new approaches and themes that highlight Mass Observation's long history as an innovative research organization a social movement and an archival project Spanning the period from Mass Observation's inception to the present day essay authors discuss a wide range of topics including anthropology history popular politics cultural studies literature selfhood emotion art and visual studies Indeed what emerges across this volume is confirmation that engagement with Mass Observation whether its historical materials or those produced in the last decade is crucial to understanding the vast array of experiences that make up British life Humphrey Jennings and British Documentary Film: A Re-assessment Philip C. Logan, 2016-05-13 Humphrey Jennings ranks amongst the greatest film makers of twentieth century Britain Although a relatively unknown figure to the wider public his war time documentaries are regarded by many including Lord Puttnam Lindsay Anderson and Mike Leigh as amongst the finest films of their time Groundbreaking both in terms of their technique and their interest in and respect for the everyday experiences of ordinary people these films are much more than mere government propaganda Instead Jennings work offers an unparalleled window into the British home front and the hopes fears and expectations of a nation fighting for its survival Yet until now Jennings has remained a shadowy figure with his life and work lacking the sustained scholarly investigation and reassessment they deserve As such film and social historians will welcome this new book which provides an up to date and thorough exploration of the relationships between Jennings life ideas and films Arguing that Jennings's film output can be viewed as part of a coherent intellectual exercise rather than just one aspect of the artistic interests of a wide ranging

intellectual Philip Logan paints a much fuller and more convincing picture of the man than has previously been possible. He shows for the first time exactly how Jennings's artistic expression was influenced by the fundamental intellectual, social, and cultural changes that shook British society during the first decades of the twentieth century. Combining biography, social history, and international artistic thought, the book offers a fascinating insight into Jennings, his work, the wider British documentary film movement, and the interaction between art and propaganda. Bringing together assessments of his tragically short life and his films, this book is essential reading for anyone with an interest in British cinema or the social history of Britain in the 1930s and 40s.

The Extinct Scene Thomas S. Davis, 2015-12-08 In 1935 the English writer Stephen Spender wrote that the historical pressures of his era should turn the reader's and writer's attention outwards from himself to the world. Combining historical, formalist, and archival approaches, Thomas S. Davis examines late modernism's decisive turn toward everyday life, locating in the heightened scrutiny of details, textures, and experiences an intimate attempt to conceptualize geopolitical disorder. *The Extinct Scene* reads a range of mid-century texts, films, and phenomena that reflect the decline of the British Empire and seismic shifts in the global political order. Davis follows the rise of documentary film culture and the British Documentary Film Movement, especially the work of John Grierson, Humphrey Jennings, and Basil Wright. He then considers the influence of late modernist periodical culture on social attitudes and customs and presents original analyses of novels by Virginia Woolf, Christopher Isherwood, and Colin MacInnes; the interwar travel narratives of W. H. Auden, Christopher Isherwood, and George Orwell; the wartime gothic fiction of Elizabeth Bowen; the poetry of H. D.; the sketches of Henry Moore; and the postimperial Anglophone Caribbean works of Vic Reid, Sam Selvon, and George Lamming. By considering this group of writers and artists, Davis recasts late modernism as an art of scale, by detailing the particulars of everyday life, these figures could better project large-scale geopolitical events and crises.

Ecstatic Worlds Janine Marchessault, 2023-10-31 When media translate the world to the world, twentieth-century utopian projects including Edward Steichen's *Family of Man*, Jacques Cousteau's underwater films, and Buckminster Fuller's geoscope. Postwar artists and architects have used photography, film, and other media to imagine and record the world as a wonder of collaborative entanglement to translate the world for the world. In this book, Janine Marchessault examines a series of utopian media events that opened up and expanded the cosmos, creating ecstatic collective experiences for spectators and participants. Marchessault shows that Edward Steichen's 1955 *Family of Man* photography exhibition, for example, and Jacques Cousteau's 1956 underwater film *Le monde du silence* (*The Silent World*) both gave viewers a sense of the earth as a shared ecology. The Festival of Britain 1951, in particular, its Telekinema (a combination of 3D film and television) and its Live Architecture exhibition, along with Expo 67's cinema experiments and media city, created an awareness of multiple worlds. Toronto's alternative microcinema CineCycle, Agnès Varda's 2000 film *Les glaneurs et la glaneuse*, and Buckminster Fuller's *World Game* geoscope, representing ecologies of images and resources, encouraged planetary thinking. The transspecies

communication platform the Dolphin Embassy devised by the Ant Farm architecture collaborative extends this planetary perspective toward other species and Finnish artist Erkki Kurenniemi's Death of the Planet projects a postanthropocentric future Drawing on sources that range from the Scottish town planner Patrick Geddes to the French phenomenologist Maurice Merleau-Ponty Marchessault argues that each of these media experiments represents an engagement with connectivity and collectivity through media that will help us imagine a new form of global humanism *Mass Photography* Annebella Pollen, 2020-09-09 With increasingly accessible camera technology crowdsourced public media projects abound like never before Such projects often seek to secure a snapshot of a single day in order to establish communities and create visual time capsules for the future *Mass Photography Collective Histories of Everyday Life* assesses the potential of these popular moment in time projects by examining their current day prevalence and their historical predecessors Through archival research and interviews with organisers and participants it examines for the first time the vast photographic collections resulting from such projects analysing their structures and systems their aims and objectives and their claims and promises The central case study is the 55 000 photographs submitted to One Day for Life in 1987 which aimed in its own time to be the biggest photographic event the world had ever seen **The Architectures of Childhood** Roy

Kozlovsky, 2016-03-16 Between 1935 and 1959 the architecture of childhood was at the centre of architectural discourse in a way that is unique in architectural history Some of the seminal projects of the period such as the Secondary Modern School at Hunstanton by Peter and Alison Smithson Le Corbusier's Unit d'Habitation at Marseilles or Aldo van Eyck's playgrounds and orphanage were designed for children At CIAM architects utilized photographs of children to present their visions for reconstruction The unprecedented visibility of the child to architectural discourse during the period of reconstruction is the starting point for this interdisciplinary study of modern architecture under welfare state patronage Focusing mainly on England this book examines a series of innovative buildings and environments developed for children such as the adventure playground the Hertfordshire school the reformed children hospital Brutalist housing estates and New Towns It studies the methods employed by architects child experts and policy makers to survey assess and administer the physiological emotional and developmental needs of the user the child It identifies the new aesthetic and spatial order permeating the environments of childhood based on endowing children with the agency and autonomy to create a self-regulating social order out of their own free will while rendering their interiority and sociability observable and governable By inserting the architectural object within a broader social and political context *The Architectures of Childhood* situates post-war architecture within the welfare state's project of governing the self which most intensively targeted the citizen in the making the children Yet the emphasis on the utilization of architecture as an instrument of power does not reduce it into a mere document of social policy as the author uncovers the surplus of meaning and richness of experience invested in these environments at the historical moment

The Most Offending Soul Alive Judith M. Heimann, 1999-11-01 An English eccentric and adventurer Tom Harrisson

1911-1976 sought knowledge and renown in a dizzying number of fields while breaking most of the rules of civilized society. He was a precursor in the field of modern market research; he won the DSO for his World War II service in Borneo; he led efforts to save the orangutan, the green sea turtle, and other endangered species; he discovered the oldest modern human skull known at the time. This hugely enjoyable story of Harrison's extravagant, controversial life offers a sympathetic and insightful look at a charismatic figure who offended as many people as he impressed at the twilight of colonialism on the fringes of the British empire. *Poetry & the Dictionary* Andrew Blades, Piers Pennington, 2020. This innovative collection of essays is the first volume to explore the many ways in which dictionaries have stimulated the imaginations of modern and contemporary poets from Britain, Ireland, and America while also considering how poetry has itself been a rich source of material for lexicographers.
