Monographic Series Library of Congress, Drawing Sir Peter Cook,2014-05-28 Drawing The Motive Force of Architecture Focusing on the creative and inventive significance of drawing for architecture this book by one of its greatest proponents Peter Cook is an established classic It exudes Cook s delight and his wide ranging catholic tastes for the architectural Readers are provided with perceptive insights at every turn The book features some of the greatest and most intriguing drawings by architects ranging from Frank Lloyd Wright William Heath Robinson Le Corbusier and Otto Wagner to Frank Gehry Zaha Hadid Coop Himmelblau Arata Isozaki Eric Owen Moss Bernard Tschumi and Lebbeus Woods as well as key works by Cook and other members of the original Archigram group For this new edition Cook provides a substantial new chapter that charts the speed at which the trajectory of drawing is moving It reflects the increasing sophistication of available software and also the ways in which hand drawing and the digital are being eclipsed by new hybrids injecting drawing with a fresh momentum These crossovers provide a whole new territory as attempts are made to release drawing from the boundaries of a solitary moment a single viewing position or a single referential language Featuring the likes of Toyo Ito Perry Kulper Izaskun Chinchilla Kenny Kinugasa Tsui Ali Rahim John Berglund and Lor ne Faure it leads to fascinating insights into the effect that medium has upon intention and definition of an idea or a place Is a pencil drawing more attuned to a certain architecture than an ink drawing or is a particular colour evocative of a certain atmosphere In a world where a Maya drawing is creatively contributing something different from a Rhinoceros drawing there is much to demand of future techniques Catalog of Copyright Entries. Karl Langer ,2021-12-30 Despite a European training and an early career working with Peter Behrens a migration from Vienna to the Australian state of Queensland positioned the architect Karl Langer 1903 1969 at the very edge of both European and Australian modernism Confronted by tropical heat and glare the economics of affordable housing fiercely proud and regional architectural practices and a suspicion of the foreign Langer moulded the European language of international modernism to the unique climatic and social conditions of tropical Australia This book will tell Langer s story through a series of edited essays focused on key themes and projects Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects it is both an examination of an architect s work and international legacy and also a case study in the trans global dissemination of design ideas Studying the architect s built and proposed work both regional and metropolitan the scale and reach of Langer s practice will

be considered for the first time showing how given his continued influence on the contemporary culture of tropical design Langer has been unjustly ignored by the historiography of both Australian and Modernist architecture to date
