Quest For Power Hobbes Descartes And The Emergence Of Modernity:

The Quest for Power Piotr Hoffman, 1996 This work examines two thinkers who can lay claim to be the founding fathers of modern philosophy Hobbes and Descartes Although worlds apart on some issues both thinkers take the same point of departure Hobbes in political and moral philosophy and Descartes in epistemology and metaphysics What Moves Man Annette Freyberg-Inan, 2012-02-01 The realist theory of international relations is based on a particularly gloomy set of assumptions about universal human motives Believing people to be essentially asocial selfish and untrustworthy realism counsels a politics of distrust and competition in the international arena What Moves Man subjects realism to a broad and deep critique Freyberg Inan argues first that realist psychology is incomplete and suffers from a pessimistic bias Second she explains how this bias systematically undermines both realist scholarship and efforts to promote international cooperation and peace Third she argues that realism's bias has a tendency to function as a self fulfilling prophecy it nurtures and promotes the very behaviors it assumes predominate human nature Freyberg Inan concludes by suggesting how a broader and more complex view of human motivation would deliver more complete explanations of international behavior reduce the risk of bias and better promote practical progress in the conduct of international affairs **Dichotomy of Power** Richard A. Matthew, 2002-01-01 Dichotomy of Power studies the future of the nation state as the world's basic political organization and the foundation of modern international relations Richard A Matthew argues that this Hegelian construct once championed as the rational and preferred basis for global order developed through a series of dichotomies the cut and thrust of realism mediated by idealism coercive power politics balanced by a constitutive mode of power and a collaborative search for a just society The book analyzes the conceptualization of the nation state in the Western tradition of political thought from the classical bifurcation of politics to the postmodern debate about the nation state as the ideal mechanism for organizing power in a new global age *Knowledge and Human Liberation* Ananta Kumar Giri, 2014-11-01 Human liberation has become an epochal challenge in today's world requiring not only emancipation from oppressive structures but also from the oppressive self It is a multidimensional struggle and aspiration in which knowledge self social and spiritual can play a transformative role Knowledge and Human Liberation Towards Planetary Realizations undertakes such a journey of transformation and seeks to rethink knowledge vis vis the familiar themes of human interest critical theory enlightenment ethnography democracy pluralism rationality secularism and cosmopolitanism The volume also features a Foreword by John Clammer United Nations University Tokyo and an Afterword by Fred Dallmayr University of Notre Dame **After the Fall** George N. Katsiaficas, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company **The Force of Reason and the Logic of Force** R. Lee, 2004-08-20 The Force of Reason and the Logic of Force investigates the concept of force through various episodes in the history of philosophy The author argues that force arises on the basis of the distinction of reality and mere appearance The book looks at figures who reduce force to something other than itself as well as figures

who develop a logic of force that allows them to trace the operation of force without such a reduction Violence Inevitable
Rick Parrish,2006-01-01 Taking persons as the creators of meaning and value in the world Violence Inevitable explores the inevitability of violence within any system of justice and examines the paradoxes that lie at the core of justice itself These themes are illuminated through original and interwoven readings of Jacques Derrida Friedrich Nietzsche Thomas Hobbes Isaiah Berlin and other important figures from ancient Chinese spirituality to contemporary American politics

Encyclopedia of Government and Politics Mary Hawkesworth,Maurice Kogan,2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers **A Polite Exchange**

of Bullets Stephen Banks,2010 Explores why minor slights to certain kinds of gentlemen led to duels in order for honour to be satisfied and how such ideas about honour changed over time Review of Existential Psychology and Psychiatry ,1995

The Eighteenth Century Kevin L. Cope,Robert C. Leitz, III,2003 This reference work provides bibliographic details for students of 18th century studies **International Philosophical Quarterly** ,1995 **American Book Publishing Record** ,2005 **The Oxford Handbook of Philosophy in Early Modern Europe** Desmond M. Clarke,Catherine

Wilson,2011-01-27 A team of leading scholars survey the development of philosophy in the period of extraordinary intellectual change from the mid 16th century to the early 18th century They cover metaphysics and natural philosophy the mind the passions and aesthetics epistemology logic mathematics and language ethics and political philosophy and religion

Apories of Justice Rick Parrish,2004 **The Meanings of Love** Bob Wagoner,1997-05-21 This introductory text offers a clear concise look at the philosophy of love The author s presentation assumes no previous knowledge of philosophy providing the humanities student with an insightful introduction to some of the most prominent writers and philosophers both ancient and modern From the dialogues of Plato to the writings of feminist philosopher Luce Irigaray Wagoner presents six major ideas of love erotic love Christian love romantic love moral love love as power and mutual love This study asserts that even though we have only one word for love six fundamentally different meanings can be distinguished erotic love Christian love romantic love moral love love as power and mutual love Wagoner identifies each of these ideas of love in terms of the special meaning it brings to experience No one meaning is comprehensive Each is shown to have a logic and

legitimacy of its own Why each view seems real and compelling is the focus of separate discussions as well as the price that may be exacted by each idea The extent to which these ideas throw light on actual experience is striking but the book is not an empirical or psychological inquiry How one self finds itself in another is first defined and then explored further to see how this shapes the rational and sexual aspects of life
