explore the range of experiences of Mexican men who have sex with men and the political economy of sexuality and immigration His primary research site is the greater Los Angeles area where he interviewed many immigrant men and participated in organizations and community activities alongside his informants Sure to fill gaps in the field The Sexuality of Migration simultaneously complicates a fixed notion of sexual identity and explores the complex factors that influence immigration and migration experiences *Pathways of Desire* Héctor Carrillo, 2018-01-09 With *Pathways of Desire* Hector Carrillo brings us into the lives of Mexican gay men who have left their home country to pursue greater sexual autonomy and sexual freedom in the United States The groundbreaking ethnographic study brings our attention to the full arc of these men's migration experiences from their upbringing in Mexican cities and towns to their cross border journeys to their incorporation into urban gay communities in American cities and their sexual and romantic relationships with American men These men's diverse and fascinating stories demonstrate the intertwining of sexual economic and familial motivations for migration Further Carrillo shows that sexual globalization must be regarded as a bidirectional albeit uneven process of exchange between countries in the global north and the global south With this approach Carrillo challenges the view that gay men from countries like Mexico would logically want to migrate to a more sexually enlightened country like the United States a partial and limited understanding given the dynamic character of sexuality in countries such as Mexico which are becoming more accepting of sexual diversity *Pathways of Desire* also provides a helpful analytical framework for the simultaneous consideration of structural and cultural factors in social scientific studies of sexuality Carrillo explains the patterns of cross cultural interaction that sexual migration generates and at the most practical level shows how the intricacies of cross cultural sexual and romantic relations may affect the sexual health and HIV risk of transnational immigrant populations **The Handbook of Diasporas, Media, and Culture** Jessica Retis, Roza Tsagarousianou, 2019-03-13 A multidisciplinary authoritative outline of the current intellectual landscape of the field Over the past three decades the term diaspora has been featured in many research studies and in wider theoretical debates in areas such as communications the humanities social sciences politics and international relations The Handbook of Diasporas Media and Culture explores new dimensions of human mobility and connectivity presenting state of the art research and key debates on the intersection of media cultural and diasporic studies This innovative and timely book helps readers to understand diasporic cultures and their impact on the globalized world The Handbook presents contributions from internationally recognized scholars and researchers to strengthen understanding of diasporas and diasporic cultures diasporic media and cultural resources and the various forms of diasporic organization expression production distribution and consumption Divided into seven sections this wide ranging volume covers topics such as methodological challenges and innovations in diasporic research the construction of diasporic identity the politics of diasporic integration the intersection of gender and generation with the diasporic condition new technologies in media and many others A much needed resource for anyone with interest diasporic studies this book Presents

**Migration and Asylum in Europe** Richard C. M. Mole, 2021-03-08 Europe is a popular destination for LGBTQ people seeking to escape discrimination and persecution Yet while European institutions have done much to promote the legal equality of sexual minorities and a number of states pride themselves on their acceptance of sexual diversity the image of European tolerance and the reality faced by LGBTQ migrants and asylum seekers are often quite different To engage with these conflicting discourses Queer Migration and Asylum in Europe brings together scholars from politics sociology urban studies anthropology and law to analyse how and why queer individuals migrate to or seek asylum in Europe as well as the legal social and political frameworks they are forced to navigate to feel at home or to regularise their status in the destination societies The subjects covered include LGBTQ Latino migrants relationship with queer and diasporic spaces in London diasporic consciousness of queer Polish Russian and Brazilian migrants in Berlin the role of the Council of Europe in shaping legal and policy frameworks relating to queer migration and asylum the challenges facing bisexual asylum seekers queer asylum and homonationalism in the Netherlands and the role of space faith and LGBTQ organisations in Germany Italy the UK and France in supporting queer asylum seekers **Conscripts of Migration**

Christopher Ian Foster, 2019-08-23 In Conscripts of Migration Neoliberal Globalization Nationalism and the Literature of New African Diasporas author Christopher Ian Foster analyzes increasingly urgent questions regarding crises of global immigration by redefining migration in terms of conscription and by studying contemporary literature Reporting on immigration whether liberal or conservative

popular or scholarly leaves out the history in which the Global North helped create outward migration in the Global South. From histories of racial capitalism, the trans Atlantic slave trade and imperialism to contemporary neoliberal globalization and the resurgence of xenophobic nationalism, countries in the Global North continue to devastate and destabilize the Global South. Britain, France, Italy and the United States in different ways police the effects of their own global policies at their borders. Foster provides a substantial study of a new body of contemporary African diasporic literature called *migritude*. *Migritude* indicates the work and ideas of a disparate yet distinct group of younger African authors born after independence in the 1960s. Most often *migritude* authors have lived both in and outside Africa and narrate the experiences of migration under the pressures of globalization. They also emphasize that immigration itself and stereotypes of the immigrant are entangled with the history of colonialism. Authors like Fatou Diome, Shailja Patel, Abdourahman Waberi, Cristina Ali Farah and others confront critical issues of migrancy, diaspora, departure, return, racism, identity, gender, sexuality and postcoloniality.

**Gendered Harm and Structural Violence in the British Asylum System** Victoria Canning, 2017-03-27. Winner of the 2018 British Society of Criminology Book Prize. Britain is often heralded as a country in which the rights and welfare of survivors of conflict and persecution are well embedded and where the standard of living conditions for those seeking asylum is relatively high. Drawing on a decade of activism and research in the North West of England, this book contends that on the contrary, conditions are often structurally violent. For survivors of gendered violence, harm inflicted throughout the process of seeking asylum can be intersectional and compound the impacts of previous experiences of violent continuums. The everyday threat of detention and deportation, poor housing and inadequate welfare access and systemic cuts to domestic and sexual violence support all contribute to a temporal limbo which limits women's personal autonomy and access to basic human rights. By reflecting on evidence from interviews, focus groups, activist participation and oral history, *Gendered Harm and Structural Violence* provides a unique insight into the everyday impacts of policy and practice that arguably result in the infliction of further gendered harms on survivors of violence and persecution. Of interest to students and scholars of criminology, sociology, sociology, human rights, migration, policy, state violence and gender, this book develops on and adds to the expanding literatures around immigration, crimmigration and asylum.

**Transgender Migrations** Trystan Cotten, 2012-05-23. *Transgender Migrations* brings together a top notch collection of emerging and established scholars to examine the way that the term migration can be used not only to look at the way trans bodies migrate from one gender to the other but the way that trans people migrate in the larger geopolitical contexts of immigration reform, the war on terror, the war on drugs and the increased policing of national borders. The book centers trans experiences, identities and politics and treats these identities as inextricably intertwined with other social identities, institutions and discourses of sexuality, nationality, race and ethnicity, globalization, colonialism and terrorism. The chapter authors explore not only the movement of bodies in through and across spaces and borders but also chart the metamorphoses of these bodies in relation to migration.

and mobility Transgender Migrations takes the theory documented in The Transgender Studies Reader and blows it up to a global scale It is the logical next step for scholarship in this dynamic emerging field      **Queering Multiculturalism** Aret Karademir,2018-09-15 Queering Multiculturalism argues for group specific rights for ethno cultural minorities but without ignoring that such rights may lead to ethnic chauvinism balkanization and the cultural marginalization of minorities within minorities such as ethnic LGBT people Thus it aims to construct a liberal theory of minority rights to accommodate ethno cultural diversity without destroying ethno sexual diversity and without privileging one type of minority group over another

*Conflict and Forced Migration* Gil Richard Musolf,2019-10-21 This timely collection brings together a wide variety of contributors from scholars and a psychiatric social worker to former refugees who were resettled in the United States and a mural artist to explore the current face of migration conflict      **Soviet and Post-Soviet Sexualities** Richard C.M.

Mole,2019-01-23 Despite Soviet Russia having been one of the first major powers to decriminalise homosexual acts between men attitudes towards lesbian gay bisexual and transgender LGBT people in contemporary Russia and the other post Soviet states have become increasingly hostile with the introduction of laws restricting their rights and an increase in homophobic violence This book explores how this situation has come about It discusses how meanings attached to non heteronormative sexualities have been constructed for specific socio political purposes by elites in line with Marxist Leninist or nationalist thought explores how attitudes to non normative sexualities developed historically and examines the current situation in the post Soviet space including Russia Transcaucasia Central Asia and the Baltic States The book provides a wealth of detail on this understudied subject and assesses how LGBT subjects are responding to this state of affairs      **Gendered Journeys:**

**Women, Migration and Feminist Psychology** Oliva M. Espín,2015-06-16 This book brings a psychological perspective to the often overlooked and understudied topic of women s experiences of migration covering topics such as memory place language race social class work violence motherhood and intergenerational impact of migration      **On Transits and**

**Transitions** Tristan Josephson,2022-10-14 Focusing on the intersection of immigration and trans rights On Transits and Transitions examines the processes through which the category of transgender is incorporated into U S immigration law and policy Using mobility as a critical lens Josephson captures the insecurity and precarity created by U S immigration control and related processes of racialization to show how im mobility conditions citizenship and national belonging for trans migrants in the United States      The Sexual Politics of Asylum Calogero Giametta,2017-03-27 Today within neoliberal

democracies gender and sexuality provisions give people the opportunity of being granted social and legal protection But how does the asylum system intervene within claimants understandings of themselves and in what ways does this affect their livelihoods in the country of arrival The Sexual Politics of Asylum emerges from a 2 year long ethnography which explores the experiences of 60 gender and sexual minority refugees in the UK Bringing previously unheard stories to the forefront this enlightening volume challenges dominant notions about the construction of sexuality and gender as an instrument for

claiming rights in a world shaped by postcolonial relations Giametta first examines why the migratory experience of the studied migrants is located within a set of humanitarian inflected discourses that privilege suffering and trauma This is then followed by an assessment of the respondents biographical accounts which consequently uncovers how being situated in liminal socio political and legal interstices produces precarious forms of life Whilst the topic of asylum for gender and sexual minorities has attracted wide media coverage over the past decade there persists a lack of academic attention to the complex experiences of these refugees As such this timely book will be of interest to undergraduate and postgraduate students interested in human rights sociology anthropology migration sexuality gender and cultural studies as well as people working within the refugee granting process      **Routledge Handbook of Asian Diaspora and Development** Ajaya K.
