Gailand MacQueen invites readers on a sometimes mystical sometimes mysterious journey of spiritual discovery **The Idea of the Labyrinth from Classical Antiquity through the Middle Ages** Penelope Reed Doob, 2019-03-15 Ancient and medieval labyrinths embody paradox according to Penelope Reed Doob Their structure allows a double perspective the baffling fragmented prospect confronting the maze treader within and the comprehensive vision available to those without Mazes simultaneously assert order and chaos artistry and confusion articulated clarity and bewildering complexity perfected pattern and hesitant process In this handsomely illustrated book Doob reconstructs from a variety of literary and visual sources the idea of the labyrinth from the classical period through the Middle Ages Doob first examines several complementary traditions of the maze topos showing how ancient historical and geographical writings generate metaphors in which the labyrinth signifies admirable complexity while poetic texts tend to suggest that the labyrinth is a sign of moral duplicity She then describes two common models of the labyrinth and explores their formal implications the unicursal model with no false turnings found almost universally in the visual arts and the multicursal model with blind alleys and dead ends characteristic of literary texts This paradigmatic clash between the labyrinths of art and of literature becomes a key to the metaphorical potential of the maze as Doob's examination of a vast array of materials from the classical period through the Middle Ages suggests She concludes with linked readings of four labyrinths of words Virgil's Aeneid Boethius Consolation of Philosophy Dante's Divine Comedy and Chaucer's House of Fame each of which plays with and transforms received ideas of the labyrinth as well as reflecting and responding to aspects of the texts that influenced it Doob not only provides fresh theoretical and historical perspectives on the labyrinth tradition but also portrays a complex medieval aesthetic that helps us to approach structurally elaborate early works Readers in such fields as Classical literature Medieval Studies Renaissance Studies comparative literature literary theory art history and intellectual history will welcome this wide ranging and illuminating book **Magical Paths** Jeff Saward, 2006-07-01 Wind your way through a maze or a labyrinth two symbolic journeys both rooted in myth and mystery But while labyrinths are flat circulate pathways designed for the acquisition of inner peace mazes feature patterns of barriers that challenge confuse and deceive the walker After looking at the legends and evolution of these two kinds of complex twisting paths Jeff Saward considers the innovative ways today's land artists and garden designers have recreated labyrinths and the new craze for mazes from maize mazes and mirror mazes to wood and water mazes and simple garden turf mazes The diverse and stunning examples come from all around the world and this breathtakingly photographed overview captures their visual excitement and unique inspiration *Follow This Thread* Henry Eliot, 2019-03-05 Beautifully designed and gorgeously illustrated this immersive puzzle like exploration of the history and psychology of mazes and labyrinths evokes the spirit of Choose Your Own Adventure the textual inventiveness of Tom Stoppard and the philosophical spirit of Jorge Luis Borges Labyrinths are as old as humanity the proving grounds of heroes the paths of pilgrims symbols of spiritual rebirth and pleasure gardens for pure entertainment Henry Eliot leads us on a

twisting journey through the world of mazes real and imagined unraveling our ancient abiding relationship with them and exploring why they continue to fascinate us from Kafka to Kubrick to the myth of the Minotaur and a quest to solve the disappearance of the legendary Maze King Are you ready to step inside *Labyrinths & Mazes* Francesca Tatarella, 2016-11-22 The labyrinth is one of the world's oldest symbols and its meaning is often shrouded in myth and mystery or ties to religious rites Today this enigmatic form inspires artists to create their own interpretations in different even unusual ways including by working with materials as varied as ice snow salt wood stone glass cement and metal This new collection features both classical examples and the best contemporary projects showcasing work by artists landscape artists and architects from around the world The diverse and stunning examples include pavement labyrinths of thirteenth century French cathedrals a historic English turf maze Renaissance hedge mazes and numerous present day projects by artists and architects including BIG Chris Drury Richard Fleischner Dan Graham Robert Irwin Arata Isozaki Robert Morris Yoko Ono and Billie Tsien and Tod Williams
