Mayan Tikal:

Secrets of the Maya Peter A. Young, 2002 Unlock the mysteries of the Mayan world Deep in the rain forests of South and Central America the Mayan culture thrived for almost 4 000 years From the earliest Mayan farmer in 2 600 BC through the thirteenth century AD the Maya developed an elaborate society built great cities and temples and created the only real system of writing native to the Americas Although many of the intricacies of the Mayan culture remain shrouded in mystery hundreds of new discoveries have come to light in recent years and our body of knowledge about the Maya has grown by leaps and bounds Now the most fascinating new discoveries have been compiled into one volume Secrets of the Maya a book from the editors of Archaeology Magazine From the discovery of ancient caves used for religious rituals including human sacrifice to the search for the long lost White City Secrets of the Maya will take readers on an exciting and surprising archaeological journey Featuring articles on the latest research a comprehensive time line and a special section on Mayan hieroglyphs Secrets of the Maya will appeal to experts and amateurs alike

Tikal Jeremy A. Sabloff, 2003 Twelve leading scholars address questions crucial to Maya archaeology the timing of the foundation of the Tikal dynasty and the initial indications of sociopolitical complexity the meaning behind the sixth seventh century hiatus in monument erection at the site and the nature of the reassertion of central authority at Tikal with the political and military triumphs of Jasaw Chan K'awiil

Back cover The Most Famous Cities of the Maya Charles River Charles River Editors, Jesse Harasta, 2016-10-31 Includes pictures Describes the history and archaeology at each site Includes a bibliography for further reading Many ancient civilizations have influenced and inspired people in the 21st century like the Greeks and the Romans but of all the world's civilizations none have intrigued people more than the Mayans whose culture astronomy language and mysterious disappearance all continue to captivate people At the heart of the fascination is the most visited and the most spectacular of Late Classic Maya cities Chich' n Itz Chich' n Itz was inhabited for hundreds of years and was a very influential center in the later years of Maya civilization At its height Chich' n Itz may have had over 30 000 inhabitants and with a spectacular pyramid enormous ball court observatory and several temples the builders of this city exceeded even those at Uxmal in developing the use of columns and exterior relief decoration Of particular interest at Chich' n Itz is the sacred cenote a sinkhole was a focus for Maya rituals around water Because adequate supplies of water which rarely collected on the surface of the limestone based Yucatan were essential for adequate agricultural production the Maya here considered it of primary importance Underwater archaeology carried out in the cenote at Chich' n Itz revealed that offerings to the Maya rain deity Chaac which may have included people were tossed into the sinkhole Early Mayap' n was closely connected to the overshadowing power of the region at the time the mighty trading city of Chich' n Itz Mayap' n emerged first as a minor settlement in the orbit of Chich' n but it slowly came to replace it after the larger city's trade connections with the Toltecs of Tula crumbled and it suffered a staggering defeat by Mayap' n's armies The building styles and art in their city show both

admiring references to the great Chich n Itz as well as an attempt to position Mayap n as a more orthodox heir of Maya tradition At the same time they emulated many features and could not escape the tremendous influences especially in religion of Chich n This is seen in the fact that many of the most important buildings in the new city appear to be small scale reproductions of ones in Chich n The Maya maintained power in the Yucatan for over a thousand years and at the height of its Classical era 3rd 9th centuries CE the city of Tikal was one of the power centers of the empire Archaeologists believe Tikal had been built as early as the 5th or 4th century BC and eventually it became a political economic and military capital that was an important part of a far flung network across Mesoamerica despite the fact it was seemingly conquered by Teotihuacan in the 4th century CE It seems the foreign rulers came to assimilate Mayan culture thus ensuring Tikal would continue to be a power base and as a result the city would not be abandoned until about the 10th century CE During the Maya s Classical era the city of Uxmal was one of its most noteworthy places While it was not as powerful as cities like Tikal Uxmal was apparently at the forefront of Mayan culture particularly when it came to architecture However while Uxmal used high ground to display its prominence and the ruins are still among the most popular places for tourists in the region the site is still shrouded in mystery Even as scholars continue to work on the site to further interpret it it s still unclear when exactly Uxmal was founded how many people called it home and when it was abandoned despite the existence of Mayan chronicles and oral legends What is apparent however is the skills of Uxmal s artisans whether through constructing structures like the five level Pyramid of Magicians and the expansive Governor s Palace or adorning the structures with precisely detailed art and sculptures In fact the craftsmanship can be credited with helping to preserve Uxmal itself Mayan Kingdom A.J.
