Que Es Lo Real Ensayo Psicoanalitico:

¿Qué es lo "real"? Gérard Pommier, 2005 En las discusiones y los debates que ocuparon el fin del último milenio la noción de real fue a menudo empleada para explicar la imposibilidad de explicar Lo real no es sin embargo uno de esos significantes adecuados para servir de estación terminales para concluir argumentaciones azarosas Este libro fue escrito en pocas semanas de vacaciones a continuación de controversias bastante fuertes sobre la cientificidad del psicoanálisis y su relación con lo real **Ensayo teatral, actuación y puesta en escena. Stanislavski, psicoanálisis y praxis teatral** Gustavo Geirola, 2014-11-12

Relectura del Sistema de Stanislavski desde una perspectiva psicoanalítica freudiana lacaniana para desbrozar la teoría implícita que fundamenta dicho Sistema de formación actoral El libro realiza una aproximación teórica a la praxis teatral es decir al trabajo del actor y del director durante los ensayos y la puesta en escena El psicoanálisis y lo social Raúl Páramo Ortega, 2011-11-28 Intentar desxifrar los avances y retrocesos del proceso civilizatorio Norbert Elias requiere la aportación de enfoques múltiples Los trabajos que se reúnen en este libro son intentos de ensayo de una labor de sastre que abasta entre las distintas disciplinas Sin intención premeditada sino en cohesión orgánica aparecen representados igual la psicoanálisis que el marxismo la sociología que la etología A los cuatro grandes crímenes de la civilización occidental y cristiana Darwin Marx Nietzsche y Freud se les invita imprescindibles Esta obra comprende una interpretación de un contenido de J. L. Borges a consideraciones históricas sobre la Viena de Freud Es puesta sobre la lupa las relaciones entre la cultura y la psicoanálisis o el colonialismo posado al servicio del espíritu El autor ha explorado conexiones poco visibles entre el que siempre habría de considerarse como unitario el social y el individual la naturaleza y la cultura Entendidos al individuo como a producto de sedimentación histórica y como a concreción ciertamente más o menos encriptada de estructuras sociales con la certeza que la psicoanálisis es una causa perdida si resulta indiferente a los misterios de nuestros sistemas políticos y económicos Psicoanálisis y realidad Armando Suárez, 1989-01-01 Libro homenaje a la memoria de uno de los más brillantes formadores de psicoanalistas en México el doctor Armando Suárez quien siempre promovió el interés por la investigación y una actitud vigilante frente a dogmatismos y corrientes de moda rechazando a los repetidores de doctrinas y a practicantes satisfechos Este espíritu es el que anima los ocho trabajos de esta obra *Obra ensayística: Literatura psicoanálisis. Ensayos contra reloj* Margarita Carrera, 1985

Una revisión de la teoría psicoanalítica a la luz de la ciencia moderna Juan Auping Birch, 2000 **Jacques Lacan y el problema de la técnica en psicoanálisis** Domenico Cosenza, 2018-02-15 Trabajo fundamental para entender de qué modo se orienta el psicoanalista formado con los principios de Lacan En el psicoanálisis se puede decir cualquier cosa pero no se puede hacer cualquier cosa Se podrá escribir este aforismo como divisa del libro de Domenico Cosenza El autor trata aquí de la técnica del psicoanálisis El propio título evoca para el lector atento el del primer seminario de Lacan Los escritos técnicos de Freud El paralelismo entre los títulos de ambas obras no es casual Ambas tienen la misma perspectiva Naturalmente Domenico Cosenza continúa y retoma la perspectiva de Lacan y ofrece en lo relativo a la técnica psicoanalítica

una lectura exhaustiva y articulada de la enseñanza de Lacan Toma en consideración sus diversos periodos partiendo del campo de lo imaginario y de la crítica que de él hace Lacan para llegar en un segundo momento al campo simbólico que revela el funcionamiento y la estructura misma del inconsciente y finalmente en un tercer momento al cuestionamiento de lo real que hay en juego en toda experiencia analítica

Epistemología fronteriza Cora Escobar, Juan Besse, 2016-06-01 La investigación social puede pensarse como una región fronteriza entre las aspiraciones universales que entienden al conocimiento como posibilidad de la especie y como necesidad de orden cultural y su particularidad en tanto invenciones históricas situadas entre ellas la ciencia y la ciencia social La producción de sujetos y objetos de conocimiento en las prácticas de investigación tiene como requisito no sólo las condiciones necesarias tales como la capacidad de simbolizar e imaginar sino también la inscripción de esos sujetos objetos en saberes disciplinas y ciencias históricamente constituidas Los trabajos que forman parte de este libro se palpan en esas fronteras En cada uno de los capítulos los autores hacen reverberar en sus escrituras improntas disciplinares las certidumbres y las ignorancias los modos de dudar y de evidenciar los estilos de razonar que ponen de manifiesto las formaciones primarias transitadas Pero en ninguno de los casos la razón disciplinar se ejerce como fundamento último

Poética del psicoanálisis Rosario Herrera Guido, 2008

Comer y ser comido Matías Bruera, 2025-05-01 Desde tiempos inmemoriales la humanidad ha intentado separar el acto de alimentarse de su costado más crudo la depredación Matías Bruera desmonta este velo con una mirada filosófica aguda y provocadora y explora cómo la comida ha sido históricamente representada simbolizada y estetizada para ocultar la violencia de la incorporación Comer y ser comido propone una fenomenología de la alimentación que desafía los límites entre cultura y naturaleza placer y necesidad lenguaje y materia Hasta qué punto el acto de comer nos define Qué devoramos cuando creemos que sólo nos estamos alimentando En un mundo donde la comida es cada vez más abstracta este libro es una invitación a repensar el significado de cada bocado

Sueño. Improvisación. Teatro. Ensayos sobre la praxis teatral Gustavo Geirola, 2019-07-24 Este libro que pone en relación el teatro con el psicoanálisis freudiano lacaniano pretende fundar una disciplina llamada praxis teatral la cual se enfoca en el trabajo del teatrante actor director y artistas creativos durante los ensayos esto es improvisaciones construcción de escena y montaje No se preocupa por los estudios teatrales tradicionales en sentido académico como los análisis de textos dramáticos o espectaculares No es una aproximación clínica al grupo teatral sino una implementación de los conceptos fundamentales del psicoanálisis inconsciente transferencia pulsión repetición como apoyo técnico para trabajar durante los ensayos teatrales y para replantear la relación con el público demanda y construcción de hegemonía La interpretación de los sueños de Freud provee las bases para homologar sueño improvisación y teatro Se debate además la cuestión pedagógica y la problemática académica derivada de este encuadre cuestionando criterios de cientificidad y aplicabilidad

Escritura y psicoanálisis Helí Morales Ascencio, 1996 El sujeto se constituye desde lo simbólico Para el psicoanálisis un sujeto es efecto del lenguaje más específicamente es lo que es representado por un significante para otro significante Pero no

s lo eso el sujeto es efecto de la materialidad del significativo hecho trazo La escritura es la materialidad del decir es el espacio donde se asienta el lenguaje en su transcurrir Este libro es el resultado del pasaje al texto escrito de aquello que fuera voz

Psicoanálisis del expresionismo Oskar Pfister, Manuel Pérez Cornejo, 2022-09-13 En su ensayo *Der psychologische und biologische Untergrund expressionistischer Bilder* 1920 traducido aquí por primera vez al español el psicoanalista Oskar Pfister se propuso penetrar en las raíces inconscientes del expresionismo Partiendo de un exhaustivo análisis de los dibujos realizados por un joven artista adscrito a este movimiento Pfister desvela los conflictos mentales que condicionan el peculiar estilo practicado por esta vanguardia histórica Para el autor la distorsión expresionista es producto de la profunda escisión que fractura la psique del sujeto actual desgarradura que a su juicio solo podrá curar una comprensión más profunda de la atormentada mente contemporánea unida a la práctica de una creatividad más lúcida y reconciliada con la realidad

Novela, mujeres y política en Jorge Luis Borges Liliana Bellone, Antonio Ramón Gutiérrez, 2021-05-25 La concepción de la literatura como palimpsesto y los principios teóricos del psicoanálisis acerca de un sujeto atravesado por la falta constitutiva que es la falta en el lenguaje son los hilos guías de la lectura de los textos borgeanos que llevan adelante Liliana Bellone y Antonio Ramón Gutiérrez La cuestión del otro el semejante la dimensión imaginaria o especular en articulación con el Otro de la cultura el Otro simbólico aparece como constitutiva en la ficción y la poesía de Jorge Luis Borges Escritura realizada sobre la red de los textos universales la escritura del maestro argentino propone distintas aristas que permiten un itinerario posible en su obra la novela lo femenino y la relación con la política

Principios de la Práctica Psicoanalítica José Eduardo Tappan Merino, Este texto que está a punto de leer muy probablemente está destinado a ser un acontecimiento tomando como punto de referencia lo planteado por Žižek que nos dice al respecto Un acontecimiento no es algo que ocurre en el mundo sino un cambio del planteamiento a través del cual percibimos el mundo y nos relacionamos con él

Psicoanálisis del fanatismo HADDAD GÉRARD, 2023-01-16 Con este libro Psicoanálisis del fanatismo de Gérard Haddad decidimos comenzar nuestra colección de psicoanálisis Decisivo para la práctica del psicoanálisis tanto en sus aportes teóricos como en sus múltiples atravesamientos en la cultura de ese nuevo dios capitalista El fanatismo es eso que vive sin dubitación encarnando la verdad de Dios por su realización como verdad sin velo A partir de la diferencia estructural entre representar una verdad y encarnarla permite al autor despejar los múltiples espejamientos

discursivos que dan cuerpo a una posición en el fanatismo que se reproduce en la tensión incesante y aterradorante entre las estructuras represivas contemporáneas y la presencia en ciernes de las prácticas fundamentalistas encarnadas también en la religión una de sus formas fecundas en los avatares milenarios del arrasarse desde la verdad ciega como pretensión absoluta. Por otra parte desarrolla una línea muy original alrededor del complejo fraternal en los fundamentos de lo que podríamos denominar la lógica o estructura de clan tensión que indefectiblemente lleva al asesinato fraterno y al parricidio criminal. Por extensión a la destrucción de las estructuras elementales del parentesco a las representaciones y funciones simbólicas que sostienen la cultura. Este circuito incesante de lo que no cesa de no inscribirse desencadena a partir de aquí dos vertientes no sólo clínicas sino políticas: 1 el retorno de lo mismo la posición excluyente de la introversión libidinal como variante del fanatismo y 2 la teoría del complot la proyección en la posición paranoica que se le da lugar al exterminio de la diferencia en el otro. El libro de Gérard Haddad resulta de lectura indispensable por su compleja actualidad política y social en un contexto internacional en el que las guerras santas y las guerras emprendidas por los estados militarizados ponen de relieve una multiplicación ad infinitum de cerrado pronóstico en la escena mundial. Por otra parte propone una aproximación clínica de la que la práctica psicoanalítica no puede mantenerse ajena respecto de eso que se produce en el discurso y que por el analista que escucha pone a disposición de su lectura.

Psychoanalytic Work with Families and Couples Susana Kuras Mauer, Sara Moscona, Silvia Resnizky, 2019-10-02. Psychoanalytic Work with Families and Couples rethinks the ways in which conflicts present today in psychoanalytic consulting rooms and the nature of suffering in family couple and sibling bonds. Based on two major concepts that of device drawn from the philosophers Foucault, Deleuze and Agamben and that of link developed by Berenstein and Puget the authors have developed new approaches to clinical practice with families and couples that focus on the complexity, singularity and immanence of patient-analyst interaction in the session. In thinking about link dynamics moreover they go beyond the consulting room to reflect on how these dynamics develop in other spaces such as institutions, organizations and the fraternal circle of colleagues. Part I: Couples and Families Today discusses changes undergone by families and couples in the last thirty years and their effects on psychoanalytic practice. Attributing a link logic to suffering and to the situations that condition it implies making significant decisions regarding our clinical strategy, our choice of a device and of an interpretive path. Faithful to the idea that the clinical dimension calls for transformations, the second part, Facing Clinical Challenges, includes clinical materials from manifold treatment devices that attest to changes both in contemporary paradigms and in the professional lives of psychoanalysts. Psychoanalytic Work with Families and Couples will be of great interest to all practicing psychoanalysts and psychoanalytic psychotherapists.
