

*We do more than design software  
...we create worlds.*

Rapidly emerging as a leader in the entertainment software industry, ORIGIN™ is dedicated to producing highly sophisticated, technologically advanced games which provide hundreds of hours of enjoyment. ORIGIN products encompass a succession of top selling fantasy role-playing adventures, including the award-winning Ultima® series — the best selling saga in the history of computer gaming. ORIGIN titles are distributed by Broderbund Software in the U.S., by way of a joint venture with Microprose in Europe, and through Pony Canyon in Japan.

### Commitment to Excellence

• **Long Playing Value** — Any game can be played for hundreds of hours. The true measure is how long it maintains the player's interest. ORIGIN games epitomize this distinction.

• **Game Packaging** — The quality and variety of support materials has come to be a distinguishing ingredient in an ORIGIN game — cloth maps, for example, instead of paper; medallions, toolkits, or oriental headbands all contribute to setting the theme, capturing the player's imagination, and providing added product value.

• **Balanced Play** — ORIGIN games are skillfully crafted to afford experienced players and novices alike the enjoyment of the game's challenges without the frustrations of uneven progress.

**Ultima® V** From Lord British, one of fantasy gaming's most imaginative and respected authors, comes the latest in the award-winning Ultima saga. Four man-years in the making, this is ORIGIN's most successful game yet.

**Times of Lore™** A masterful blend of fantasy role-playing and arcade action, capturing the player's imagination with typical ORIGIN depth, plus immediate playability for those eager to jump right into the action.

**AUTODUEL™** Fast-paced adventure on the outlaw-infested highways of the future — based on the award-winning Car Wars® board game by Steve Jackson. *NEW for IBM-PC/Tandy, Macintosh, and Amiga.*

### The Secret of Success

The five part Ultima epic is a true computer fantasy game classic. First released in 1980, Ultima I soon became a nationwide best seller. Since then, each new Ultima has outsold its forerunner by almost two to one.

Dramatic success is due to the fact that each installment is a significant milestone in computer gaming. Subsequent adventures are completely re-written to take advantage of the latest advances in computer technology and programming.

The response is overwhelming. Constant improvement coupled with the creation of new and more sophisticated challenges are the keys.

### In the Beginning...

ORIGIN was founded in 1983 by a team of four: Robert and Richard Garriott, Charles Bouche, and ex-NASA astronaut Owen Garriott.

Richard released his first fantasy game, Akalabeth, in 1979 after encouragement from the owner of the Computerland store he worked in. Total sales reached 25,000 units — unheard of at that time. This success motivated Richard to create Ultima I, which quickly topped the best selling charts. A year later, Ultima II sold over 100,000 copies.

A need for greater creative control led to the founding of ORIGIN prior to the release of Ultima III. Robert, a graduate of MIT's Sloan School of Management, left his position as an engineer with AT&T's Bell Laboratories to become President.

**Between Us** Tricia Levenseller, 2020-02-25 Tricia Levenseller author of *Daughter of the Pirate King* is back with an epic YA tale of ambition and love in *The Shadows Between Us*. They've never found the body of the first and only boy who broke my heart. And they never will. Alessandra is tired of being overlooked but she has a plan to gain power: 1. Woo the Shadow King. 2. Marry him. 3. Kill him and take his kingdom for herself. No one knows the extent of the freshly crowned Shadow King's power. Some say he can command the shadows that swirl around him to do his bidding. Others say they speak to him, whispering the thoughts of his enemies. Regardless, Alessandra knows what she deserves and she's going to do everything within her power to get it. But Alessandra's not the only one trying to kill the king. As attempts on his life are made, she finds herself trying to keep him alive long enough for him to make her his queen, all while struggling not to lose her heart. After all, who's better for a Shadow King than a cunning, villainous queen? Tricia Levenseller's latest *The Shadows Between Us* is a decadent and wickedly addictive fantasy full of schemes and court intrigue and delightful descriptions of food, which I am always a fan of. **FIRST IN THE GUARDIANS TRILOGY** From 1 New York Times bestselling author Nora Roberts comes a trilogy about three couples who join together to create their own family and solve an ancient mystery through the powers of timeless love. Sasha Riggs is a reclusive artist haunted by dreams and nightmares that she turns into extraordinary paintings. Her visions lead her to the Greek island of Corfu where five others have been lured to seek the legendary fire star, part of an ancient prophecy. Sasha recognizes them because she has drawn them: a magician, an archaeologist, a wanderer, a fighter, a loner. All on a quest. All with secrets. Sasha is the one who holds them together, the seer. And in the magician, Bran Killian, she sees a man of immense power and compassion. As Sasha struggles with her rare ability, Bran is there to support her, challenge her, and believe in her. When a dark threat looms, the six must use their combined powers, including trust, unity, and love, to find the fire star and keep the world on course. An archaeologist, Riley is no stranger to the coast of Clare, but now she finds herself on unsure footing, targeted by the dark goddess who wants more than the stars, more than the blood of the guardians. While searching through Irish history for clues that will lead them to the final star and the mysterious Island of Glass, Riley must fight her practical nature and admit her sudden attraction to Doyle is more than just a
