Quest For Security 1715 1740:

The Quest for Security, 1715-1740 Penfield Roberts, 1957 Religion in Life at Louisbourg, 1713-1758 A.

Johnston, 1984-08-01 AJ B Johnston establishes the secular and religious contexts of life in Louisbourg and then traces the mixed fortunes of the three religious groups that served the French stronghold of Louisbourg during the eighteenth century. These were the Recollets of Brittany who acted as parish priests and chaplains, the Brothers of Charity of Saint John of God who operated the King's Hospital, and the Sisters of the Congregation of Notre Dame who conducted the local school for girls. Drawing on the extensive material in the Archives of the Fortress of Louisbourg, he notes the groups' remarkable persistence in the face of personnel shortages, financial burdens, and conflicts with secular authorities and rival religious bodies. Not the least of their problems was the profound parsimony of the Louisbourgeois who declined to build a parish church or pay a compulsory tithe. Yet despite this independent stance, religion was at the centre of family and community life in Louisbourg, as the author demonstrates in a chapter devoted to the faith, morality, and popular beliefs of the town's inhabitants. The colourful military history of Louisbourg has been the subject of numerous books and articles, and the economy of *Le Royale* has received close attention in recent years. This first comprehensive study of the religious aspects of life in this outpost of France's overseas empire contributes substantially to the social as well as the religious history of New France.

Rethinking America John M. Murrin, 2018-04-02 For five decades John M. Murrin has been the consummate historian's historian. This volume brings together his seminal essays on the American Revolution, the United States Constitution, and the early American Republic. Collectively, they rethink fundamental questions regarding American identity, the decision to declare independence in 1776, and the impact the American Revolution had on the nation it produced. By digging deeply into questions that have shaped the field for several generations, *Rethinking America* argues that high politics and the study of constitutional and ideological questions broadly, the history of elites must be considered in close conjunction with issues of economic inequality, class conflict, and racial division. Bringing together different schools of history and a variety of perspectives on both Britain and the North American colonies, it explains why what began as a constitutional argument that virtually all expected would remain contained within the British Empire exploded into a truly subversive and radical revolution that destroyed monarchy and aristocracy and replaced them with a rapidly transforming and chaotic republic. This volume examines the period of the early American Republic and discusses why the Founders' assumptions about what their Revolution would produce were profoundly different than the society that emerged from the American Revolution. In many ways, *Rethinking America* suggests that the outcome of the American Revolution put the new United States on a path to a violent and bloody civil war. With an introduction by Andrew Shankman, this long-awaited work by one of the most important scholars of the Revolutionary era offers a coherent interpretation of the complex period that saw the breakdown of colonial British North America and the founding of the United States.

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1976

Soldiers, Statecraft, and History James A. Nathan, 2002-08-30 The increasing capacity of states to muster violence the concomitant rise of military power as a meaningful instrument of foreign policy and the frequent episodic collapse of that power are considered in this examination of force order and diplomacy Nathan points to periods of relative order and stability in international relations the time immediately prior to the rise of Frederick the Great for example or the half century after the Napoleonic Wars as times when states have been most vulnerable to spoilers and rogues Only the power of the Cold War blocs fostered durable order Now notwithstanding novel elements of globalization international relations appear as dependent as ever on the prudent management of force Students scholars and soldiers are frequently exposed to Clausewitz Westphalia Napoleon World War I and the like But what makes these events and individuals so important This book is Clausewitz's successor insisting that soldiers and statesmen know and master the integrative potential of force Nathan provides a narrative account of the people and events that have shaped international relations since the onset of the state system He asserts that an understanding of the limits and utility of persuasion as well as the corresponding limits and utility of force will help assure national security in a world filled with more uncertainties than ever in the last 50 years

Empires to Nations Max Savelle, 1974-09-06 *Empires to Nations* was first published in 1974 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This history traces the growth of the Euroamerican societies in the Western Hemisphere during the eighteenth century period of European expansion Professor Savelle reviews the continuation and completion of the exploration of the American continent and describes the evolution of the New World empires of the English French Spanish Portuguese and Dutch He devotes separate chapters to the development of the political structures of the colonies and the rivalries wars and diplomatic exchanges among the empires He also reviews and analyzes the economic history of the colonial societies in their three way relationships with their mother countries with each other and within themselves as regional or local entities Final chapters are devoted to the birth and growth of national self consciousness among the new societies

The Great Wave David Hackett Fischer, 1996 Fischer has examined price records in many nations and finds that great waves of rising prices in the 13th 16th 18th and 20th centuries were all marked by price swings of increasing volatility falling wages a growing gap between rich and poor and an increase in violent crime family disintegration and cultural despair 109 graphs charts 7 maps

A Wonderful Work of God Robert W. Brockway, 2003 *A Wonderful Work of God* Puritanism and the Great Awakening is a survey of the American phase of the Evangelical Revival which swept Britain and her American colonies during the first half of the eighteenth century Preceded by local revivals such as the one stirred by Jonathan Edwards in Northampton Massachusetts in 1734 the Great Awakening exploded into a mass movement because of the itinerant preaching of a young Anglican priest George Whitefield and a number of Congregational and Presbyterian ministers who joined him in the evangelical work However because of the bizarre behavior of some of the

radical evangelicals such as James Davenport the movement soon became highly controversial and split colonial ministers and congregations into Friends of Revival and Opposers As the revival excitement abated schisms beset congregations in New England and eastern Long Island resulting in the appearance of separate churches and the Philadelphia Presbyterian synod was fractured as well Drawing on both original sources and a review of the relevant literature the author places the Great Awakening in the context of the Puritanism of the times both in Europe and the colonies and discusses its roots in German Pietism and the Methodist revivals in England The significant figures of the Awakening and their interactions are brought to life particularly James Davenport the Awakening s most bizarre exponent and the preacher who more than any other was responsible for bringing it into disrepute

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Enlightenment Tradition Robert Anchor,1979-03-09 Historians use the term enlightenment as both a noun and an adjective Used as a noun the term designates a period of exceptionally consistent cultural creativity that lasted from the English Revolution of 1688 to the French Revolution of 1789 When used as an adjective however as in the enlightenment tradition the term denotes a specific attitude of mind that gradually gained ascendancy among European intellectuals during that period

Europe in the Eighteenth Century George F. E. Rudé,1985 Europe in the Eighteenth Century is a social history of Europe in all its aspects economic political diplomatic military colonial expansionist Crisply and succinctly written it describes Europe not through a history of individual countries but in a common context during the three quarters of a century between the death of Louis XIV and the industrial revolution in England and the social and political revolution in France It presents the development of government institutions cities economies wars and the circulation of ideas in terms of social pressures and needs and stresses growth interrelationships and conflict of social classes as agents of historical change paying particular attention to the role of popular as well as upper and middle class protest as a factor in that change

Serious Reflections During the Life and Surprising Adventures of Robinson Crusoe with his Vision of the Angelick World Daniel Defoe,2022-04-22 *Serious Reflections During the Life and Surprising Adventures of Robinson Crusoe with his Vision of the Angelick World* first published in 1720 and considered a sequel to *The Farther Adventures of Robinson Crusoe* is a collection of essays written in the voice of the Crusoe character Expressing Defoe s thoughts about many moral questions of the day the narrator takes up isolation poverty religious liberty and epistemology Defoe also used this volume to revive his interest in poetry not the satiric poetry of the early eighteenth century but the more inspirational verse that appeared in some of his later works *Serious Reflections* also includes an imaginative flight in which Crusoe wanders among the planets a return to the moon voyage impulse of Defoe s 1705 work *The Consolidator* Illuminating the ideas and philosophy of this most influential of English novelists it is invaluable for any student of the period

Fighting for Rights Tal Dingott Alkopher,2016-04-15 In the light of NATO s humanitarian war in Kosovo is it possible to understand or explain wars as an outcome of perceptions of rights How did rights be they divine rights in the Middle Ages territorial rights in the

eighteenth century or human rights today become something that people are willing to fight and die for To answer these questions this book explores the linkage between concepts of rights and the practice of war in the international arena Alkopher describes how normative structures of rights have shaped different practices of war from medieval to modern times through the lens of social constructivism From the eleventh to the thirteenth century concepts of divine rights and institutionalized practices of the Crusades to the Holy Land fostered the prevailing ideas of international rights and war In the eighteenth century the institutionalization of states rights and territorial wars shaped international conflict This view held until the late twentieth century when the institutionalization of human rights coupled with the emerging practice of humanitarian war particularly NATO s war in Kosovo engendered new norms of international conduct The author concludes that rights have the power to constitute an international order that will be either cooperative or conflictual and the choice of outcome is very much in our hands This book will be essential reading for international relations and political science scholars and students but also philosophers legal and sociological historians and international lawyers

The Operas of Leonardo Vinci, Napoletano Kurt Sven Markstrom,2007 Vinci produced a string of operas during a brief career of little more than a decade He died mysteriously He was hailed by connoisseurs of the later 18th century as one of the originators of the classical style

The Quest for Security Penfield Roberts,1947

The Age of Reason Frank E. Manuel,2019-06-30 The period between the Peace of Utrecht and the French Revolution is brought into focus in this essay Professor Manuel deals with the age of the philosophes and the enlightened despots when belief in man s ability to achieve a good society through reason was in its first hopeful flower The powerful pressures of that time are evaluated the rapidly increasing population the phenomenal growth of cities and industries the greater facility of travel and transportation The modern nation state as exemplified in France England the Hapsburg Empire Prussia and Russia was growing strong and centralized The relations of these states to one another are discussed

Orders of Exclusion Kyle M. Lascurettes,2020-03-31 When and why do powerful countries seek to enact major changes to international order the broad set of rules that guide behavior in world politics This question is particularly important today given the Trump administration s clear disregard for the reigning liberal international order in the United States Across the globe there is also uncertainty over what China might seek to replace that order with as it continues to amass power and influence Together these developments mean that what motivates great powers to shape and change order will remain at the forefront of debates over the future of world politics Prior studies have focused on how the origins of international orders have been consensus driven and inclusive By contrast Kyle M Lascurettes argues in *Orders of Exclusion* that the propelling motivation for great power order building has typically been exclusionary Dominant powers pursue fundamental changes to order when they perceive a major new threat on the horizon Moreover they do so for the purpose of targeting this perceived threat be it another powerful state or a foreboding ideological movement The goal of foundational rule writing in international relations then is blocking that threatening entity from amassing further

influence a motive Lascurettes illustrates at work across more than three hundred years of history Far from falling outside of the bounds of traditional statecraft order building is the continuation of power politics by other means Montesquieu and Social Theory John Alan Baum,2013-10-02 Montesquieu and Social Theory details Montesquieu s contribution to sociology The title chronicles Montesquieu s work that led to establishing the fundamentals and principles of sociology The text first details Montesquieu s biographical account and then proceeds to discussing the Montesquieu s motivation in his works The next chapters encompass Montesquieu s works which include Persian Letter Considerations on the Causes of the Greatness of the Romans and their Decline and On The Spirit of the Laws The last chapter details Montesquieu s influence in the late 18th and early 19th centuries The book will be of great interest to anyone who has a keen interest in the development of social science The Publishers' Trade List Annual ,1973 *Toward Lexington* John W. Shy,2015-12-08 This study considers the subtle and frequently confused relationship of armed force and political control in the British Empire before the American Revolution It also clarifies a number of points of controversy and uncertainty about the causes of the American Revolution Originally published in 1965 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Modern Chinese State** David Shambaugh,2000-05-08 Publisher Description

Quest For Security 1715 1740 Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has are more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Quest For Security 1715 1740**," written by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve into the book is central themes, evaluate its unique writing style, and assess its overall influence on its readership.
