B. Jongeneel, 2009 Based on the author's thesis Th D Leiden University 1971 Salafism in Lebanon Zoltan Pall, 2018-04-05 Examines the entrenchment of Salafism in Lebanese society while also highlighting the movement s transnational links to the Translating the Devil Birgit Meyer, 2019-08-06 This book offers an ethnography of the emergence of a local Christianity and its relation to changing social political and economic formations among the Peki Ewe in Ghana Focusing on the Evangelical Presbyterian Church which arose from encounters between the Ewe and German Piestist missionaries the author examines recent conflicts leading to the secession of many pentecostally oriented members which it places in a historical perspective The main argument is that for the Ewe involvement with modernity goes hand in hand with new enchantment rather than disenchantment of the world At the grassroots level the study focuses on the image of the Devil which the missionaries communicated to the Ewe through translation and which currently receives much attention in the Pentecostal churches It is shown that this image played and still plays a crucial role in the local appropriation of Christianity since diabolisation confirmed the existence of local gods and witchcraft and incorporated them into Christian belief as demons Comparing the discourses and practices of mission and Pentecostal churches the study reveals that the latter pay much more attention to Satan especially through deliverance rituals Pentecostalism's increasing popularity thus stems from the fact that it ties into historically generated local understandings of Christianity which despite a declared dislike of non Christian religious practices stand much closer to Ewe religion than missionary Christianity With its emphasis on the hybrid image of the Devil and people s obsessions with occult forces as a way to mediate the attractions and discontents of modernity this book sheds light on a hitherto neglected dimension in studies of African Christianity War, Reliaion and *Empire* Andrew Phillips, 2010-12-23 What are international orders how are they destroyed and how can they be defended in the face of violent challenges Advancing an innovative realist constructivist account of international order Andrew Phillips addresses each of these questions in War Religion and Empire Phillips argues that international orders rely equally on shared visions of the good and accepted practices of organized violence to cultivate cooperation and manage conflict between political communities Considering medieval Christendom's collapse and the East Asian Sinosphere's destruction as primary cases he further argues that international orders are destroyed as a result of legitimation crises punctuated by the disintegration of prevailing social imaginaries the break up of empires and the rise of disruptive military innovations He concludes by considering contemporary threats to world order and the responses that must be taken in the coming decades if a broadly liberal international order is to survive African & American Marilyn Halter, Violet Showers Johnson, 2014-08-29 Examines what it means to be African and American through the stories of recent West African immigrants African American tells the story of the much overlooked experience of first and second generation West African immigrants and refugees in the United States during the last forty years Interrogating the complex role of post colonialism in the recent history of black America Marilyn Halter and Violet Showers Johnson highlight the intricate patterns of emigrant work and family adaptation the evolving global ties with Africa and Europe and the translocal connections among the West African enclaves in the United States Drawing on a rich variety of sources including original interviews personal narratives cultural and historical analysis and documentary and demographic evidence African American explores issues of cultural identity formation and socioeconomic incorporation among this new West African diaspora Bringing the experiences of those of recent African ancestry from the periphery to the center of current debates in the fields of immigration ethnic and African American studies Halter and Johnson examine the impact this community has had on the changing meaning of African Americanness and address the provocative question of whether West African immigrants are indeed becoming the newest African Americans

struggled with the same things you re wrestling with now And just like they found solutions in the face of persecution and trial God will help you to persevere find solutions and ultimately bear abundant fruit for his kingdom and glory **Jesus at University** Edward Dutton, 2016-12-05 How does university turn students into who they become Why are student evangelicals such a significant and controversial force at so many universities. In many countries university has become the main Rite of Passage between the child and adult worlds University can be enjoyable and fascinating but also life changing and traumatic And at the exact time when a student's identity is the most challenged and uncertain student evangelical groups are highly organised on many university campuses to offer students a powerful identity so that the world makes sense once again For some these groups will protect them from the university s assault on their faith For others they will challenge and even change who they are Meeting Jesus at University explores universities in six countries Drawing upon detailed fieldwork it examines the largest student evangelical group at each university in order to understand in depth the relationship between the student evangelical group and the university which it aims to convert Meeting Jesus at University offers an original contribution to the discussion of Rites of Passage examining what is experienced at university and how university breaks down and remoulds young people It explores why student evangelicals are so active particularly at Britain and America's most prestigious and identity challenging institutions meaning that students at these places are the most likely to find themselves meeting Jesus at university Burning Books and Leveling Libraries Rebecca Knuth, 2006-05-30 Whether the product of passion or of a cool headed decision to use ideas to rationalize excess the decimation of the world's libraries occurred throughout the 20th century and there is no end in sight Cultural destruction is therefore of increasing concern In her previous book Libricide Rebecca Knuth focused on book destruction by authoritarian regimes Nazis Serbs in Bosnia Iragis in Kuwait Maoists during the Cultural Revolution in China and the Chinese Communists in Tibet But authoritarian governments are not the only perpetrators Extremists of all stripes through terrorism war ethnic cleansing genocide and other forms of mass violence are also responsible for widespread cultural destruction as she demonstrates in this new book Burning Books and Leveling Libraries is structured in three parts Part I is devoted to struggles by extremists over voice and power at the local level where destruction of books and libraries is employed as a tactic of political or ethnic protest Part II discusses the aftermath of power struggles in Germany Afghanistan and Cambodia where the winners were utopians who purged libraries in efforts to purify their societies and maintain power Part III examines the fate of libraries when there is war and a resulting power vacuum The book concludes with a discussion of the events in Iraq in 2003 and the responsibility of American war strategists for the widespread pillaging that ensued after the toppling of Saddam Hussein This case poignantly demonstrates the ease with which an oppressed people given the collapse of civil restraints may claim freedom as license for anarchy construing it as the right to prevail while ignoring its implicit mandate of social responsibility Using military might to enforce ideals in this case democracy and freedom is futile Knuth argues if insufficient consideration is
