**McIntyre Country** Peter McIntyre, 1979-01-01      **New Zealand National Bibliography**, 1979      **New Zealand Painting** Michael Dunn, 2003 Completely revised and updated Chapters have been rewritten Also added in a substantial new chapter on contemporary Maori and Pacific Island painting as well as an acknowledgement of the coming wave of Asian artists      **Collecting the West** Richard H. Saunders, Archer M. Huntington Art Gallery, 1988 Information on the works and artists represented in the collection      *High Country Woman* Iris Scott, 2012-04-13 A special book about a unique high country farmer and her historic sheep station New Zealand's high country farmers are a special breed They farm in tough terrain at high altitudes in areas where extreme climate puts both man and animal to the test When she was widowed with three children in 1992 Iris Scott had to call on all her farming skill and inner strength to carry on as the runholder of the 150 year old 18 000 hectare Rees Valley Station at the head of Lake Wakatipu near Glenorchy Not only that she had to run the station on her own and keep up her veterinary practice *High Country Woman* is the engaging story of Iris Scott's love of our high country and her determination to farm it successfully while upholding high conservation and land guardianship values The book also covers the fascinating history of the area long known to locals as The Head of the Lake the focus of William Rees' great sheep run established not long after he and Nicolas von Tunzelman became two of the earliest Europeans to travel into the area in an epic exploration feat in 1860      **Arts in New Zealand**, 1928      Subject Catalog Library of Congress,      **Grazing in Future Multi-scapes: From Thoughtscapes to Landscapes, Creating Health from the Ground Up** Pablo Gregorini, Iain James Gordon, Carol Kerven, Fred Provenza, 2022-09-27 This Research Topic is hosted in partnership with the Grazing in Future Multi Scapes international workshop The workshop will be held online 30th May 5th June 2021 Throughout different landscapes of the world grazing herbivores fulfill essential roles in ecology agriculture economies and cultures including families farms and communities Not only do livestock provide food and wealth they also deliver ecosystem services through the roles they play in environmental composition structure and dynamics Grazing as a descriptive adjective locates herbivores within a spatial and temporal pastoral context where they naturally graze or are grazed by farmers ranchers shepherds etc In many cases however pastoralism with the single objective of maximizing animal production and/or profit has transformed landscapes diminishing biodiversity reducing water and air quality accelerating loss of soil and plant biomass and displacing indigenous animals and people These degenerative landscape transformations have jeopardized present and future ecosystem and societal services breaking the natural integration of land water air health society and culture Land users policy makers and societies are calling for alternative approaches to pastoral systems a call for diversified adaptive and integrative agro ecological and food pastoral systems designs that operate across multiple scales and scapes e.g. thought social land food health wild scapes simultaneously There needs to be a paradigm shift in pastoral production systems and how grazing herbivores are managed grazed within them derived initially from a change in

perception of how they provide wealth The thoughtsapes will include paradigm shifts where grazers move away from the actual archetype of pastoralism future landscapes are re imagined and regenerative and sustainable management paradigms are put in place to achieve these visions From this will come a change in collective thinking of how communities and cultures socialscapes perceive their relationships with pastoral lands The landscapes are the biotic and abiotic four dimensional domains or environments in need of nurture Landscapes are the tables where humans and herbivores gain their nourishment i e foodscapes Foodscapes and dietary perceptions dictate actions and reactions that are changing as developed countries grapple with diseases related to obesity and people starve in developing countries Societies are demanding healthscapes and nutraceutical foodscapes and paradoxically some are moving away from animal products While indigenous species of animals including humans wildscapes have been displaced from many of their lands by monotonic pastoralism multifunctional pastoral systems can be designed in view of dynamic multi scapes of the future The purpose of this Research Topic is to influence future mental and practical models of pastoralism in continually evolving multi scapes We seek a collection of papers that will cultivate such a shift in thinking towards future models of sustainable multipurpose pastoralism The contributions will be synthesized to establish how multifunctional pastoral systems can be re imagined and then designed in view of the integrative dynamics of sustainable future multi scapes
