combine archaeological data and oral tradition to illustrate how the archaeological expression of beliefs and meanings passed down in the oral tradition may be interpreted. Explanations in Iconography Ancient American Indian Art Symbol and Meaning is a significant contribution to the field of archaeology a contribution in iconography studies that has gradually been coming into its own. Iconography is a rich and fascinating field as applied to the complex and heretofore enigmatic imagery on many ancient Pre Columbian artifacts. When viewed through the lens of early ethnographic records and American Indian oral traditions as well as information from knowledgeable American Indian elders it opens a world of understanding and clarity until recently unknown in the field of anthropological archaeology. It brings us closer to the people who created the artifacts and offers a glimpse into the symbols and beliefs that were important to them. Chapters cover a wide variety of artifacts and imagery from several ancient American Indian cultures. These artifacts include petroglyphs and pictographs rock art mounds engraved shell cups and gorgets burial architecture and grave furniture pottery copper repouss and other media. Ancient graphics engravings mounds and all were created to deliver a message to the viewer and many of those messages are finally coming to light. The artifacts included are from a variety of regions mainly in the Midwest and Eastern United States. We hope that this volume will encourage others to look more deeply into the meaning behind the ancient imagery and arts and give the past a chance to be known.

Early Art of the Southeastern Indians Susan C. Power, 2004. Early Art of the Southeastern Indians is a visual journey through time highlighting some of the most skillfully created art in native North America. The remarkable objects described and pictured here many in full color reveal the hands of master artists who developed lapidary and weaving traditions established centers for production of shell and copper objects and created the first ceramics in North America. Presenting artifacts originating in the Archaic through the Mississippian periods from thousands of years ago through A D 1600 Susan C Power introduces us to an extraordinary assortment of ceremonial and functional objects including pipes vessels figurines and much more. Drawn from every corner of the Southeast from Louisiana to the Ohio River valley from Florida to Oklahoma the pieces chronicle the emergence of new media and the mastery of new techniques as they offer clues to their creators widening awareness of their physical and spiritual worlds. The most complex works writes Power were linked to male and sometimes female leaders. Wearing bold ensembles consisting of symbolic colors sacred media and richly complex designs the leaders controlled large ceremonial centers that were noteworthy in regional art history such as Etowah Georgia Spiro Oklahoma Cahokia Illinois and Moundville Alabama. Many objects were used locally others circulated to distant locales. Power comments on the widening of artists subjects starting with animals and insects moving to humans then culminating in supernatural combinations of both and she discusses how a piece s artistic language could function as a visual shorthand in local style and expression yet embody an iconography of regional proportions. The remarkable achievements of these southeastern artists delight the senses and engage the mind while giving a brief glimpse into the rich symbolic world of feathered serpents and winged beings.
