## **Mccormick On Evidence:**

*McCormick on Evidence* Charles Tilford McCormick, John William Strong, Kenneth S. Broun, 1999      **Believing Against the Evidence** Miriam Schleifer McCormick, 2014-10-30 The question of whether it is ever permissible to believe on insufficient evidence has once again become a live question Greater attention is now being paid to practical dimensions of belief namely issues related to epistemic virtue doxastic responsibility and voluntarism In this book McCormick argues that the standards used to evaluate beliefs are not isolated from other evaluative domains The ultimate criteria for assessing beliefs are the same as those for assessing action because beliefs and actions are both products of agency Two important implications of this thesis both of which deviate from the dominant view in contemporary philosophy are 1 it can be permissible and possible to believe for non evidential reasons and 2 we have a robust control over many of our beliefs a control sufficient to ground attributions of responsibility for belief      McCormick on Evidence Charles Tilford McCormick, Edward W. **Atheism And The Case Against Christ** Matthew S.

Mccormick,2012-09-25 Hundreds of millions of people believe that Jesus came back from the dead This cogent forcefully argued book presents a decidedly unpopular view namely that the central tenet of Christianity the resurrection of Jesus is false The author asks a number of probing questions Is the evidence about Jesus as it has been relayed to us over the centuries of sufficient quantity and quality to justify belief in the resurrection How can we accept the resurrection but reject magic at the Salem witch trials What light does contemporary research about human rationality from the fields of behavioral economics empirical psychology cognitive science and philosophy shed on the resurrection and religious belief Can we use contemporary research about the reliability of people's beliefs in the supernatural miracles and the paranormal to shed light on the origins of Christianity and other religions Does it make sense that the all powerful creator of the universe would employ miracles to achieve his ends Can a Christian believe by faith alone and yet reasonably deny the supernatural claims of other religions Do the arguments against Christianity support atheism By carefully answering each of these questions this book undermines Christianity and theism at their foundations it gives us a powerful model for better critical reasoning and it builds a compelling case for atheism Without stooping to condescension or arrogance the author offers persuasive arguments that are accessible thoughtful and new

Sonenshein,2007 *Cases and Materials on the Rules of Evidence* Olin Guy Wellborn,2003 Curriculum Evaluation in Schools Robert McCormick,Mary James,2018-10-03 Originally published in 1983 and as a second edition in 1988 An attempt is made in this book to disentangle some of the professional ethical political theoretical and practical issues involved in curriculum evaluation This book presents evidence concerning a number of evaluation strategies and techniques drawing on experience in several countries including the UK Australia and the US to debate the potential of insider and outsider approaches to evaluation and combinations of the two It also offers a practical source book for those wishing to plan and

conduct curriculum evaluations Finally it considers the crucial question of how evaluation can influence curriculum action and thereby teaching and learning *Machiavellian Democracy* John P. McCormick,2011-01-31 Intensifying economic and political inequality poses a dangerous threat to the liberty of democratic citizens Mounting evidence suggests that economic power not popular will determines public policy and that elections consistently fail to keep public officials accountable to the people McCormick confronts this dire situation through a dramatic reinterpretation of Niccol Machiavelli's political thought Highlighting previously neglected democratic strains in Machiavelli's major writings McCormick excavates institutions through which the common people of ancient medieval and Renaissance republics constrained the power of wealthy citizens and public magistrates and he imagines how such institutions might be revived today It reassesses one of the central figures in the Western political canon and decisively intervenes into current debates over institutional design and democratic reform McCormick proposes a citizen body that excludes socioeconomic and political elites and grants randomly selected common people significant veto legislative and censure authority within government and over public officials **No Family History** Sabrina McCormick,2009-07-16 No Family History presents compelling evidence of environmental links to breast cancer ranging from everyday cosmetics to industrial waste Sabrina McCormick weaves the story of one survivor with no family history into a powerful exploration of the big business of breast cancer As drugs pink products and corporate sponsorships generate enormous revenue to find a cure a growing number of experts argue that we should instead increase focus on prevention reducing environmental exposures that have contributed to the sharp increase of breast cancer rates But the dollars continue to pour into the search for a cure and the companies that profit including some pharmaceutical and cosmetics companies may in fact contribute to the environmental causes of breast cancer No Family History shows how profits drive our public focus on the cure rather than prevention and suggests new ways to reduce breast cancer rates in the future *Finding Dimes* Maureen McCormick McHugh,2013-12-10 In a world full of chaos crises despair and calamities it is easy to dismiss life's little miracles particularly God's presence in everyone's life When Maureen McCormick McHugh's paternal grandfather and maternal grandmother passed away she began to find nickels everywhere in car seats in sidewalks or even her change from the grocery store She first dismissed the signs until she realized that whenever she prayed the hardest it was when she always found the nickels Pondering over the matter led her to believe that the nickels were signs her angels were listening to her Later on the nickels turned to dimes a symbol of spiritual presence that helped her and her loved ones cope with unfortunate life situations especially the battle with cancer and eventual death of their brother Tim With the dimes appearance every now and then apart from other symbols she knows she would never be alone if life's uncertainties once again befall her She knows in her heart that when death conquers her God would let her be an angel to the loved ones she would leave behind just like her grandpa grandma and Tim are doing to her now **Origins of the European Economy** Michael McCormick,2001 For fifty years debate has raged about early European commerce during the period

between antiquity and the middle ages Was there trade If so in what and with whom New evidence and new ways of looking at old evidence are now breaking the stalemate Analysis of communications the movements of people ideas and things is transforming our vision of Europe and the Mediterranean in the age of Charlemagne and Harun al Rashid This is the first comprehensive analysis of the economic transition during this period for over sixty years Using new materials and new methodology it will attract all social and economic historians of antiquity and the middle ages and anyone concerned with the origins of Europe the history of the slave trade medicine and disease cross cultural contacts and the Muslim and Byzantine worlds
