Hinnells,2005-04-28 What is the distinctive Zoroastrian experience and what is the common diasporic experience The Zoroastrian Diaspora is the outcome of twenty years of research and of archival and fieldwork in eleven countries involving approximately 250 000 miles of travel It has also involved a survey questionnaire in eight countries yielding over 1 840 responses This is the first book to attempt a global comparison of Diaspora groups in six continents Little has been written about Zoroastrian communities as far apart as China East Africa Europe America and Australia or on Parsis in Mumbai post Independence Each chapter is based on unused original sources ranging from nineteenth century archives to contemporary newsletters The book also includes studies of Zoroastrians on the Internet audio visual resources and the modern development of Parsi novels in English As well as studying the Zoroastrians for their own inherent importance this book contextualizes the Zoroastrian migrations within contemporary debates on Diaspora studies John R Hinnells examines what it is like to be a religious Asian in Los Angeles or London Sydney or Hong Kong Moreover he explores not only how experience differs from one country to another but also the differences between cities in the same country for example Chicago and Houston The survey data is used firstly to consider the distinguishing demographic features of the Zoroastrian communities in various countries and secondly to analyse different patterns of assimilation between different groups men and women and according to the level and type of education Comparisons are also drawn between people from rural and urban backgrounds and between generations in religious beliefs and practices including the preservation of secular culture *The Bundahishn* Zarathustra,2023-06 Bundahishn meaning Primal Creation is the name traditionally given to an encyclopaedic collection of Zoroastrian cosmogony and cosmology written in Book Pahlavi The original name of the work is not known Although the Bundahishn draws on the Avesta and develops ideas alluded to in those texts it is not itself scripture The content reflects Zoroastrian scripture which in turn reflects both ancient Zoroastrian and pre Zoroastrian beliefs In some cases the text

alludes to contingencies of post 7th century Islam in Iran and in yet other cases such as the idea that the Moon is farther than the stars it reiterates scripture even though science had by then determined otherwise *Sohrab and Rustum* Matthew Arnold,1896 Pioneering Parsis of Calcutta Prochy N. Payne,2015-09-01 Christian communities flourished during late antiquity in a Zoroastrian political system known as the Iranian Empire that integrated culturally and geographically disparate territories from Arabia to Afghanistan into its institutions and networks Whereas previous studies have regarded Christians as marginal insular and often persecuted participants in this empire Richard Payne demonstrates their integration into elite networks adoption of Iranian political practices and imaginaries and participation in imperial institutions The rise of Christianity in Iran depended on the Zoroastrian theory and practice of hierarchical differentiated inclusion according to which Christians Jews and others occupied legitimate places in Iranian political culture in positions subordinate to the imperial religion Christians for their part positioned themselves in a political culture not of their own making with recourse to their own ideological and institutional resources ranging from the writing of saints lives to the judicial arbitration of bishops In placing the social history of East Syrian Christians at the center of the Iranian imperial story A State of Mixture helps explain the endurance of a culturally diverse empire across four centuries **Indian Books in Print** ,2003 **The Argument for Acceptance in Zoroastrianism** Kersey H. Antia,2012-09-03 Accepting converts and even the children of women marrying outside the community has become a subject of bitter controversy for well over a century among the Parsi Zoroastrians in India In this greatly expanded edition of his 1985 book on the subject Dr Antia reexamines this issue which is crucial to the continued survival of one of the most ancient religions the Zoroastrian religion He addresses responses which vehemently denounced his views in his original publication in the hope it will enable the readers to find the truth for themselves and hopefully ensure the survival of Zoroastrianism in the world by heeding the precepts of the prophet Also included is an appendix on the status of women in Zoroastrianism *Ásura- in Early Vedic Religion* Wash Edward Hale,1986 The present Dictionary is a practical exercise in word compilation to facilitate the study of Sanskrit language Based on Webster s complete English

Spirituality and Global Ethics Mahmoud Masaeli, Rico Sneller, 2017-05-11 This volume addresses three fundamental questions about the interplay between the ethics of globality and spirituality What are the practical implications of spirituality for the condition of life in a turbulent era of violent religious non religious extremism In what way can spirituality the view of love compassion tolerance and mutual recognition encounter mistrust enmity separateness and violence How and in what way can spirituality contribute to the newly emerging global ethics Religious scholars distinguish between the esoteric and exoteric sides of belief systems Esotericism centres on the inner awareness and conceals a certain spirituality that is only transmittable to those who could successfully pass through a process of initiatic preparation and transpersonal practices to understand the mystical dimensions of existence In contrast exotericism takes the outer dimension of every day consciousness into account and favours the possibility of the popular understanding of the essence of existence In this perspective truth could be grasped by the public without the need of any transpersonal initiative and transformation of consciousness Esotericism extends beyond religion and has become the spiritual philosophy of life without the need of being essentially religious It has become common notably in the West to identify oneself as spiritualist without having religious affiliations The condition of globality has provided an unprecedented opportunity for spiritual perspectives to grow Ideas perspectives beliefs and philosophies of life are growing outside local national containers to express themselves in different global settings while the forces of globalisation are influencing local identities and cultures While evolving global transformations strengthen people's capability to leave institutionally ordered belief systems it simultaneously enables them to rearrange themselves around alternative perspectives These fundamental transformations cultivate a fabulous landscape for the growth of spirituality **Iranica in the Achaemenid Period (ca. 550-330 B.C.)** Jan Tavernier, 2007 This book collects and discusses the Old Iranian divine names personal names geographical names toponyms hydronyms and oronyms and loanwords which are attested in texts written in Aramaic Babylonian Egyptian Elamite Lycian Lydian and Phrygian The texts both royal inscriptions and documentary texts are discovered in the entire territory of the Achaemenid Empire from Egypt to Bactria which controlled the Ancient Near East from ca 550 to 331 B C The Iranica discussed in this book are divided into four categories 1 directly transmitted Iranica 2 semi directly transmitted Iranica 3 foreign Iranica and 4 indirectly transmitted Iranica the so called Altiranische Nebenerlieferung All expressions which do not belong to one of these categories are brought together in a section called Incerta The etymology and linguistic setting of each Iranian expression is studied and a list of occurrences is added to this analysis **The Parsees in India** Eckehard Kulke, 1978
