**McLuhan's Children: The Greenpeace Message and the Media** Stephen Dale, 1996-09-01 McLuhan's Children is an inside look at Greenpeace's rise to global prominence through its savvy use of mass media imagery From the flamboyant guerilla theatre approach to the emergence of environmentalism as a dominant international issue **McLuhan's Children** Stephen Dale, 1996 McLuhan's Children is an inside look at Greenpeace's rise to global prominence through its savvy use of mass media imagery From the flamboyant guerilla theatre approach to the emergence of environmentalism as a dominant international issue **Forgetting Children Born of War** Charli Carpenter, 2010-05-31 Sexual violence and exploitation occur in many conflict zones and the children born of such acts face discrimination stigma and infanticide Yet the massive transnational network of organizations working to protect war affected children has for two decades remained curiously silent on the needs of this vulnerable population Focusing specifically on the case of Bosnia Herzegovina R Charli Carpenter questions the framing of atrocity by human rights organizations and the limitations these narratives impose on their response She finds that human rights groups set their agendas according to certain grievances the claims of female rape victims or the complaints of aggrieved minorities for example and that these concerns can overshadow the needs of others Incorporating her research into a host of other conflict zones Carpenter shows that the social construction of rights claims is contingent upon the social construction of wrongs According to Carpenter this pathology prevents the full protection of children born of war **Morals and the Media, 2nd edition** Nicholas Russell, 2011-11-01 Confronted daily with decisions on how to present their stories what to write and what not to write journalists and the media are frequently accused of sensationalizing of choosing to report the bad news and of misquoting those they interview In this substantially updated edition of *Morals and the Media* Nick Russell addresses many of the concerns the public has about the media as he examines why the media behave the way they do He also discusses how values have been developed and applied and suggests value systems that can be used to judge special situations This revised edition covers the many changes in the Canadian media in the last decade including further concentration of media ownership media convergence online journalism the rise of the web log and the tightening economic pressures on the industry as a whole While much of the debate in this field has focused on conditions in the United States Russell points out that the ethical issues that arise in Canada are often substantially different from those in the US He has also added new Tough Calls at the end of each chapter inviting readers to test their own ethics in scenarios drawn from real news stories *Morals and the Media* will be essential reading in journalism courses as well as an important resource for journalists It will also be of interest to the consumers of journalism the readers listeners and watchers who wonder why the media do what they do **A History of Environmentalism** Marco Armiero, Lise Sedrez, 2014-07-31 Think globally act locally has become a call to environmentalist mobilization proposing a closer connection between global concerns local issues and individual responsibility *A History of Environmentalism* explores this dialectic relationship with ten

contributors from a range of disciplines providing a history of environmentalism which frames global themes and narrates local stories Each of the chapters in this volume addresses specific struggles in the history of environmental movements for example over national parks species protection forests waste contamination nuclear energy and expropriation A diverse range of environments and environmental actors are covered including the communities in the Amazonian Forest the antelope in Tibet atomic power plants in Europe and oil and politics in the Niger Delta The chapters demonstrate how these conflicts make visible the intricate connections between local and global the body and the environment and power and nature A History of Environmentalism tells us much about transformations of cultural perceptions and ways of production and consuming as well as ecological and social changes More than offering an exhaustive picture of the entire environmentalist movement A History of Environmentalism highlights the importance of the experience of environmentalism within local communities It offers a worldwide and polyphonic perspective making it key reading for students and scholars of global and environmental history and political ecology

**Manufacturing National Park Nature** J. Keri Cronin, 2011-07-01 Jasper National Park is an international travel destination world heritage site and icon of Canadian identity Although national parks occupy a prominent place in the Canadian imagination we are only beginning to understand how their visual imagery has shaped and continues to inform our perception of the natural world ecological issues and ourselves In *Manufacturing National Park Nature* J Keri Cronin draws on visual images such as postcards and tourist snapshots to show that popular forms of picturing nature can have ecological implications that extend far beyond the frame of the image Adopting an ecocritical approach to visual culture she reveals that packaging Jasper as a series of breathtaking vistas and adorable looking animals masks the real threats to the park's ecosystems In telling the story of how various groups have used photography to shape our ideas about nature this book sets the stage for a re-examination of protection policies and acknowledgment of environmental damage in national parks
