## Queens Gambit Accepted A Sharp And Sound Response To 1d4:

**The Queen's Gambit Accepted** Chris Ward,1999 The Queen's Gambit Accepted QGA is Black's most straightforward answer to the popular Queen's Gambit. Fundamentally sound, it soon leads to sharp play where both sides have plenty of chances to win. This book gives an explanation of the opening.

*The Queen's Gambit Accepted* Chris Ward,2021-01-29 The Queen's Gambit Accepted QGA is Black's most straightforward answer to the popular Queen's Gambit. By accepting the gambit pawn, Black refuses to submit to the strategic bear hug which is so common in the Queen's Gambit Declines. The QGA is fundamentally sound but soon leads to sharp play where both sides have plenty of chances to play for a win. **Chess Life**,1999

*Keep It Simple 1.d4* Christof Sielecki Christof Sielecki,2019-12-12 After the success of his award-winning book *Keep It Simple 1.e4*, International Master Christof Sielecki is back. His new repertoire based on 1.d4 has a similar profile: variations that are straightforward and easy to remember and require little or no maintenance. Sielecki has created a reliable set of opening lines for chess players of almost all levels. The major objective is to dominate Black from the opening by simple means. You don't need to sacrifice anything or memorize long tactical lines. His main concept is for White to play 1.d4 2.Nf3 3.g3 4.Bg2 5.O-O and in most cases 6.c4. Sielecki developed this repertoire while working with students who were looking for something that was easy to understand and easy to learn. This new 1.d4 repertoire may be even easier to master than his 1.e4 recommendations because it is such a coherent system. Sielecki always clearly explains the plans and counterplans and keeps you focussed on what the position requires. Ambitious players rated 1500 or higher will get great value out of studying this extremely accessible book.

**The Slav** Cyrus Lakdawala,2011 This is a new series which provides an ideal platform to study chess openings. By continually challenging the reader to answer probing questions throughout the book, *Move by Move* greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of opening knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to study any chess opening and at the same time improve your general chess skills and knowledge. In this book, Cyrus Lakdawala examines the universally popular Slav Defence which has been his main choice against 1.d4 for many years. Here he shares his experience and knowledge of his favorite opening, presents a repertoire for Black and provides answers to all the key questions. Essential guidance and training in the Slav. Includes a Slav repertoire for Black. Incorporates an ideal approach to opening study.

*The Sicilian Four Knights* David Willis,2021-07-19 A straightforward and solid way to meet 1.e4. With all the many books and articles on the Sicilian Defense, there is surprisingly little about the Four Knights Variation. Its starting position is reached after 1.e4 c5 2.Nf3 e6 3.d4 cxd4 4.Nxd4 Nf6 5.Nc3 Nc6. It may also be reached after 1.e4 c5 2.Nf3 Nc6 3.d4 cxd4 4.Nxd4 Nf6 5.Nc3 e6. Some prefer 2.e6 to 2.Nc6 because it avoids 3.Bb5. The fundamentals of the Sicilian Four Knights are not hard to learn. Black reaches the middlegame quickly and safely with lively piece play in the dynamic positions which arise. There is no easy ride for White here and in particular if he gets

over ambitious he can find himself on the receiving end of a powerful attack very quickly The material is very well structured and the assessments are objective and backed with accurate analysis which will not cause the reader fatigue by becoming exceedingly elaborate But above all this is an opening that is definitely sound and this work proves it It will improve your ability to score against both weaker and stronger opposition offering clear cut and occasionally bold play Author David Willis has done a fine job of clearly presenting the analysis providing us with comprehensive explanations and sound lines in an opening that deserves more attention and popularity I can wholeheartedly recommend the Four Knights to all levels of players From the Foreword by Vassilios Kotronias About the Author Correspondence senior master David Willis is one of the strongest American correspondence chessplayers He is also a master in over the board play and has been relying on the Sicilian Four Knights as his go to defense against 1 e4 for years He lives with his family in San Diego This is his first book for Russell Enterprises     The Right Way to Play Chess David Pritchard,2012-03-15 Since its first publication in 1950 The Right Way to Play Chess has taught chess to generations of beginners taking them to the standard expected of good club players It gives full details of exactly how to play the game explains basic theory and includes many examples of play There are separate chapters on the openings middle and end games plus a chapter of master games which illustrate how styles of play have changed over the years Fully revised and updated by chess expert Richard James a new chapter shows how to encourage and teach children to play the game     The Blumenfeld Gambit Jan Przewoznik,Malcolm Pein,1991

*Grandmaster Repertoire 1* Boris Avrukh,2008 Grandmaster Repertoire is a new series of high quality chess books based on the main lines written by strong grandmasters The aim is to provide the reader with a complete repertoire at a level good enough for elite tournaments and certainly also for the club championship Grandmaster Repertoire provides a repertoire to last a lifetime Top GM Boris Avrukh charts a course towards an advantage with 1 d4 Avrukh is used to facing the best players in the world In this book he presents an improved version of the repertoire that elevated him to the top 50 focussing on main lines with a kingside fianchetto 1 d4 Volume One covers the openings after 1 d4 d4 2 c4 particularly the Catalan Queen s Gambit Accepted Semi Slav Slav and other Queen s Gambit lines     Winning Chess Manoeuvres Sarhan Guliev,2015-11-04 When a chess master finds a winning strategic idea it is seldom by accident An amateur staring at a position on the chess board is often fumbling in the dark his head spinning with a multitude of general rules and vague notions The master s approach is concrete He knows how and where to look because he has studied the games of other masters Sarkhan Guliev presents a wide range of strategic manoeuvres that have been repeatedly employed by great chess players He shows how masters generate ideas from the games of other masters positional sacrifices amazing counterplay concepts unorthodox exchanges winning with h2 h4 overcoming a blockade the advantages of double pawns the e5 pawn wedge the uses of the queen bishop battery and much more After studying this book chess amateurs will find winning strategic manoeuvres quicker and more often They will not find them by accident or by relying on general principles but because they have built up a large

stockpile of highly practical ideas      **Carlsen's Neo-Møller** Ioannis Simeonidis,2021-03-25 The Ruy Lopez is one of the most important chess openings hugely popular with amateurs and masters and grandmasters alike Black players allowing the Ruy Lopez main lines will usually be condemned to passivity defending a slightly worse though solid position for as long as White chooses this situation to continue World Champion Magnus Carlsen doesn't like passivity He wants to be in the driver's seat and determine how his game develops Magnus likes unconventional and active systems that allow him to take command and put pressure on his opponent from early on That's why Magnus Carlsen and other players with him have revolutionized the old Møller Attack one of the sharpest and most uncompromising variations against the Ruy Lopez As yet largely disregarded and unexplored by the majority of players Carlsen's new approach allows Black to break free early and start giving White a hard time FIDE Master Ioannis Simeonidis is the first to cover this system in detail and make it easy to grasp for club players He has called it the Neo Møller Simeonidis has made lots of discoveries presents many new ideas and shows that it is a reliable and playable system Since the Neo Møller is a very early deviation from the main lines it's easy for Black to actually get it on the board and take opponents out of their comfort zone Simeonidis has created a compact accessible and inspirational book One thing looks certain White players of the Ruy Lopez are going to thoroughly dislike the Neo Møller      **My First Chess Opening Repertoire for White** Vincent Moret,2016-05-11 Every chess player needs to decide which openings he is going to play But where do you start The risk of drowning in the turbulent sea of opening theory is only too real for beginning amateurs Often your goals and ambitions will be misguided Trying to win in 20 moves copying what's in fashion among top GM's or memorizing variations are a waste of time Most likely you will never play your preparation or end up by jumping from one opening to the other Experienced French chess trainer Vincent Moret provides a complete ready to go chess opening repertoire for White with a sound set of lines that do not outdate rapidly do not require memorization and are easy to digest for beginning players and other amateurs In this complete and user friendly guide Moret has selected relatively aggressive variations that will enhance your tactical vision To show the typical plans and demonstrate underlying ideas and key motifs Moret not only selected games of Grandmasters For instructional purposes he also uses games of young players to highlight the errors they tend to make      *Smerdon's Scandinavian* David Smerdon,2015-08-15 Grandmaster David Smerdon gives the Scandinavian a welcome twist by using it as an all out attacking weapon The repertoire he presents is one he has successfully employed at grandmaster level over many years and the backbone is provided by the razor sharp Portuguese and Icelandic gambits      *The Powerful Catalan* Victor Bologan,2012 The Catalan is a solid yet flexible chess opening system that is popular on all levels Both amateurs and top level strategists such as Vladimir Kramnik and Vishy Anand employ this opening to put a lot of unpleasant pressure on Black In *The Powerful Catalan* grandmaster Victor Bologan presents a complete repertoire for White that covers all of Black's responses Also included are those variations where Black tries to steer the game into other openings like the Queen's Indian or the Tarrasch Defence The

book is classically structured starting with the rarest variations before moving on to the most popular ones and contains original analysis of many recent tournament games Bologan's clearly formulated verbal explanations are essential for a good understanding of the strategic plans and the tactical themes of the Catalan Book jacket      **Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004      Capablanca Frisco Del Rosario, 2010-10-16 Jose Raul Capablanca is renowned for his exquisite positional play and flawless endgame technique But The Chess Machine was also a master of that other way to deliver mate the attack on the enemy king In this groundbreaking work award winning chess coach and author Frisco Del Rosario shines a long overdue light on this neglected aspect of Capablanca's record He illustrates how the Cuban genius used positional concepts to build up irresistible king hunts embodying the principles of good play advocated by the unequalled teacher C J S Purdy The author also identifies an overlooked checkmate pattern Capablanca's Mate that aspiring attackers can add to the standard catalogue in Renaud and Kahn's The Art of the Checkmate As Del Rosario shows Capablanca has inspired not only generations of players but also many of the classics of chess literature Easy to read but chock full of advice for study and practical play Capablanca A Primer of Checkmate fills a gaping hole in our understanding of the third World Champion      **The Gambit Guide to the English Opening - 1...
