was filled with such good fortune that the term Custer's Luck was used to refer to an unusually fortuitous event. Road to Disaster examines Custer's unusual mental and emotional make up which played out in his military career, his relationship with his wife and in the death he and many of his men found at the end of their march into Montana. A clearer picture of the man appears, providing answers as to why military success followed him to the top of his career and why the Battle of the Little Bighorn became such a shocking disaster in the summer of 1876. Little Bighorn Michael L. Lawson, 2009. On June 25, 1876, the United States Army suffered the worst defeat of all its battles with Native Americans. Allied Sioux and Northern Cheyenne warriors successfully turned back a surprise attack on their village near the Little Bighorn River in Montana. Killed in the battle were Lieutenant Colonel George Armstrong Custer, the colorful and controversial commanding officer of the 7th Cavalry Regiment, and 267 men under his command. Little Bighorn traces the events that led to this historic confrontation, which though a great tactical victory for the Native American warriors and the families they fought to protect, also set in motion a series of negative events for the Sioux and their allies. **Dr. Henry R. Porter** L.G. Walker, Jr., M.D., 2010-07-27. Custer came to me and said Porter there is a large camp of Indians ahead and we are going to have a great killing. The words of army contract surgeon Henry R. Porter are chilling today in their matter of fact reference to the battle to come, a battle of which Porter would be one of the few white survivors. Drawing on his writings, this biography tells the story of Porter's transformation from young easterner to ambitious frontier settler and medical practitioner in mid 19th century America. In its details of frontier life, of the infamous Battle of Little Bighorn, and of Porter's later travels around the world which ended with his death in Agra, India, the reader finds richness that brings history vividly to life. Appendices contain a list of items from the North Dakota Historical Society's Henry R. Porter collection and a detailed Porter lineage. **A Life Cut Short at the Little Big Horn** Todd E. Harburn, 2023-02-23. Of the three physicians at the Battle of the Little Big Horn, Doctor George Edwin Lord, 1846-1906, was the lone commissioned medical officer, an assistant surgeon with the United States Army's 7th Cavalry, one more soldier caught up in the U.S. government's efforts to fulfill what many people believed was the young country's Manifest Destiny. A Life Cut Short at the Little Big Horn tells Lord's story for the first time. Notable for its unique angle on Custer's last stand and for its depiction of frontier era medicine, the book is above all a compelling portrait of the making of an army medical professional in mid nineteenth century America. Drawing on newly discovered documents, Todd E. Harburn describes Lord's education and training at Bowdoin College in Maine and the Chicago Medical College, detailing what the study of medicine entailed at the time for a young man of promise held in universal esteem. Lord's time as a contract physician with the army took him in 1874 to the U.S. Northern Boundary Survey. From there, Harburn recounts how, after a failed romance and the rigors of the U.S. Army Medical Board examination, the young doctor proceeded to his first and only appointment as a post surgeon at Fort Buford in Dakota Territory. What followed, of course, was Lord's service and his death in the Little Big Horn campaign, which this book shows us for the first time from the unique perspective of the surgeon. A

portrait of a singular figure in the milieu of the American military's nineteenth century medical elite *A Life Cut Short at the Little Big Horn* offers a close look at a familiar chapter in U S history and a reminder of the humanity lost in a battle that resonates to this day *Biilaachia-White Swan* Rodney G.
