White,Rosanna de Sancha,2015 Since the publication of Christopher White s original catalogue in 1982 scholarship in this area has advanced dramatically and many of the paintings in the collection including several by Rembrandt have been reattributed Many of the works under study have also been cleaned and all are now presented here for the first time with full colour illustrations 0The Royal Collection has one of the finest collections of Dutch paintings in the world and this will be the first book in 30 years to do full justice to its richness and importance     **The Royal Collection** Christopher Lloyd,1992

The Queen's Pictures ,1991 Begins with a brief description of the Royal Collection and then continues with a room by room description Each room houses paintings gathered by a specific collector or collectors biographical information is offered for each collector The text describing the exhibit closes with a chart listing the chronology of royal collectors General information on the exhibit and the museum conclude the guide including a floor plan of the gallery     *Living in Posterity* Jan Frans van Dijkhuizen,2004 Living in Posterity presented to Bart Westerweel on his retirement as Professor of Early Modern English literature at the University of Leiden brings together thirty nine essays on a wide variety of subjects and themes The contributors scholars from the Netherlands and abroad have drawn inspiration from the many dualities that are characteristic of Westerweel s work such as word image Anglo Dutch familiar other traditional modern and form function The result is a colourful mosaic of essays on history culture art and literature from the first century to the modern era The binding theme of this richly diverse book lies in the idea of the continuity between the past and the present the cohesion between what was and what is As such Living in Posterity is part of the larger project of the humanities to engage sympathetically with the past to speak with the dead and keep history alive     *Sir Peter Lely (1618-1680): Dutch Classicist, English Portraitist, and Collector* Brandon Henderson,2008-07-24 The Dutch born English Baroque portrait painter Sir Peter

Lely 1618 1680 is chiefly known for his drowsy sensual beauties and bewigged courtiers associated with the Restoration court of Charles II He is often seen as merely successor or imitator of Sir Anthony Van Dyck 1599 1641 with a common resemblance in all his sitters and an inability to capture a true likeness as well as an absence of any personal characterization or psychological interest Alternately this dissertation aims to reveal Lely's genius of superb draughtsmanship fine color and lively composition as well as to examine and reinstate the artist's impact and deep impress on British painting Lely's early style owes much to his Dutch origin and training with the pioneers of Dutch classicism and the distinctive qualities of his early work and the change in his traditions and techniques are examined The development of Lely's portrait style is examined from his arrival in England in the early 1640s through his years as leading aristocratic and society portraitist and Principal Painter to the King in the 1660s to his mature work in the 1670s when his work is characterized by a restricted palette and cool restraint And finally Lely as collector is examined He assembled one of the largest and most impressive private collections of art in seventeenth century Europe and his acquisitions and their influences benefits and effects are considered Upon Lely's death his highly important collection was dispersed by auction in a series of four well publicized sales in 1681 1682 1688 and 1694 respectively These sales brought many important works to the London art market and were some of the most important sales to date in England as well as the most spectacular of the modern auction world Although Lely initially emulated the style and techniques of Van Dyck he juxtaposed his profound Dutch qualities of rich color dramatic illumination and romantic landscapes and ultimately imbued a sensuality languor and luxurious negligence into the traditions and continuity of Van Dyck's grand Baroque style of English portraiture Subsequently together later with Sir Godfrey Kneller 1646 1723 Sir Peter Lely completely dominated British portraiture from the death of Van Dyck in 1641 until William Hogarth 1697 1764 challenged his style in the first half of the eighteenth century Due to large file size some images within this ebook do not appear in high resolution     [The Queen's Pictures](#) National Westminister Bank PLC., Coutts & Co, National Gallery (Great Britain), 1991\*     [Kings and Connoisseurs](#) Jonathan Brown, 2023-08-15 A vivid and exciting account of royal collectors art dealers connoisseurs and the rise of old master paintings Old master paintings are among the most valuable and prestigious of the visual arts and the best examples command the highest prices of any luxury commodity In *Kings and Connoisseurs* Jonathan Brown tells the story of how painting rose to this exalted status The transformation of painting from an inexpensive to a costly art form reached a crucial stage in the royal courts of Europe in the seventeenth century where rulers and aristocrats assembled huge collections often in short periods of time By comparing collecting and collectors at these courts Brown explains the formation of new attitudes toward pictures as well as the mechanisms that supported the enterprise of collecting including the emergence of the art dealer the development of connoisseurship and the publication of sumptuous picture books of various collections The result is an exciting narrative of greed and passion played out against a background of international politics and intrigue     *The*

centers on forms of Victorian picture making and the art knowledge systems defining them and draws on the histories of art literature journalism and publishing The historical example employed in the book is that of the more than 800 steel plate prints after paintings published in the London based Art Journal between 1850 and 1880 The cultural phenomenon of the Art Journal print is shown to be a key connector in mid Victorian art appreciation by drawing out specific tropes of likeness This study also examines the important links between paint and print the aesthetic values and domestic aspirations of the Victorian middle class and the inextricable intertwining of fine art and trade publishing

**The Royal Portrait** Jennifer Anne Scott, 2010 Anglophiles and students of portraiture will find that The Royal Portrait fills a surprising void in the literature as Scott Royal Collection presents for the first time a survey of British portraits housed in the various venues of the Royal Collection The broad scope ranges from Richard II the first British king portrayed to Queen Elizabeth II the latter monarch along with Queen Victoria is the subject of an independent chapter while other chapters focus on images of royals from a particular dynastic house such as the Stuart and the Hanoverian Through an interesting selection of diverse media and formats employed in different periods Scott explores the central question of what constitutes a royal portrait The answers are multifaceted and contingent on such factors as patronage function royal control and artistic intention nevertheless symbolic visual conventions can still be traced in the representations of British monarchs over the centuries This is a clearly written well illustrated survey for more in depth analyses of particular works one will need to turn to specialized sources e g D Howarth s Images of Rule 1997 Summing Up Highly recommended Lower division undergraduates through researchers faculty general readers General Readers Lower division Undergraduates Upper division Undergraduates Graduate Students Researchers Faculty Reviewed by J K Dabbs

Pergam,2017-07-05 An overdue study of a groundbreaking event this is the first book length examination of the Manchester Art Treasures Exhibition of 1857 Intended to rehabilitate Manchester s image at a heady time of economic prosperity the Exhibition became a touchstone for aesthetic social and economic issues of the mid nineteenth century Reverberations of this moment can be followed to the present day in the discipline of art history and its practice in public museums of Europe and America Highlighting the tension between art and commerce philanthropy and profit the book examines the Exhibition s organization and the presentation of the works of art in the purpose built Art Treasures Palace Pergam places the Exhibition in the context of contemporary debates about museum architecture and display With an analysis of the reception of both Ancient and Modern paintings the book questions the function of exhibitions in the construction of an art historical canon The book also provides an essential reference tool a compiled list of all of the paintings exhibited in 1857 that are now in public collections throughout the world with an analysis of the collecting trends manifest in their provenance **Panoramas and Compilations in Nineteenth-Century Britain** Helen Kingstone,2023-01-06 This book shows how in nineteenth century Britain confronted with the newly industrialized and urbanized modern world writers artists journalists and impresarios tried to gain an overview of contemporary history They drew on two successive but competing conceptual models of overview the panorama and the compilation Both models claimed to offer a holistic picture of the present moment but took very different approaches This book shows that panoramas 360 views previously associated with the Romantic period and compilations big data projects previously associated with the Victorian fin de si cle are intertwined relevant across the entire century and often remediated making them crucial lenses through which to view a broad range of genre and forms It brings together interdisciplinary research materials belonging to different period silos to create new understandings of how nineteenth century audiences dealt with information overload It argues for a new politics of distance one that recognizes the value of immersing oneself in a situation event or phenomenon
