Farley, 2015-12-17 From the moment when the launching of HMS Dreadnought made every capital ship in the world obsolete overnight we have been fascinated with these powerful surface combatants Here Robert M Farley looks at the history and folklore that makes these ships enduring symbols of national power and sometimes national futility From Arizona to Yamato here are more than sixty lavishly illustrated accounts of battleships from the most well known to the most unusual including at least one ship from every nation that ever owned a modern battleship Separate essays and sidebars look at events and lore that greatly affected battleships     **President McKinley** Robert W. Merry, 2017-11-07 Lively definitive eye opening this book by acclaimed historian Robert W Merry brilliantly evokes the life and presidency of William McKinley cut short by an assassin Most often lost in the shadow of his brilliant and flamboyant successor TR the twenty fifth president is presented by Merry as a transformative figure the first modern Republican It was President McKinley who established the United States as an imperial power In the Spanish American War he kicked Spain out of the Caribbean in the Pacific he acquired Hawaii and the Philippines through war and diplomacy he took the country to a strict gold standard he developed the doctrine of fair trade he forced the Open Door to China and he forged the special relationship with Great Britain McKinley established the noncolonial imperialism that took America global He set the stage for the bold leadership of Theodore Roosevelt who built on his accomplishments This book brings to life a sympathetic man and an often overlooked president Merry raises his rank to a chief executive of consequence who paved the way for the American Century Dust jacket flap     **Battleships and Battle-cruisers, 1884-1984** Myron J. **US Navy Battleships 1886-98** Brian Lane Herder,2019-06-27 After the American Civil War the US Navy had been allowed to decay into complete insignificance yet the commissioning of the modern Brazilian battleship Riachuelo and poor performance against the contemporary Spanish fleet forced the US out of its isolationist posture towards battleships The first true US battleships began with the experimental Maine and Texas followed by the three ship Indiana class and the Iowa class which incorporated lessons from the previous ships These initial ships set the enduring US battleship standard of being heavily armed and armoured at the expense of speed This fully illustrated study examines these first six US battleships a story of political compromises clean sheet designs operational experience and experimental improvements These ships directly inspired the creation of an embryonic American military industrial complex enabled a permanent outward looking shift in American foreign policy and laid the foundations of the modern US Navy **History of Navigation & Navigation Improvements on the Pacific Coast** Anthony F.
