Protestant Missions and Local Encounters in the Nineteenth and Twentieth Centuries Hilde Nielssen, Inger Marie Okkenhaug, Karina Hestad-Skeie, 2011-07-27 This book makes visible an important but neglected aspect of Christian missions its transnational character Missionaries considered themselves global actors yet they operated within a variety of nation states The volume demonstrates how processes on a national level are closely linked to larger transnational processes

American Radio in China Michael A. Krysko, 2011-04-12 Interwar era efforts to expand US radio into China floundered in the face of flawed US policies and approaches Situated at the intersection of media studies technology studies and US foreign relations this study frames the ill fated radio initiatives as symptomatic of an increasingly troubled US East Asian relationship before the Pacific War

The China Mission Year Book, 1925

McClure: The China years of Dr. Bob McClure Munroe Scott, 1977 Not only follows the adventures of a unique man but traces them against the fascinating and often awesome background of a changing China Dust jacket flap

The United States Army in China, 1900-1938 Alfred Emile Cornebise, 2015-07-04 A study of U S Chinese relations involving the U S Army this work focuses at the personnel level on the Army's service in China While studies have been published of the U S Marines and U S Navy's involvement in China little attention has been given the Army's missions in this theater Operations in China were a key part of the history and traditions of the 9th 14th 15th and 31st Regiments whose coats of arms still feature dragons as symbols of their service there Many who served in the 15th in China went on to impressive careers as general officers prompting one soldier to ask what other infantry regiment of those days can boast of such an alumni list Also covered is the 31st Regiments involvement in Shanghai during the Second Sino Japanese War the prelude of the coming of World War II in Asia

The International Medical Relief Corps in Wartime China, 1937-1945 Robert Mamlok, M.D., 2018-10-03 Both before and during World War II the Nazis restricted the rights of Jewish and communist doctors Some fought back first by fighting against Fascism in the Spanish Civil War and then by helping the

Chinese in their struggle against Japan There were however two rival factions in China One favored Chiang Kai shek the nationalists and the other the communists and 27 foreign medical personnel were caught between them Amidst poverty war and corruption living conditions were poor and traveling was hazardous This book follows members of the Chinese Red Cross Medical Relief Corps through the war as they became enemy aliens and pursued their work despite the perils These doctors had a keen sense of public health needs and contributed to the recognition and management of infectious diseases and nutritional disorders all the while denouncing corruption inhumanity and inequality

Negotiating China's Destiny in World War II Hans van de Ven, Diana Lary, Stephen MacKinnon, 2014-12-03 Negotiating China's Destiny explains how China developed from a country that hardly mattered internationally into the important world power it is today Before World War II China had suffered through five wars with European powers as well as American imperial policies resulting in economic military and political domination This shifted dramatically during WWII when alliances needed to be realigned resulting in the evolution of China's relationships with the USSR the U S Britain France India and Japan Based on key historical archives memoirs and periodicals from across East Asia and the West this book explains how China was able to become one of the Allies with a seat on the Security Council thus changing the course of its future Breaking with U S centered analyses which stressed the incompetence of Chinese Nationalist diplomacy Negotiating China's Destiny makes the first sustained use of the diaries of Chiang Kai shek which have only become available in the last few years and who is revealed as instrumental in asserting China's claims at this pivotal point Negotiating China's Destiny demonstrates that China's concerns were far broader than previously acknowledged and that despite the country's military weakness it pursued its policy of enhancing its international stature recovering control over borderlands it had lost to European imperialism in the nineteenth and early twentieth century and becoming recognized as an important allied power with determination and success

Planet Canada John Stackhouse, 2020-10-06 A leading thinker on Canada's place in the world contends that our country's greatest untapped resource may be the three million Canadians who don't live here Entrepreneurs educators humanitarians an entire province's worth of Canadian citizens live outside Canada Some will return others won't But what they all share is the ability and often the desire to export Canadian values to a world sorely in need of them And to act as ambassadors for Canada in industries and societies where diplomatic efforts find little traction Surely a country with people as diverse as Canada's ought to plug itself into every corner of the globe We don't and sometimes not even when our expats are eager to help Failing to put this desire to work contends bestselling author and longtime foreign correspondent John Stackhouse is a grave error for a small country whose voice is getting lost behind developing nations of rapidly increasing influence The soft power we once boasted is getting softer but we have an unparalleled resource if we choose to use it To ensure Canada's place in the world Stackhouse argues in Planet Canada we need this exceptional province of expats and their special claim on the twenty first century
