article begins by explaining why a new and better poverty metric is needed and why developing such a metric requires an alternative methodological approach inspired by feminism Feminist research is a growing tradition of inquiry that aims to produce knowledge not biased by inequitable assumptions about gender and related categories such as class race religion sexuality and nationality Just Methods is designed for upper level undergraduate and graduate students in a range of disciplines Rather than being concerned with particular techniques of inquiry the interdisciplinary readings in this book address broad questions of research methodology They are designed to help researchers think critically and constructively about the epistemological and ethical implications of various approaches to research selection and research design evidence gathering techniques and publication of results A key theme running through the readings is the complex interrelationship between social power and inequality on the one hand and the production of knowledge on the other A second and related theme is the inseparability of research projects and methodologies from ethical and political values

Global Theatre Anthologies: Classical and Modern Plays from India Bhasa,, Kalidasa,, Rabindranath Tagore, Rashid Jahan, Dharamvir Bharati, Mohan Rakesh, Datta Bhagat, K.N. Panikkar, Mahesh Dattini, 2025-02-06 The power of theatrical performance is universal but the style and concerns of theatre are specific to individual cultures India's dramatic literature demonstrates extraordinary range depth and sophistication Thousands of years ago the theory and practice of how to make theatre was detailed in the *Natyashastra* As a result powerful plays were written and over time a multiplicity of theatrical cultures have developed Examining recurring themes such as the misuse of authority the oppressive caste practices the expression and legitimacy of romantic love societal gender expectations and the search for meaning in seemingly empty or destructive human endeavours this anthology threads together diverse cultures drawing connections across space and time Though each play is its own unique entity exploring them together allows readers to consider what theatrical techniques and cultural concerns may be significant aspects of

Indian drama Featuring work by the first Asian Nobel Laureate acclaimed political writers and a female gynaecologist who created startling drama from the women she had encountered the range of playwrights speaks to the cultural diversity of the drama with plays ranging from classical Sanskrit drama through major works from the beginning to the end of the 20th Century Through taking an international perspective Global Theatre Anthologies draws together work from ancient indigenous and modern times encouraging thinking across boundaries and questioning what theatrical and societal values are part of India drama and what the relationships are between the old and new world
