Mayor Our Government Leaders:

Political Leaders and Changing Local Democracy Hubert Heinelt, Annick Magnier, Marcello Cabria, Herwig Reynaert, 2017-12-19 This book studies political leadership at the local level based on data from a survey of the mayors of cities of more than 10 000 inhabitants in 29 European countries carried out between 2014 and 2016 The book compares these results with those of a similar survey conducted ten years ago From this comparative perspective the book examines how to become a mayor in Europe today the attitudes of these politicians towards administrative and territorial reforms their notions of democracy their political priorities whether or not party politicization plays a role at the municipal level and how mayors interact with other actors in the local political arena This study addresses students academics and practitioners concerned at different levels with the functioning and reforms of the municipal level of local government **A Mayor for All the People** Robert C. Holmes, Richard W. Roper, 2019-11-15 2021 winner of Edited Works category New Jersey Studies Academic Alliance In 1970 Kenneth Gibson was elected as Newark New Jersey's first African American mayor a position he held for an impressive sixteen years Yet even as Gibson served as a trailblazer for black politicians he presided over a troubled time in the city's history as Newark's industries declined and its crime and unemployment rates soared This book offers a balanced assessment of Gibson's leadership and his legacy from the perspectives of the people most deeply immersed in 1970s and 1980s Newark politics city employees politicians activists journalists educators and even fellow big city mayors like David Dinkins The contributors include many of Gibson's harshest critics as well as some of his closest supporters friends and family members culminating in an exclusive interview with Gibson himself reflecting on his time in office Together these accounts provide readers with a compelling inside look at a city in crisis a city that had been rocked by riots three years before Gibson took office and one that Harper's magazine named America's worst city at the start of his second term At its heart it raises a question that is still relevant today how should we evaluate a leader who faced major structural and economic challenges but never delivered all the hope and change he promised voters *Who Are Government's Leaders?* Jennifer Boothroyd, 2015-08-01 Who are the leaders of our government What do they do How do they become government leaders Accessible text and explanatory photos help students understand key concepts about the role of different government leaders [The Facilitative Leader in City Hall](#) James H. Svara, 2008-12-09 Providing a critical examination of government in American cities this volume presents the innovative view that mayors in council manager cities are better positioned to develop positive leadership than their peers in mayor council cities This book develops a deeper understanding of city government institutions with an examination of groundbreaking conceptual model of leadership and how it relates to local government forms Based on the observation of mayors who have served in the past decade in cities ranging in size from 1500 to 1.5 million fourteen case studies evaluate factors that contribute to effective leadership and highlight emerging issues faced by today's cities **More than Mayor or Manager** James H. Svara, Douglas J.

Watson,2010-11-23 Different forms of city government are in widespread use across the United States The two most common structures are the mayor council form and the council manager form In many large U S cities there have been passionate movements to change the structure of city governments and equally intense efforts to defend an existing structure Charter change or preservation is supported to solve problems such as legislative gridlock corruption weak executive leadership short range policies or ineffective delivery of services Some of these cities changed their form of government through referendum while other cities chose to retain the form in use More than Mayor or Manager offers in depth case studies of fourteen large U S cities that have considered changing their form of government over the past two decades St Petersburg Florida Spokane Washington Hartford Connecticut Richmond Virginia San Diego California Oakland California Kansas City Missouri Grand Rapids Michigan Dallas Texas Cincinnati Ohio El Paso Texas Topeka Kansas St Louis Missouri and Portland Oregon The case studies shed light on what these constitutional contests teach us about different forms of government the causes that support movements for change what the advocates of change promised what is at stake for the nature of elected and professional leadership and the relationship between leaders and why some referendums succeeded while others failed This insightful volume will be of special interest to leaders and interest groups currently considering or facing efforts to change the form of government as well as scholars in the field of urban studies **The American Mayor** Melvin G. Holli,1999 *Smarter Government* Martin O'Malley,2019 Smarter Government Governing for Results in the Information Age is about a more effective way to lead that is emerging enabled by the Information Age It provides real solutions to real problems using GIS technology and helps develop a management strategy using data that will profoundly change an organization as successfully implemented by Gov Martin O Malley in the state of Maryland Black Mayors, White Majorities Ravi K. Perry,2022-07-19 Recent years have seen an increase in the number of African Americans elected to political office in cities where the majority of their constituents are not black In the past the leadership of black politicians was characterized as either deracialized or racialized that is as either focusing on politics that transcend race or as making black issues central to their agenda Today many African American politicians elected to offices in non majority black cities are adopting a strategy that universalizes black interests as intrinsically relevant to the needs of their entire constituency In Black Mayors White Majorities Ravi K Perry explores the conditions in which black mayors of majority white cities are able to represent black interests and whether blacks historically high expectations for black mayors are being realized Perry uses Toledo and Dayton Ohio as case studies and his analysis draws on interviews with mayors and other city officials business leaders and heads of civic organizations in addition to official city and campaign documents and newspapers Perry also analyzes mayoral speeches the 2001 ward level election results and city demographics Black Mayors White Majorities encourages readers to think beyond the black white dyad and instead to envision policies that can serve constituencies with the greatest needs as well as the general public **If Mayors Ruled the World** Benjamin R. Barber,2013-11-05 In the face

of the most perilous challenges of our time climate change terrorism poverty and trafficking of drugs guns and people the nations of the world seem paralyzed The problems are too big for governments to deal with Benjamin Barber contends that cities and the mayors who run them can do and are doing a better job than nations He cites the unique qualities cities worldwide share pragmatism civic trust participation indifference to borders and sovereignty and a democratic penchant for networking creativity innovation and cooperation He demonstrates how city mayors singly and jointly are responding to transnational problems more effectively than nation states mired in ideological infighting and sovereign rivalries The book features profiles of a dozen mayors around the world making a persuasive case that the city is democracy's best hope in a globalizing world and that great mayors are already proving that this is so

Wong, 2007 In 2002 the No Child Left Behind Act rocked America's schools with new initiatives for results based accountability But years before NCLB was signed a new movement was already under way by mayors to take control of city schools from school boards and integrate the management of public education with the overall governing of the city The Education Mayor is a critical look at mayoral control of urban school districts beginning with Boston's schools in 1992 and examining more than 100 school districts in 40 states The authors seek to answer four central questions What does school governance look like under mayoral leadership How does mayoral control affect school and student performance What are the key factors for success or failure of integrated governance How does mayoral control effect practical changes in schools and classrooms The results of their examination indicate that although mayoral control of schools may not be appropriate for every district it can successfully emphasize accountability across the education system providing more leverage for each school district to strengthen its educational infrastructure and improve student performance Based on extensive quantitative data as well as case studies this analytical study provides a balanced look at America's education reform As the first multidistrict empirical examination and most comprehensive overall evaluation of mayoral school reform The Education Mayor is a must read for academics policymakers educational administrators and civic and political leaders concerned about public education **State and Local Government and Politics** Christopher A. problems of urban society fall increasingly on cities as the federal government cuts back domestic spending This book examines the roles of mayors councils and administrators in governing and managing their cities Positing that the internal dynamics of city governments are largely shaped by their structures the author shows how council manager governmental structures often foster more cooperation than do mayor council structures Svara provides contrasting models of interaction among officials in the two forms and shows how conflict and cooperation affect the performance of officials in the two structures he contends that proper understanding of the roles and behavior appropriate to each will lead to equal effectiveness between the two

The Power of the Mayor Chris McNickle, 2012-11-01 Chris McNickle argues that New York City Mayor David Dinkins failed to wield the power of the mayor with the skill required to run the city His Tammany clubhouse heritage and liberal political philosophy made him the wrong man for the time His deliberate style of decision making left the government he led lacking in direction His courtly demeanor and formal personal style alienated him from the people he served while the multi racial coalition he forged as New York s first African American mayor weakened over time Dinkins did have a number of successes He balanced four budgets and avoided a fiscal takeover by the unelected New York State Financial Control Board Major crime dropped 14 percent and murders fell by more than 12 percent Dinkins helped initiate important structural changes to the ungovernable school system he inherited His administration reconfigured health care for the poor and improved access to medical treatment for impoverished New Yorkers McNickle argues that David Dinkins has received less credit than he is due for his successes because they were overshadowed by his failure to fulfill his promise to guide the city to racial harmony This stimulating review of a transitional period in New York City s history offers perspective on what it takes to lead and govern
