Key Steps in the Parole Hearing Process

^a Some people who are granted release at a parole hearing will ultimately not be released from prison. The Governor has authority to refer any decision to grant parole to a review by a majority of the board's 21 appointed commissioners for a possible reversal. In addition, the Governor can unilaterally reverse grants of parole for people convicted of murder.

House Documents United States House of Representatives, 1861 *Parole, Desistance from Crime, and Community Integration* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Community Supervision and Desistance from Crime, 2007-12-26

Every day about 1,600 people are released from prisons in the United States. Of these 600,000 new releasees every year, about 480,000 are subject to parole or some other kind of postrelease supervision. Prison releasees represent a challenge both to themselves and to the communities to which they return. Will the releasees see parole as an opportunity to be reintegrated into society with jobs and homes and supportive families and friends? Or will they commit new crimes or violate the terms of their parole contracts? If so, will they be returned to prison or placed under more stringent community supervision? Will the communities to which they return see them as people to be reintegrated or people to be avoided? And the institution of parole itself is challenged with three different functions: to facilitate reintegration for parolees who are ready for rehabilitation, to deter crime, and to apprehend those parolees who commit new crimes and return them to prison. In recent decades, policy makers, researchers, and program administrators have focused almost exclusively on recidivism, which is essentially the failure of releasees to refrain from crime or stay out of prison. In contrast, for this study the National Institute of Justice (NIJ) of the U.S. Department of Justice asked the National Research Council to focus on desistance, which broadly covers continued absence of criminal activity and requires reintegration into society. Specifically, the committee was asked 1

to consider the current state of parole practices new and emerging models of community supervision and what is necessary for successful reentry and 2 to provide a research agenda on the effects of community supervision on desistance from criminal activity adherence to conditions of parole and successful reentry into the community To carry out its charge the committee organized and held a workshop focused on traditional and new models of community supervision the empirical underpinnings of such models and the infrastructure necessary to support successful reentry Parole Desistance from Crime and Community Integration also reviews the literature on desistance from crime community supervision and the evaluation research on selected types of intervention

Convicted and Condemned Keesha Middlemass, 2017-06-27 Winner W E B DuBois Distinguished Book Award presented by the National Conference of Black Political Scientists Examines the lifelong consequences of a felony conviction through the compelling words of former prisoners Felony convictions restrict social interactions and hinder felons efforts to reintegrate into society The educational and vocational training offered in many prisons are typically not recognized by accredited educational institutions as acceptable course work or by employers as valid work experience making it difficult for recently released prisoners to find jobs Families often will not or cannot allow their formerly incarcerated relatives to live with them In many states those with felony convictions cannot receive financial aid for further education vote in elections receive welfare benefits or live in public housing In short they are not treated as full citizens and every year hundreds of thousands of people released from prison are forced to live on the margins of society Convicted and Condemned explores the issue of prisoner reentry from the felons perspective It features the voices of formerly incarcerated felons as they attempt to reconnect with family learn how to acclimate to society try to secure housing find a job and complete a host of other important goals By examining national housing education and employment policies implemented at the state and local levels Keesha Middlemass shows how the law challenges and undermines prisoner reentry and creates second class citizens Even if the criminal justice system never convicted another person of a felony millions of women and men would still have to figure out how to reenter society essentially on their own A sobering account of the after effects of mass incarceration Convicted and Condemned is a powerful exploration of how individuals and society as a whole suffer when a felony conviction exacts a punishment that never ends

Charles Manson and his family of followers Although the defendants were sentenced to death in 1971 their sentences were commuted to life with parole in 1972 since 1978 they have been regularly attending parole hearings Today all of the living defendants remain behind bars Relying on nearly fifty years of parole hearing transcripts as well as interviews and archival materials Hadar Aviram invites readers into the opaque world of the California parole process a realm of almost unfettered administrative discretion prison programming inadequacies high pitched emotions and political pressures Yesterday s Monsters offers a fresh longitudinal perspective on extreme punishment *Revision of the Federal Criminal Code* United States. Leigey,2015-05-08 Today there are approximately fifty thousand prisoners in American prisons serving life without parole having been found guilty of crimes ranging from murder and rape to burglary carjacking and drug offences In *The Forgotten Men* criminologist Margaret E Leigey provides an insightful account of a group of aging inmates imprisoned for at least twenty years with virtually no chance of release These men make up one of the most marginalized segments of the contemporary U S prison population Considered too dangerous for rehabilitation ignored by prison administrators and overlooked by courts disinclined to review such sentences these prisoners grow increasingly cut off from family and the outside world Drawing on in depth interviews with twenty five such prisoners Leigey gives voice to these extremely marginalized inmates and offers a look at how they struggle to cope She reveals for instance that the men believe that permanent incarceration is as inhumane as capital punishment calling life without parole the hard death penalty Indeed after serving two decades in prison some wished that they had received the death penalty instead Leigey also recounts the ways in which the prisoners attempt to construct meaningful lives inside the bleak environment where they will almost certainly live out their lives Every state in the union except Alaska has the life without parole sentencing option despite its controversial nature and its staggering cost to the taxpayer *The Forgotten Men* provides a much needed analysis of the policies behind life without parole sentencing arguing that such sentences are overused and lead to serious financial and ethical dilemmas
