Maya Ethnolinguistic Identity Brigittine M. French, 2010-04-15 In this valuable book ethnographer and anthropologist Brigittine French mobilizes new critical theoretical perspectives in linguistic anthropology applying them to the politically charged context of contemporary Guatemala Beginning with an examination of the nationalist project that has been ongoing since the end of the colonial period French interrogates the Guatemalan indigenous binary In Guatemala Ladino refers to the Spanish speaking minority of the population who are of mixed European usually Spanish and indigenous ancestry Indian is understood to mean the majority of Guatemala s population who speak one of the twenty one languages in the Maya linguistic groups of the country although levels of bilingualism are very high among most Maya communities As French shows the Guatemalan state has actively promoted a racialized essentialized notion of Indians as an undifferentiated inherently inferior group that has stood stubbornly in the way of national progress unity and development which are implicitly the goals of true Guatemalans that is Ladinos French shows with useful examples how constructions of language and collective identity are in fact strategies undertaken to serve the goals of institutions including the government the military the educational system and the church and social actors including linguists scholars and activists But by incorporating in depth fieldwork with groups that speak Kaqchikel and K'iche' along with analyses of Spanish language discourses Maya Ethnolinguistic Identity also shows how some individuals in urban bilingual Indian communities have disrupted the essentializing projects of multiculturalism

And by focusing on ideologies of language the author is able to explicitly link linguistic forms and functions with larger issues of consciousness gender politics social positions and the forging of hegemonic power relations **¿Quién es Dios?** Juan Luis Urcola Tellería, 2025-03-20 En un mundo gobernado por la duda el desconcierto y la inconsistencia moral el ser humano se sigue enfrentando a las preguntas más profundas y desafiantes Existe Dios Quién es realmente Cómo se puede llegar a la existencia del sufrimiento y del mal es compatible con la idea de la divinidad En la majestuosidad de algunos templos en las notas de una sinfonía o en la belleza de unos versos a Dios lo podemos encontrar en cualquier sitio pero entonces por qué la religión parece desvanecerse en el mundo actual Este libro es un faro en la oscuridad de la incertidumbre que trata de dar respuesta a las inquietudes que han removido desde tiempos remotos las conciencias tanto de creyentes como de escépticos Sus páginas nos adentran en la esencia de la espiritualidad y exploran la huella de lo divino en la historia el arte o el pensamiento de diferentes culturas y rincones del mundo Quién es Dios nos invita a un diálogo abierto con lo sagrado para reflexionar sobre las trascendentales cuestiones que vertebran nuestra propia existencia el papel de Dios en nuestro tiempo las razones para creer en él ante el cientifismo imperante y sobre todo a cómo preparar el corazón para un encuentro que podrá cambiarlo todo **Cracking the SAT Subject Test in Spanish, 16th Edition** The Princeton Review, 2018-02-27

Ancient Maya Life in the Far West Bajo Julie L. Kunen, 2022-05-10 Human activity during centuries of occupation significantly altered the landscape inhabited by the ancient Maya of northwestern Belize In response the Maya developed new techniques to harvest the natural resources of their surroundings investing increased labor and raw materials into maintaining and even improving their ways of life In this lively story of life in the wetlands on the outskirts of the major site of La Milpa Julie Kunen documents a hitherto unrecognized form of intensive agriculture in the Maya lowlands one that relied on the construction of terraces and berms to trap soil and moisture around the margins of low lying depressions called bajos She traces the intertwined histories of residential settlements on nearby hills and ridges and agricultural terraces and other farming related features around the margins of the bajo as they developed from the Late Preclassic period 400 BC AD 250 until the area's abandonment in the Terminal Classic period about AD 850 Kunen examines the organization of three bajo communities with respect to the use and management of resources critical to agricultural production She argues that differences in access to spatially variable natural resources resulted in highly patterned settlement remains and that community founders and their descendants who had acquired the best quality and most diverse set of resources maintained an elevated status in the society The thorough integration of three lines of evidence the settlement system the agricultural system and the ancient environment breaks new ground in landscape research and in the study of Maya non elite domestic organization Kunen reports on the history of settlement and farming in a small corner of the Maya world but demonstrates

that for any study of human environment interactions landscape history consists equally of ecological and cultural strands of influence Mayan Lives, Mayan Utopias Jan Rus, Rosalva Aída Hernández Castillo, Shannan L. Mattiace, 2003 The dramatic January 1 1994 emergence of the Zapatista Army of National Liberation EZLN in Chiapas Mexico brought the state s indigenous peoples to the attention of the international community Yet indigenous peoples in Chiapas had been politically active and organized for years prior to the uprising This compelling volume examines in detail these local and regional histories of power and resistance powerfully bolstered by gripping and heartrending details of oppression and opposition Situated broadly within the field of political anthropology the authors trace the connections between indigenous culture and indigenous resistance Their case studies include the Tzotzils and Tzeltals of the highland region the Tojolabals of eastern Chiapas northern Ch ol communities the Mams of eastern and southeastern Chiapas and the settler communities of the Lacandon rain forest In the wake of the Chiapas rebellion all of these groups have increasingly come together around common goals the most important of which is autonomy Three essays focus specifically on the issue of Indian autonomy_ in both Zapatista and non Zapatista communities Offering a consistent and cohesive vision of the complex evolution of a region and its many cultures and histories this work is a fundamental source for understanding key issues in nation building In a unique collaboration the book brings together recognized authorities who have worked in Chiapas for decades many linking scholarship with social and political activism Their combined perspectives many previously unavailable in English make this volume the most authoritative richly detailed and authentic work available on the people behind the Zapatista movement
