classroom teachers often say they integrate there generally seems to be a lack of understanding of what this thing called integration is theory and what it is supposed to look like in the classroom practice Arguably no other discipline has felt the pressure to integrate more than social studies Marginalized by federal initiatives such as No Child Left Behind and suffering from a general crisis of credibility social studies has been pushed further and further to the proverbial back burner of educational importance Yet regardless of perspective or position social studies remains ripe for integration The crux of this book is to provide educators insights and strategies into how to integrate social studies with other discipline areas Calling upon national experts in their respective fields each chapter chronicles the broad relationship between individual content areas and social studies Multiple examples of integrative opportunities are included At the end of each chapter is a series of grade specific integrative lesson plans ready for implementation This book was purposefully designed as a how to hands on ready reference guide for educators at all stages and all levels of teaching **Math Makes Sense 7** Ray Appel,2016
