## **Maya Children:**

**Maya Children** Karen Kramer, 2005-05-31 Among the Maya of Xculoc an isolated farming village in the lowland forests of the Yucatán peninsula children contribute to household production in considerable ways. Thus this village the subject of anthropologist Karen Kramer's study affords a remarkable opportunity for understanding the economics of childhood in a pre-modern agricultural setting. Drawing on a range of theoretical perspectives and extensive data gathered over many years, Kramer interprets the form, value, and consequences of children's labor in this maize-based culture. She looks directly at family size and birth spacing as they figure in the economics of families and she considers the timing of children's economic contributions and their role in underwriting the cost of large families. Kramer's findings in particular that the children of Xculoc begin to produce more than they consume long before they marry and leave home have a number of interesting implications for the study of family reproductive decisions and parent-offspring conflict and for debates within anthropology over children's contributions in hunter-gatherer versus agricultural societies. With its theoretical breadth and its detail on crop yields, reproductive histories, diet, work scheduling, and agricultural production, this book sets a new standard for measuring and interpreting child productivity in a subsistence farming community. Maya Angelou, 1991-06-04 In 1962 the poet, musician, and performer Maya Angelou claimed another piece of her identity by moving to Ghana, joining a community of Revolutionist Returnees inspired by the promise of pan-Africanism. All God's Children Need Walking Shoes is her lyrical and acutely perceptive exploration of what it means to be an African American on the mother continent where color no longer matters but where American-ness keeps asserting itself in ways both puzzling and heartbreaking. As it builds on the personal narrative of I Know Why the Caged Bird Sings and Gather Together in My Name, this book confirms Maya Angelou's stature as one of the most gifted autobiographers of our time.

**Maya and the Turtle** John C. Stickler, Soma Han, 2012-09-10 WINNER OF THE INTERNATIONAL 2013-2014 MORNING CALM MEDAL This multicultural children's book presents a heartwarming Korean fairy tale about a little girl and a fortunate encounter. Poverty is all Maya has ever known, but she doesn't allow it to stop her from caring for her father and others as best she can. Kind and gentle, she is a lovely young girl who always puts others first. One day she finds a little turtle and takes him home, raising and loving him, never knowing that he will play an instrumental part in her destiny. Similar to The Korean Cinderella, Maya and the Turtle is an original Korean fairy tale by authors John Stickler and Soma Han that teaches children that the road to greatness lies in selflessness and that the loving kindness of a pure heart can awaken great love and power in another. Beautifully illustrated by Han, this book contains fascinating bits of information about Korean culture and is a poignant tale about the rewards of kindness, patience, and courage. Hands of the Maya
