Queens University And Not To Yield:

Getting Down to Business Mervin Daub, Bruce Buchan, 1999-09-02 In *Getting Down to Business* Mervin Daub and Bruce Buchan trace the origins of this institution to the present day In its first eighty years the School has grown and changed greatly expanding the range of programs it offers to a dramatically increased number of undergraduates and graduates A series of programs for executives and a productive and research oriented faculty also demonstrate the growth and dynamic achievements of the School This success is even more remarkable when it is recognized that it took place far from the commercial centres of Canada and the United States *Getting Down to Business* is the fascinating story of Queen's School of Business and of the men and women who recognized that there was a growing demand for professionally trained managers and ensured that Queen's would play a leading role in addressing that need

Gael Force Mervin Daub, 1996 *Football at Queen's University* has one of the richest and certainly one of the longest histories of any sport in Canada The Golden Gaels have been a presence in Canadian football at both the amateur and professional level since 1882 *Gael Force* traces this history chronicling the team's ups and downs and integrating them within the history of the university the country and the sport in general

Queen's University Frederick W. Gibson, 1983-10-01 The author emphasizes the role of individuals and yet makes it quite evident that by the time of her centenary in the early days of World War II Queen's had developed an organic vitality through which the vicissitudes occasioned by external fortunes or by internal tensions could be transcended Throughout the period covered by this volume Queen's faced a long hard struggle for adequate resources for research in terms of space equipment and most importantly faculty time the gradual development of graduate work and the building of library resources There was firm and creative leadership through the crises of the war and its aftermath and a renewal of optimism through the final decades of this history

Patterns of the Past Roger Hall, William Westfall, Laurel Sefton MacDowell, 1996-07-25 *Patterns of the Past* has been published to commemorate the one hundredth anniversary of the founding of the Ontario Historical Society Organized on 4 Sept 1888 as the Pioneer Association of Ontario the Society adopted its current name in 1898 Its objectives for a century have been to promote and develop the study of Ontario's past The purpose of this book is both to commemorate and to carry on that worthy tradition Introduced by Ian Wilson Archivist of Ontario and edited by Roger Hall William Westfall and Laurel Sefton MacDowell this distinctive volume is a landmark not only in the Society's history but in the province's historiography Eighteen scholars have pooled their talents to fashion a volume of fresh interpretive essays that chronicle and analyze the whole scope of Ontario's rich and varied past New light is thrown on our understanding of early native peoples rural life in Upper Canada the opening of the North the impact of railways and the growth of businesses and institutions And there is much social study here too especially of the new roles for women in industrial society of working class experience of ethnic groups and of children in our society's past As well there are innovative treatments of the conservation movement of science's role in provincial society and of the relationship between

society and culture in small towns Anyone with an interest in the history of Canada's most populous province will find much in this comprehensive collection Cultures, Communities, and Conflict Euthalia Lisa Panayotidis, Paul James

Stortz, 2012-01-01 Contributing to the social intellectual and academic history of universities the collection provides rich approaches to integral issues at the intersection of higher education and wartime including academic freedom gender peace and activism on campus and the challenges of ethnic diversity The contributors place the historical university in several contexts not the least of which is the university's substantial power to construct and transform intellectual discourse and promote efforts for change both on and off campus *Queen's University, Volume III, 1961-2004* Duncan

McDowall, 2016-04-01 Founded in 1841 by a royal charter Queen's University evolved into a national institution steeped in tradition and an abiding sense of public service Propelled initially by its Presbyterian instincts and an attachment to Gaelic culture Queen's has prospered and adapted over the years to match Canada's ever changing dynamics In this third volume of Queen's University's official history Duncan McDowall demonstrates that the late twentieth century was a contest between expediency and tradition waged through crisis and careful evolution Testing Tradition calibrates the durability of Queen's vaunted traditions in the face of shifts in the broader Canadian society During this time of massive postsecondary expansion Queen's grew sevenfold from a small collegial campus of 3 100 students to a sprawling cosmopolitan place of more than 20 000 students from over 120 countries engaged in undergraduate graduate and professional programs Measuring Queen's University's responses to concerns over social diversity human rights and gender equity through the eyes of its trustees administrators students faculty and the Kingston community this volume pays particular attention to the experiences of women and visible minorities at the university Copiously illustrated with photographs of important people events and aspects of campus life this volume shows how Queen's in having its traditions tested has worked to retain the best of its past while accepting the inevitability of change **Women in Higher Education, 1850-1970** E. Lisa Panayotidis, Paul

Stortz, 2017-09-19 This edited collection illustrates the way in which women's experiences of academe could be both contextually diverse but historically and culturally similar It looks at both the micro individual women and universities and macro level comparative analyses among regions and countries within regional national trans national and international contexts The contributors integrally advance knowledge about the university in history by exploring the intersections of the lived experiences of women students and professors practices of co education and intellectual and academic cultures They also raise important questions about the complementary and multidirectional flow and exchange of academic knowledge and information among gender groups across programmes disciplines and universities Historical inquiry and interpretation serve as efficacious ways with which to understand contemporary events and discourses in higher education and more broadly in community and society This book will provide important historical contexts for current debates about the numerical dominance and significance of women in higher education and the tensions embedded in the gendering of specific academic
