Quest For Self:

The Quest for Self-determination Dov Ronen, 1979 Dov Ronen proposes in this interpretive essay that ethnic nationalism is simply the newest form of a basic human drive for self determination that has been manifested in four other movements since the French Revolution nineteenth century nationalism Marxist Leninist class self determination self determination for minorities as espoused by Wilson and decolonization Ronen s intention in this book is to explain what self determination is why people fight for it and what the implications of the struggle may be Though Ronen s approach is primarily analytical and philosophical he uses four cases the Scots Biafra the Palestinians and South Africa to illustrate the application of his thesis to current events

Quest for Self-knowledge Joseph Flanagan, 1997-01-01 Introduces teachers and students to the difficult subject of self knowledge and provides readers with a transcultural normative foundation for a critical evaluation of self identity and cultural identity

Self-traps William B. Swann, 1996 Not a self help book *Self Traps* is a fascinating multidimensional exploration of how self esteem conflicts develop and are played out in all our relationships and how the authentic achievement of self esteem is often undermined by American social norms that tell us how to approach our love relationships and work Swann shows how these societal influences may compound the inner conflicts that people with low self esteem have making their thought patterns and behavior that much more difficult to change Yet raising self esteem he insists is an achievable goal Swann proposes solutions that take into account the multifaceted nature of self esteem and allow us to perform a delicate balancing act changing our notions of who we are without irreparably losing our fundamental sense of identity

Yoga and the Quest for the True Self Stephen Cope, 1999 Millions of Americans know yoga as a superb form of exercise and as a potent source of calm in the midst of our stress filled lives Far fewer are aware of the full promise of yoga as the way of the fully alive human being a 4 000 year old practical path of liberation that fits the needs of modern Western seekers with startling precision Now one of America s leading scholars of yoga psychology who is also a Western trained psychotherapist offers this marvelously lively and personal account of an ancient tradition that promises the soul awake in this lifetime Drawing on the vivid stories of practitioners at the largest yoga center in America where he has lived and taught for more than ten years Stephen Cope describes the philosophy psychology and practice of yoga a practical science of development that urges us not to transcend or dissolve the self but rather to encounter it more deeply In this irreverent modern day Pilgrim s Progress Cope introduces us to an unforgettable cast of contemporary seekers on the road to enlightenment carrying all the baggage of the human condition confusion loss disappointment addiction and the eternal conflicts around sex and relationship As he describes the subtle shifts of energy and consciousness that happen at each stage of the path we discover that in yoga liberation does not require us to leave life in the world for some transcendent spiritual plane Life itself is the path Above all Cope shows how yoga can heal the suffering of self estrangement that pervades our society leading us to a new sense of purpose and to a deeper more satisfying life in the world
