Unruly Ideas Nicole Eggers, 2023-10-31 Original oral and ethnographic sources inform this conceptual history of power in central Africa imagined through the lens of Kitawala religious practices Unruly Ideas A History of Kitawala in Congo recounts the multifaceted history of the Congolese religious movement Kitawala from its colonial beginnings in the 1920s through its continued practice in some of the most conflict riven parts of the eastern Democratic Republic of Congo today Drawing on a rich body of original oral ethnographic and archival research Nicole Eggers uses Kitawala as a lens through which to address the complex relationship between politics religion healing and violence in central African history Kitawala which has roots in the African Watchtower Jehovah s Witness movement has long been viewed both by scholars and by popular historians as a form of male dominated anticolonial insurgency But just as Kitawalists were never exclusively male their teachings and activities were never directed solely at the Belgian colonial state and their yearnings for self rule were never entirely about the secular realms of authority A more comprehensive look at the oral and archival evidence reveals they were and are concerned with the morality of power more broadly on state communal and individual levels Moreover Kitawalist doctrine is itself unruly and its preachers prophets and practitioners have articulated innumerable interpretations most quite different from Watchtower Christianity across space and time More than a case study of a particular religious movement Unruly Ideas is a conceptual history of power that investigates how communities and individuals in the region have historically imagined power sought to access it wielded it and policed the morality of its uses By focusing on power and its intellectual and social history in Congo Unruly Ideas creates an analytical space in which readers can understand the differing manifestations of Kitawala from its overtly political and sometimes violent moments to those more aptly characterized as individual quests for spiritual and physical therapy as varying themes in the same story the pursuit of wellness in the context of malady On a more practical level the book raises important questions about the project of writing histories of places like eastern Congo a region where the repercussions of decades of political neglect upheaval and violence force us to reconsider how we can think about and use oral and archival sources Finally the book investigates the embodied and gendered nature of field research and interrogates the intersubjective and reciprocal nature of knowledge production

Cultural Diversity Among Twentieth-Century Foragers Susan Kent, 1996-02-15 This book examines variability within
broadly defined African forager societies Foragers have been seen as culturally similar as they all pursue a subsistence
strategy emphasising hunting and gathering However new research suggests there may be more diversity among groups
than has been acknowledged Here leading scholars contrast groups with in forager societies Chapters range in scope from
symbolic to ecological and behavioural providing invaluable data on hunter gatherer life for anyone concerned with past or
present foragers **Medicinal Rule** Koen Stroeken, 2018-09-07 As soon as Europeans set foot on African soil they looked
for the equivalents of their kings and found them The resulting misunderstandings have lasted until this day Based on
ethnography driven regional comparison and a critical re examination of classic monographs on some forty cultural groups
this volume makes the arresting claim that across equatorial Africa the model of rule has been medicine and not the colonizer
s despotic administrator the missionary s divine king or Vansina s big man In a wide area populated by speakers of Bantu and
other languages of the Niger Congo cluster both cult and dynastic clan draw on the fertility shrine rainmaking charm and
drum they inherit **Paths in the Rainforests** Jan M. Vansina, 1990-10-22 Vansina s scope is breathtaking he reconstructs
the history of the forest lands that cover all or part of southern Cameroon Gabon Equatorial Guinea the Congo Zaire the
Central African Republic and Cabinda in Angola discussing the original settlement of the forest by the western Bantu the
periods of expansion and innovation in agriculture the development of metallurgy the rise and fall of political forms and of
power the coming of Atlantic trade and colonialism and the conquest of the rainforests by colonial powers and the
destruction of a way of life In 400 elegantly brilliant pages Vansina lays out five millennia of history for nearly 200
distinguishable regions of the forest of equatorial Africa around a new subtly paradoxical interpretation of tradition Joseph
Miller University of Virginia Vansina gives extended coverage to the broad features of culture and the major lines of
historical development across the region between 3000 B C and A D 1000 It is truly an outstanding effort readable subtle and
integrative in its interpretations and comprehensive in scope It is a seminal study but it is also a substantive history that will
long retain its usefulness Christopher Ehret American Historical Review **International Handbook of Research on
