Questioning Back The Overcoming Of Metaphysics In Christian Tradition:

Questioning Back Joseph S. O'Leary, 2016-08-31 This is the first of three essays in fundamental theology along with *Religious Pluralism and Christian Truth* 1996 and *Conventional and Absolute Truth* 2015 which attempt to reassess the status of Christian doctrinal language within the contemporary regime of truth In light of Heidegger's overcoming of metaphysics it revisits the age old tension between Athens and Jerusalem between the metaphysical structures of the Greek mind and the texture of the biblical events of revelation and salvation A deconstructive reading that traces this tension in classical Christian texts continued in later studies including *Christianisme et philosophie chez Origene* Editions du Cerf 2011 clears the ground for a step back to biblical realities as they are apprehended in contemporary consciousness

Theology and Difference Walter Lowe, 1993-07-22 provocative and rewarding *Religious Studies Review* a tour de force *Theological Studies* *Theology and Difference* reconceives the options confronting modern theology and investigates the disputed questions that underlie it Pressing beyond the ready made enlightenment offered by the subject object framework Walter Lowe uncovers a number of remarkable convergences between the contemporary philosopher Jacques Derrida and the early twentieth century theologian Karl Barth

Beyond Orientalism Franco, 2023-12-14 Wilhelm Halbfass philosopher and Indologist is a committed participant in the dialogue between India and Europe whose reflections on the Indian tradition and its Western perception are accompanied by reflection on and critical examination of the Western tradition In this innovative combination of Indological research and philosophical hermeneutical research in the history of ideas he demonstrates a purpose more ambitious and a scope wider than Edward Said's who constructed the Western study of the so called Orient as an attempt to deprive it of its identity and sovereignty and who perceived the pursuit of Oriental Studies in Western universities to be an extension of a fundamentally political will to power and domination Without denying the domination of the dialogue between India and Europe by the West Halbfass goes beyond that to show a different way of approaching Indian thought he strives to establish the presuppositions and prerequisites that would make a true dialogue and mutual understanding between Indian and Western intellectual cultures possible The papers in the present volume originate from twenty three scholars of Indology philosophy religious studies comparative theology classics folkloristics and political theory working in eleven countries spread over three continents They address central issues of Halbfass work his critical responses to them commence with an extensive essay in which he assesses in a masterly manner the state of Indian studies almost twenty years after the publication of Said's *Orientalism*

Sacramental Presence after Heidegger Conor Sweeney, 2015-01-19 *Theology after Heidegger* must take into account history and language as constitutive elements in the pursuit of meaning Quite often this prompts a hurried flight from metaphysics to an embrace of an absence at the center of Christian narrativity In this book Conor Sweeney explores the postmodern critique of presence in the context of sacramental theology engaging the thought of Louis Marie Chauvet and Lieven Boeve Chauvet is an influential postmodern theologian whose critique of the perceived onto

theological constitution of presence in traditional sacramental theology has made big waves while Boeve is part of a more recent generation of theologians who even more wholeheartedly embrace postmodern consequences for theology Sweeney considers the extent to which postmodernism a la Heidegger upsets the hermeneutics of sacramentality asking whether this requires us to renounce the search for a presence that by definition transcends us Against both the fetishization of presence and absence Sweeney argues that metaphysics has a properly sacramental basis and that it is only through this reality that the dialectic of presence and absence can be transcended The case is made for the full but restless signification of the mother's smile as the paradigm for genuine sacramental presence

Basil of Caesarea, Gregory of Nyssa, and the Transformation of Divine Simplicity Andrew Radde-Gallwitz, 2009-10 Divine simplicity is the idea that as the ultimate principle of the universe God must be a non composite unity not made up of parts or diverse attributes Radde Gallwitz explores how this idea was appropriated by early Christian theologians from non Christian philosophy with particular reference to Basil of Caesarea and Gregory of Nyssa

Hosting the Stranger: Between Religions Richard Kearney, James Taylor, 2011-03-10 Hosting the Stranger features ten powerful meditations on the theme of interreligious hospitality by eminent scholars and practitioners from the five different wisdom traditions Jewish Christian Hindu Buddhist and Islamic By gathering thinkers from different religious traditions around the same timely topic of what it means to host the stranger this text enacts the hospitality it investigates facilitating a hopeful and constructive dialogue between the world's major religions

The Gift of Love Andrew Staron, 2017-02-01 The Gift of Love explores the intelligibility of Augustine's claim that we come to know and encounter God in and through our love Building upon the discoveries of recent scholarship Andrew Staron reads Augustine's De Trinitate not as presenting the Trinity as a concept to be grasped but rather as a rational study of the limits of theological language and the possibility of coming to know the Trinity because of those limits Human dependence on God's initiative indicates that the Trinitarian God of love is knowable only through attention to how God's self revelation transforms and saves us Therefore to see God one seeks to mark love's formative activity within the heart Jean Luc Marion's rigorous description of the gift of love offers to Augustine's theology a phenomenological texture by which the Trinitarian love given in revelation might be made incarnate in one's life The Gift of Love presents a reason for hope that while coming to know the Trinity that God is might be impossible for human beings it is made possible by God's antecedent gift of love given in the missions Son and Holy Spirit and iconically received in the particularity of one's own love

Seeking Shalom Philip A. Cunningham, 2015-10-02 The amazing historic journey of Jews and Christians coming together In this book Philip Cunningham traces the remarkable developments in Catholic Jewish relations over the last fifty years Centuries of antipathy and suspicion Cunningham says have largely given way to a new mutually enriching relationship between the two traditions of Judaism and Catholicism A specialist in Christian Jewish relations Cunningham recounts the amazing historic journey of Jews and Christians coming together in light of both Scripture and theology covering the period from Vatican II up to the

present day After fifty years of significant dialogue Cunningham suggests Catholics and Jews are now on the threshold of building true shalom between their two communities experiencing the Holy One anew in each other's distinctive and edifying ways of walking with God

Beyond Theism and Atheism: Heidegger's Significance for Religious Thinking R.S. Gall, 2012-12-06 My first year in graduate school marked by initial exposure to Heidegger and some of his important early essays At that time disenchanted with the state in which religious thought lay I was quickly struck by the potential Heidegger presented for breaking new ground in a field that had seemingly exhausted itself by reworking the same old issues and answers That insight along with the conviction that Heidegger had been misused and misunderstood by theologians and religious thinkers ever since he burst upon the intellectual scene with the publication of *Sein und Zeit* grew throughout my graduate career and resulted in a dissertation on Heidegger and religious thinking of which the present text is a revised and updated version This text reflects my belief that Heidegger when properly understood on such matters as truth God and gods and faith presents us with a unique voice and vision that cannot be co-opted into any sort of theology be it negative existential dialectical or Thomistic and indeed seriously challenges the viability of any theology

Reading the Bible Theologically Darren Sarisky, 2019-01-17 Examines what theological reading is and how it shapes the interpretation of Biblical text through explicit focus on the reader

Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy

In Love With Logos Jeremiah Reedy Ph.D., 2001-10-19 In this book believers in the value of reasoning will find themselves in very hospitable territory where they will have the pleasure of confronting ideas that are defined with argument and to which should they on occasion disagree with one or the other of them they will always feel that nothing less than a carefully reasoned response is called for And that is the highest praise that I can think of for its author Like Socrates he is in love with reason and like Socrates he finds that other lovers of reason sense a kindred spirit and engage Thomas M Robinson University of Toronto

Foucault's de-centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play in the constitution of the self and the making of society. This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non-unitary theology of religious pluralism and an open textured process of self transformation. The author's original and imaginative application and expansion of Foucault's concept of the *More* from *The Archaeology of Knowledge* 1969 makes important and original contributions to academic work on Foucault and contemporary theology. Russian Postmodernism Mikhail N. Epstein, Alexander A. Genis, Slobodanka Vladiv-Glover, 2016 Recent decades have been decisive for Russia not only politically but culturally as well. The end of the Cold War has enabled Russia to take part in the global rise and crystallization of postmodernism. This volume investigates the manifestations of this crucial trend in Russian fiction, poetry, art and spirituality, demonstrating how Russian postmodernism is its own unique entity. It offers a point of departure and valuable guide to an area of contemporary literary cultural studies insufficiently represented in English language scholarship. This second edition includes additional essays on the topic and a new introduction examining the most recent developments.
