Understanding the Active Economy and Emerging Research on the Value of Sports, Recreation, and Wellness Finch, David J., Legg, David, 2021-06-04 The active economy incorporates several disciplines that include sport performance sport business recreation tourism physical activity urban planning leisure and health and wellness among others From an academic and policy perspective these disciplines are typically viewed as distinct with only limited spillover and consequently limited research explores the interaction between them However each individual sector can be studied as interdependent rather than autonomous By viewing the various sectors as part of a complex active ecosystem policymakers and practitioners are better positioned to shape broad opportunities while maximizing the community value of sports recreation and wellness Understanding the Active Economy and Emerging Research on the Value of Sports Recreation and Wellness provides a new view on the fields of sport recreation and health and wellness by exploring the interaction between these traditional separate disciplines It includes sub groups of the active economy such as health and wellness active apparel and accessories active

equipment and sports betting but also ties in sub groups from the ancillary sector such as tourism design and infrastructure media and content and professional services This book is intended for professionals educators and researchers working in the fields of sports recreation and health and wellness as well as economists executives managers practitioners stakeholders researchers academicians and students interested in how sports recreation and wellness operate in the active economy
