Mayan Factor Path Beyond Technology:

The Mayan Factor José Argüelles, 1987-04-01 Visionary historian Argüelles unravels the harmonic code of the ancient Maya providing valuable keys to understanding the next twenty years of human evolution *Mandala* José Argüelles, Miriam Argüelles, 1972 This lavishly illustrated classic selling over 70 000 copies in English and translated into four European languages is the first to deal comprehensively with the mandala the principle of the center as a universal image a vision a way of growth a ritual technique and an essential life process 92 illustrations 11 in color **Manifesto for the Noosphere** Jose Arguelles, 2011-09-06 The noosphere identified in the early twentieth century as intrinsic to the next stage of human and terrestrial evolution is defined as the Earth's mental sphere or stratum of human thought Manifesto for the Noosphere the final work by renowned author Jos Arg elles predicts that the noosphere will be fully accessed on December 21 2012 but warns that we will only successfully make this evolutionary jump through an act of collective consciousness among humans on Earth The ascension to the noosphere or Supermind using the terminology of Sri Aurobindo Arg elles says will be an unprecedented mind shift that mirrors the emergence of life itself on the planet Manifesto for the Noosphere is intended to inform and prepare humanity for the nature and magnitude of this shift Arg elles brings in the Mayan long count calendar radical theories on the nature of time advanced states of consciousness and the possible intervention of galactic intelligence He carefully details the role of the noosphere in relation to other planetary strata hydrosphere biosphere atmosphere as well as the history and nature of the biosphere noosphere transition and the intermediary phases of the technosphere and cybersphere About the Imprint EVOLVER EDITIONS promotes a new counterculture that recognizes humanity's visionary potential and takes tangible pragmatic steps to realize it EVOLVER EDITIONS explores the dynamics of personal collective and global change from a wide range of perspectives EVOLVER EDITIONS is an imprint of North Atlantic Books and is produced in collaboration with Evolver LLC *Secrets of Mayan Science/Religion* Hunbatz Men, 1990 An engaging study that reveals sacred teachings that the Mayan priesthood hid from Spanish conquistadores in Mexico in 1519 The author explores the scientific and spiritual principles underlying the ancient glyphs numbers and language of the Maya [Mayan Calendar Prophecies: Predictions for 2012-2052](#) Gary C. Daniels, 2012-11-01 Take a look at the science behind the Mayan calendar prophecies and mythology The Maya believed multiple cycles governed civilization They created various calendars to track these cycles Their short count calendar tracked a 256 year cycle believed to control epidemics famines warfare and more Scientists have found a 250 year solar cycle that also appears to affect epidemics famines warfare and more Their long count calendar tracked a 5000 year cycle related to natural disasters and cosmic catastrophes Scientists have also discovered that the Earth is subjected to periodic bombardment by comets and asteroids that plunges the world into long periods of darkness and cold Mayan mythology appears to record such events and in some instances even the exact dates on which these catastrophes occurred in the past By comparing these dates with ice core records sedimentary records and

climate records this book reveals the truth about civilization's darkest days And what may lie ahead in the future **Surfers of the Zuvuya** José Argüelles, 1988-08-01 Join Jos Argüelles and his higher self his dimensional double Uncle Joe Zuvuya on a journey from the center of the earth to the outermost reaches of the galaxy Uncle Joe instructs Argüelles in Mayan etheric engineering Arcturian space stations Atlantean family histories and much more *Book of the Throne* Jose Argüelles, Stephanie South, 2004-07-26 Using as a foundation a sequence of 260 two hour galactic mind transmissions the Cosmic History Chronicles are a system of thought and technique to be learned and applied in order that the human being can take the next steps on the road of evolution into a holographic perceptual system Through the Cosmic History Chronicles the great gift of the Law of Time is ripened into a vehicle of universal upliftment propelling us into our next stage of spiritual mental evolution **Earth Ascending** José Argüelles, 1988-01-01 Earth Ascending is a workbook for human and planetary survival This collection of fifty holonomic maps and comprehensive text is based on a resonant field paradigm which transcends the Newtonian materialistic model Each individual map is a work of art unto itself encapsulating a world of insight and consciousness and bridging the gap to an integrated galactic worldview In 1978 Buckminster Fuller said that it would be curtains for humanity if a design revolution were not completed within ten years It is now ten years later and as a convincing response to this challenge Earth Ascending postulates a planetary design which envisions the evolving field of Earth in relation to the galactic whole Earth Ascending demands a stretch of consciousness Our fall from spiritual realization and our degradation of the environment are the result of a blind acceptance of one dimensionality and a paralyzed complacent acceptance of impending doom Only a rebirth into the numinous world of multidimensional interface will give us the vision to create a new future Earth Ascending offers this vision The 8 Calendars of the Maya Hunbatz Men, 2009-12-29 Mayan daykeeper Hunbatz Men reveals the multi calendar system of the Maya that guided the lives of his ancestors and how it can guide us today The first book to reveal the secrets of the Mayan Pleiades calendar the Tzek eb Explains how the Maya used their astronomical knowledge to guide their lives on Earth The Mayan Calendar has taken on special prominence with the imminent arrival of 2012 a date that many claim is the end of that calendar However as Mayan elder and daykeeper Hunbatz Men shows the cosmological understanding of his ancestors was so sophisticated that they had not one but many calendars each based on the cycles of different systems in the cosmos In this book he reveals for the first time the Tzek eb or Pleiades Calendar of 26 000 years which charts the revolution of our solar system around Alcyone the central star of the Pleiades system He also discusses the K uuk ulcan Calendar of the 4 seasons of the solar year and the wheel of the K altunes Calendar which is composed of 13 cycles of 20 years each that form a calendar of 260 years In traditional Mayan culture the computation of time was not determined by simple economic or social motives The calendars served the higher purpose of synchronizing the lives of human beings and their societies to the great cosmic pulsation to the rhythm of the annual seasons and to the other cycles that dictate changes upon Earth Mayan understanding of the cosmic

cycles was so exact that this knowledge could be used to influence all stages of life from planning when to conceive parents could choose not only the sex of their child but its vocation and future destiny to plotting out the course of the entire society Pyramids played a crucial role in applying this wisdom because as Hunbatz Men shows they were able to produce and transform energy in accordance with the cosmic cycles charted by the calendars This book reveals for the first time the wisdom of the multi calendar Mayan system and how it can help guide our modern world Popol Vuh, 1996 One of the most extraordinary works of the human imagination and the most important text in the native languages of the Americas Popol Vuh The Mayan Book of the Dawn of Life was first made accessible to the public 10 years ago This new edition retains the quality of the original translation has been enriched and includes 20 new illustrations maps drawings and photos *The Origin of Consciousness in the Breakdown of the Bicameral Mind* Julian Jaynes, 2000-08-15 National Book Award Finalist This man's ideas may be the most influential not to say controversial of the second half of the twentieth century Columbus Dispatch At the heart of this classic seminal book is Julian Jaynes's still controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology our history and culture our religion and indeed our future Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind* Its prose is always lucid and often lyrical he unfolds his case with the utmost intellectual rigor The New York Times When Julian Jaynes speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods we are astounded but compelled to follow this remarkable thesis John Updike The New Yorker He is as startling as Freud was in *The Interpretation of Dreams* and Jaynes is equally as adept at forcing a new view of known human behavior American Journal of Psychiatry Handbook for the New Paradigm (3 Books in 1) Benevolent Beings, 2018-02 Now all 3 volumes of *The Handbook for the New Paradigm* are published in one book The messages contained in this new edition of *The Handbook for the New Paradigm* are intended to lift mankind from the entrapment of the victim consciousness that keeps the level of experience ensnared in fear and frustration
