## Quest For The Nonsuch:

The Quest for Nonsuch John Dent, 1962      Surrey Ian Nairn, Nikolaus Pevsner, Bridget Cherry, 2002-01-01 Surrey's architecture is a constantly surprising mix of the rural and urban with many of its most important buildings such as the seventeenth century Ham House found amongst the outgrowth of London itself The landscape gardens of Painshill and Claremont attest to Surrey's popularity in the eighteenth century and the county's enthusiasm for follies and remarkable garden buildings More recent architecture includes notable early works by Lutyens with gardens by Gertrude Jekyll inspired by the rich stock of late medieval farmhouses and tile hung cottages in the county's southern villages Among interwar suburban housing there are some exceptional Modernist homes such as The Homewood by Patrick Gwynne Church architecture in Surrey includes work by all of the great names of the Gothic Revival not least of its surprises is the luminous and spacious interior of Guildford Cathedral      *The Early Modern Grotesque* Liam Semler, 2018-10-26 The Early Modern Grotesque English Sources and Documents 1500-1700 offers readers a large and fully annotated collection of primary source texts addressing the grotesque in the English Renaissance The sources are arranged chronologically in 120 numbered items with accompanying explanatory Notes Each Note provides clarification of difficult terms in the source text locating it in the context of early modern English and Continental discourses on the grotesque The Notes also direct readers to further English sources and relevant modern scholarship This volume includes a detailed introduction surveying the vocabulary form and meaning of the grotesque from its arrival as a word concept and aesthetic in 16th century England to its early maturity in the 18th century The Introduction Items and Notes complemented by illustrations and a comprehensive bibliography provide an unprecedented view of the evolving complexity and diversity of the early modern English grotesque While giving due credit to Wolfgang Kayser and Mikhail Bakhtin as masters of grotesque theory this ground breaking book aims to provoke new evidence based approaches to understanding the specifically English grotesque The textual archive from 1500-1700 is a rich and intriguing record that offers much to interested readers and researchers in the fields of literary studies theatre studies and art history      Architectural Involutions Mimi Yiu, 2015-11-15 Taking the reader on an inward journey from faades to closets from physical to psychic space Architectural Involutions offers an alternative genealogy of theater by revealing how innovations in architectural writing and practice transformed an early modern sense of interiority As the English house underwent a process of inward folding replacing a logic of central assembly with one of dissemination the subject who negotiated this new scenography became a flashpoint of conflict in both domestic and theatrical arenas The book launches from a matrix of related platforms a term that in early modern usage denoted scaffolds stages and draftsmen's sketches to situate Alberti Shakespeare Jonson and others within a landscape of spatial and visual change Engaging theory with archival findings Mimi Yiu reveals an emergent desire to perform subjectivity to unfold an interior face to an admiring public      Plaster Casts Rune Frederiksen, Eckart Marchand, 2010-09-27 This volume originates from an international conference

**The Court as a Stage** Steven J. Gunn,A. Janse,2006 European and English courtly culture and history reappraised through the prism of the court as theatre In the past half century court history has lost the air of frivolity that once relegated it to the margins of serious historical study and has rightfully taken a central part in the study of European states and societies in the age of personal monarchy Yet it has been approached from so many different angles and appropriated to so many different models that it can be hard to put all our new understandings together to achieve a proper perspective on the functions of the court as a whole This collection of essays uses the idea of the court as a stage for social and political interaction to re integrate different styles of court history focusing on courts in England and the Low Countries from the age of Richard II and Albert of Bavaria to that of Elizabeth I and Philip II Themes studied include the relationship between court politics and cultural change the social and political functions of court office holding the military judicial and propagandist roles of the court the economic relationships between courts and cities and the wider social and political significance of court rituals and traditions

**The Estates of the English Crown, 1558-1640** R. W. Hoyle,2002-08-08 This collection of essays is the first full account of the largest estate in early modern England against which the fortunes of all other estates may be judged Previous accounts have tended to regard the Crown lands as a resource to be plundered by successive monarchs in times of need much of the monastic land confiscated by Henry VIII had been sold by the time of his death and the estates had mostly been liquidated to meet the demands of expenditure by 1640 It is not denied in these essays that the estates suffered from the attrition of periodic sale but the estates are also seen as a continuing enterprise of complexity and sophistication Each essay is concerned with the dialogue between the Exchequer and its local administrators and tenants The success and failure of initiatives launched by the Exchequer is illustrated by examples drawn from many

communities throughout England     Henry VIII J. J. Scarisbrick, 2011-05-31 Henry VIII's forceful personality dominated his age and continues to fascinate our own. In few other reigns have there been developments of such magnitude in politics, foreign relations, religion, and society that have so radically affected succeeding generations. Above all, the English Reformation and the break with Rome are still felt more than four centuries on. First published in 1968, J. J. Scarisbrick's *Henry VIII* remains the standard account, a thorough exploration of the documentary sources, stylishly written and highly readable. In an updated foreword, Professor Scarisbrick takes stock of subsequent research and places his classic account within the context of recent publications. It is the magisterial quality of J. J. Scarisbrick's work that has enabled it to hold the field for so long. Steve Gunn, *Times Literary Supplement*     *Archaeology*, 1963     **Surrey Folk Tales** Janet Dowling, 2011-11-30 Surrey's landscape, shaped by the Devil's mischief and the whims of dancing Pharisees, is home to a wealth of tales. For Surrey is a place where dragons have stalked, dripping poisoned saliva from their yellow teeth; a place where horses have sprouted wings in order to rescue bewitched villagers; a place where pumas with the gift of speech have prowled the countryside. From the legends of Stephen Langton to the marvels of Captain Salvin and his flying pig, Janet Dowling has vividly retold these myths and stories of Surrey and brought to life the county's heroes, villains, and saints.     Materialities Kate van Orden, 2015-07-03 Ephemeral, fragile, often left unbound, sixteenth-century songbooks led fleeting lives in the pockets of singers and on the music desks of instrumentalists. Constantly in action, they were forever being used up, replaced, or abandoned as ways of reading changed. As such, they document the acts of early musicians and the practices of everyday life at the unseen margins of elite society. *Materialities* is a cultural history of song on the page. It addresses a series of central questions concerning the audiences for written music by concentrating on the first genre to be commercialized by music printers: the French *chanson*. Scholars have long stressed that *chansons* represent the most broadly disseminated polyphony of the sixteenth century, but *Materialities* is the first book to account for the cultural reach of the *chanson* across a considerable cross-section of European society. Musicologist Kate van Orden brings extensive primary research and new analytical models to bear in this remarkable history of songbooks, music literacy, and social transformation during the first century of music printing. By tracking *chansons* into private libraries and schoolrooms and putting *chansonnières* into dialogue with catechisms, civility manuals, and chapbooks, *Materialities* charts the social distribution of songbooks, the gradual moralization of song, and the ways children learned their letters and notes. Its fresh conclusions revise several common assumptions about the value early moderns attributed to printed music, the levels of literacy required to perform polyphony, and the way musicians did or did not read their songbooks. With musical perspectives that can invigorate studies of print culture and the history of reading, *Materialities* is an essential guide for musicologists working with original sources and historians of the book interested in the vocal performances that operated alongside print.     **The Poem and the Garden in Early Modern England** Deborah Solomon, 2022-12-30 This book draws attention to the pervasive artistic rivalry between Elizabethan poetry and gardens in

order to illustrate the benefits of a trans media approach to the literary culture of the period In its blending of textual studies with discussions of specific historical patches of earth *The Poem and the Garden* demonstrates how the fashions that drove poetic invention were as likely to be influenced by a popular print convention or a particular garden experience as they were by the formal genres of the classical poets By moving beyond a strictly verbal approach in its analysis of creative imitation this volume offers new ways of appreciating the kinds of comparative and competitive methods that shaped early modern poetics Noting shared patterns both conceptual and material in these two areas not only helps explain the persistence of botanical metaphors in sixteenth century books of poetry but also offers a new perspective on the types of contrastive illusions that distinguish the Elizabethan aesthetic With its interdisciplinary approach *The Poem and the Garden* is of interest to all students and scholars who study early modern poetics book history and garden studies

*The Oxford Handbook of the Age of Shakespeare* Robert Malcolm Smuts, 2016 Rather than seeking to survey the historical background to Shakespeare the essays in the collection display a variety of perspectives insights and methodologies found in current historical work that may also inform literary studies In addition to Elizabethan and early seventeenth century politics they examine such topics as the characteristics of the early modern political imagination the growth of public controversy over religion and other issues during the period and ways in which this can be related to drama attitudes about honour and shame and their relation to concepts of gender histories of crime and murder and ways in which changing attitudes were expressed through architecture printed images and the layout of Tudor gardens

**Garden and Grove** John Dixon Hunt, 1996 This is a major work and I think Hunt's best Once picked up the book cannot be put down for it is an exciting exegesis of the continuing Italian influence upon English garden art

**History, Fiction, and The Tudors** William B. Robison, 2017-02-11 This is the first book length study of the award winning historical drama *The Tudors* In this volume twenty distinguished scholars separate documented history plausible invention and outright fantasy in a lively series of scholarly but accessible and engaging essays The contributors explore topics including Henry VIII Catherine of Aragon Anne Boleyn his other wives and family gender and sex kingship the court religion and entertainments

**The Phantom Ship** Frederick Marryat, 1839

Bulletin Surrey Archaeological Society, 1972

Savage Fortune Lyn Boothman, Richard Hyde Parker, David Percy Dymond, 2006 The eighty three documents presented here varied in length and character are not all concerned with Suffolk but they are all connected with the eventful lives of Sir Thomas later Viscount Savage and his wife Elizabeth Savage later Countess Rivers who married in 1602 and whose homes included Melford Hall Thomas and Elizabeth both inherited considerable estates in Suffolk Essex and Cheshire Within a tight circle of aristocratic Catholics they became prominent servants of the royal family during the reigns of James I and Charles I After Thomas's death in 1635 Elizabeth remained an intimate of the queen but her two houses of St Osyth's and Melford Hall were sacked in 1642 and she remained

chronically short of money up to her death in 1651 The central document is a remarkable inventory of 1635/6 taken after Thomas died listing the contents of Melford Hall in Suffolk Rocksavage in Cheshire and a town house on Tower Hill in London BOOK JACKET     *Anna of Denmark* Jemma Field, 2020-06-11 Approaching the Stuart courts through the lens of the queen consort Anna of Denmark this study is underpinned by three key themes translating cultures female agency and the role of kinship networks and genealogical identity for early modern royal women Illustrated with a fascinating array of objects and artworks the book follows a trajectory that begins with Anna's exterior spaces before moving to the interior furnishings of her palaces the material adornment of the royal body an examination of Anna's visual persona and a discussion of Anna's performance of extraordinary rituals that follow her life cycle Underpinned by a wealth of new archival research the book provides a richer understanding of the breadth of Anna's interests and the meanings generated by her actions associations and possessions
