Economy,2023-08-14 An economic and military superpower with 20 percent of the world s population China has the wherewithal to transform the international system Xi Jinping s bold calls for China to lead in the reform of the global governance system suggest that he has just such an ambition But how does he plan to realize it And what does it mean for the rest of the world In this compelling book Elizabeth Economy reveals China s ambitious new strategy to reclaim the country s past glory and reshape the geostrategic landscape in dramatic new ways Xi s vision is one of Chinese centrality on the global stage in which the mainland has realized its sovereignty claims over Hong Kong Taiwan and the South China Sea deepened its global political economic and security reach through its grand scale Belt and Road Initiative and used its leadership in the United Nations and other institutions to align international norms and values particularly around human rights with those of China It is a world radically different from that of today The international community needs to understand and respond to the great risks as well as the potential opportunities of a world rebuilt by China [Voyager in Bondage](#) Simon Finch,2013-02-01 Vesuvio is the golden Voyager destined to journey through every cavern of depravity in the ancient world It is a time when Rome was at its most decadent and throbbing with the muscle of slavery the First Century A D an age of sensual adventure and unbridled sexuality Following Golden Voyager and Pagan Voyager the earlier volumes in the spectacular Voyager trilogy comes the final chapter in the adventures of Vesuvio Rome s greatest hero Vesuvio is now a

Development Beyond Neoliberalism? David Alan Craig, Doug Porter, 2006-09-27 This book is among the first to take the poverty reduction paradigm as its central focus Offering a comprehensive introduction overview and critique it traces the emergence of the framework and illustrates its consequences with global case studies Breaking the Phalanx Douglas A. Macgregor, 1997-01-30 This work proposes the reorganization of America's ground forces on the strategic operational and tactical levels Central to the proposal is the simple thesis that the U S Army must take control of its future by exploiting the emerging revolution in military affairs The analysis argues that a new Army warfighting organization will not only be more deployable and effective in Joint operations reorganized information age ground forces will be significantly less expensive to operate maintain and modernize than the Army's current Cold War division based organizations And while ground forces must be equipped with the newest Institute weapons new technology will not fulfill its promise of shaping the battlefield to American advantage if new devices are merely grafted on to old organizations that are not specifically designed to exploit them It is not enough to rely on the infusion of new expensive technology into the American defense establishment to preserve America's strategic dominance in the next century The work makes it clear that planes ships and missiles cannot do the job of defending America's global security issues alone The United States must opt for reform and reorganization of the nation's ground forces and avoid repeating Britain's historic mistake of always fielding an effective army just in time to avoid defeat but too late to deter an aggressor **Council of War** Steven L. Rearden, National Defense University Press, 2012-07 Established during World War II to advise the President on the strategic direction of the Armed Forces of the United States the Joint Chiefs of Staff JCS continued in existence after the war and as military advisers and planners have played a significant role in the development of national policy Knowledge of JCS relations with the President the Secretary of Defense and the National Security Council is essential to an understanding of the current work of the Chairman and the Joint Staff A history of their activities both in war and peacetime also provides important insights into the military history of the United States For these reasons the Joint Chiefs of Staff directed that an official history of their activities be kept for the record Its value for instructional purposes for the orientation of officers newly assigned to the JCS organization and as a source of information for staff studies is self apparent Adopting a broad view it surveys the JCS role and contributions from the early

days of World War II through the end of the Cold War Written from a combination of primary and secondary sources it is a fresh work of scholarship looking at the problems of this era and their military implications The main prism is that of the Joint Chiefs of Staff but in laying out the JCS perspective it deals also with the wider impact of key decisions and the ensuing policies P vii

Asper Nation Marc Edge, 2007 The second generation of Aspers that now runs Canada s largest news media company is much like the first Israel Izzy Asper s three children often appear in today s headlines David is bidding to buy the Winnipeg Blue Bombers football team Gail heads fundraising efforts for the new Canadian Museum of Human Rights Leonard sits in his father s place as head of CanWest Global Communications Like its founder they also use their media empire to influence public opinion Asper Nation explains why Canadians should be concerned about where the country s first family of news media is coming from politically Izzy Asper was an oddity as a Liberal politician in the 1970s Fiscally he was to the right of most Conservatives As a nationally syndicated newspaper columnist he called for a flat tax and workfare As a best selling author he helped thwart a plan to shift Canada s tax burden from the middle class onto corporations But when Asper took his policies to Manitobans as Liberal leader in 1973 he was soundly defeated Asper got into the television business instead and built Canada s third network Asper made CanWest the country s most profitable broadcaster by feasting on regulations that encouraged the importation of cheap American programming He took his formula to the world in the 1990s buying television networks in New Zealand Australia and Ireland Then in 2000 Asper pioneered media convergence buying Canada s largest newspaper chain from Conrad Black Southam dailies were soon ordered to run national editorials written at CanWest Global headquarters in Winnipeg This corporate news control brought protest from journalists and two government inquiries Neither resulted in long sought limits on media
