Mcneils Travels:

McNeil's Travels in 1849, To, Through and from the Gold Regions, in California Samuel McNeil, 1850 Samuel McNeil left his shoemaking business in Lancaster Ohio in January 1849 for a trip to the California gold fields via Panama Unlike many 49ers he had sense enough to return home when he had accumulated enough gold to meet his needs McNeil's travels in 1849 1850 recounts the shipwreck that forced McNeil and his compatriots to travel overland from Texas to Mazatlán where they obtained passage to San Francisco He then describes prospecting at Smiths Bar on the North Fork of the American River Bear River Weaver's Creek and other Feather and Trinity Rivers camps until August when he took his stake of 2 000 and booked passage east McNeil's Travels Samuel McNeil, 1989 **McNeils Travels in 1849 To, Through, and from the Gold Regions in California. Columbus [Ohio]** Samuel McNeil, 1850 **McNeil's Travels in 1849, To, Through and from the Gold Regions, in California** Samuel McNeil, 1930 *Gold!* Fred Rosen, 2015-11-17 A riveting true account of gold rush fever in mid nineteenth century America rich with the thrilling exploits of daring fortune seekers and dangerous outlaws America was never the same after January 24 1848 It was on that day that a carpenter named James Marshall discovered a tiny nugget of gold while building a sawmill at Sutter's Fort just east of Sacramento California Marshall's find ignited a fever the nation had never known before drawing people from all over the country to the West Coast with high hopes of getting rich quick Over the next six years three hundred thousand prospectors raced to the California gold fields to make their fortunes leaving their lands and families behind in order to chase a dream of easy wealth but all too often encountering a reality of lawlessness disease cruelty and death A former columnist for the New York Times author Fred Rosen takes readers back to the seminal moment when the American dream exploded Chock full of fascinating details unforgettable characters and shocking real life events the captivating true story of the California gold rush brings an era of unparalleled change to breathtaking life Rosen's enthralling history of the gold rush of 1848 demonstrates how this golden ideal was supplanted by a culture of selfishness and greed that endures in America to this very day **McNeil's Code** Bedford McNeill, 1908 Gold Seeking David Goodman, 1994 The brave independence of the roaring days the camaraderie of the gold fields jolly diggers on a spree these are the images that have come down to us of the gold era of the 1850s in Australia and California But these images were largely shaped decades later by writers such as Henry Lawson and Bret Harte they speak of later nostalgia rather than the experience of the time In this study of the contemporary response to the discoveries of gold in Victoria and California David Goodman argues that people at the time were apprehensive about gold rushing and the kind of society it seemed to prefigure In the chaos of the gold rushes individual self interest seemed to be all that could motivate people to any exertion And it was only the economic rationalists of the day those who believed in political economy and its promise that out of the confusion of individual self interest would come some sort of social order who could wholeheartedly endorse the gold rushes as events This is a history of the ways people talked about gold As the first full

length cultural history of the gold rushes on two continents it examines the meanings of gold at the time and the narratives which were told about social disruption It locates the deeper underlying themes in the response to gold It also looks at the ways in which the dominant later memories of gold were shaped And it is about national differences about the construction of distinctive national cultures out of materials common to the British world This book should be read not only by Australian and American historians but by anyone with an interest in the cultural history of modernity BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **University of California Publications in History** ,1921

the spring and summer of 1848 At first most people thought the reports were too good to be true but as weeks and months flew by they heard about more people striking it rich and imaginations started to run wild Tens of thousands of people started to dream about gold and some of them left everything they knew to make the journey to California It didn't matter if you were black white or brown anyone could go Even people in Central and South America Australia China and Western Europe heard about the gold and made the journey By 1855 hundreds of thousands of people had converged on California In this study the author shares diary entries from gold seekers painting a detailed portrait of the frenzy that overtook the world the lives of the miners and how the move West changed the fabric of a nation Without the dreams hard work and dedication of the miners who moved West the United States of America would not be what it is today
