Qui Sont Vos Psychanalystes:

Inheritance in Psychoanalysis Joel Goldbach, James A. Godley, 2018-02-01 Anthology of recent cutting edge work in psychoanalysis and philosophy on the concept of inheritance In contrast to the way inheritance is understood in scientific discourse and culture more broadly inheritance in psychoanalysis is a paradox Although it is impossible strictly speaking for the unconscious to be inherited this volume demonstrates how the concept of inheritance can occasion a rich reassessment and reinvention of psychoanalytic theory and practice The collection enacts a critical traversal of inheritance for psychoanalysis from the most basic assumptions of natural or biological inheritance such as innateness heredity evolution and ontogenesis to analysis of the ways cultural traditions can be challenged and transformed and finally to the reinvention of psychoanalytic practice in which the ethics of inheritance is fully realized as the individual's responsibility to transform the social bond Featuring strong interdisciplinary analysis rooted in both psychoanalysis and philosophy this volume further engages science politics and cultural studies and addresses contemporary political challenges such as autism and transgenderism

Lacan Today Alexandre Leupin, 2020-09-08 Lacan Today Psychoanalysis Science Religion offers a lucid overview of the French psychoanalyst's work In five sections The Structure of the Subject Epistemology Four Discourses There is No Sexual Rapport and God is Real the book maps out Lacan's thought for the lay reader with unmatched clarity It does this by building from Lacan's graph and formulas which are often misunderstood This formalization acts as a pedagogical tool of wonderful economy offering a broad overview without neglecting the essential details The chapters are summarized by a general graph that visually demonstrates Lacan's rigor and coherence The book examines often neglected aspects of Lacan's work like problems in the history of science epistemology and religion in order to show Lacan's relevance to today's world It makes the case for Lacan as one of the most important thinkers of the twentieth century whose reach extends beyond the discipline of psychoanalysis Indeed Lacan's thought should lead readers into a reexamination of philosophy literature art politics economy and desire In his introduction Alexandre Leupin writes If the unconscious exists then Lacan is the only twentieth century thinker who has drawn the consequences of Freud's discovery to their ultimate limits I propose here what some will take as bombastic hyperbole Lacan's radical reevaluation of human thinking is comparable to Einstein's Though Lacan's thought is making tremendous inroads in countries of Latin culture it has been slowly fading from public awareness in the English speaking world Often Lacan has been nothing more than a pawn in the bundling of contradictory doctrines labeled as French thought or he has been reduced to a means of exchange between psychoanalysts or specialists in the humanities Leupin's contention is that what Lacan said or wrote is of interest to the general public and that his consignment to oblivion is reversible This book demonstrates that Lacan's thinking has vast implications not only for college professors or practicing psychoanalysts but also for scientists epistemologists and every man and woman

Concept and Form, Volume 2 Peter Hallward, Knox Peden, 2012-12-12 Edited by a small group of students

including Alain Badiou Jacques Alain Miller and François Regnault at the Ecole normale supérieure in Paris the Cahiers pour l'Analyse appeared in ten volumes between 1966 to 1969 The journal was conceived as a contribution to a philosophy based on the primacy of concepts and the rigor of logic and formalization as opposed to lived experience or the interpretation of meaning The Cahiers published landmark texts by the most influential thinkers of the day including Derrida Foucault Irigaray and Lacan and were soon recognized as one of the most significant and innovative philosophical projects of the time The two volumes of Concept and Form offer the first systematic presentation and assessment of the Cahiers legacy in any language The second volume is a collection of newly commissioned essays on the journal and substantial interviews with members of the editorial board

The Reign of Speech Dries G. M. Dulsster, 2021-10-28 This book provides an in depth examination of Lacanian oriented psychotherapy and supervision drawing on a wide range of Lacanian texts and rich interview data Beginning with a comprehensive overview of the Lacanian psychoanalytic therapeutic process it next considers this in relation to Lacanian texts including The Function and Field of Speech and Language in Psychoanalysis Direction of the Treatment Lacanian Discourses and Seminar XXIII and interview data from ex analysants and psychoanalysts The second part of the book offers the first systematic discussion of Lacanian supervision Through a sophisticated theoretical analysis and unique research material Dries Dulsster has created an important reference point for students scholars and clinicians that will appeal to those new to Lacanian practice and those already deeply involved in it

Freud and War Marlene Belilos, 2018-03-29 During the rise of fascism and anti-Semitism in Germany Albert Einstein wrote to Sigmund Freud asking the fundamental question What can be done to liberate humanity from the menace of war The psychoanalyst replied at length and their exchange of letters reproduced here was published in March 1933 under the title Why War The book would be included in the book burnings in Berlin on 10th of May that year Why War is important in Freud's work because in it he develops a fundamental idea that leads him to conclude that the life and death drives are linked a thought that he had already entertained in works such as Death and Us 1915 which is also included here In a terrible irony Freud dedicated a copy of Why War to Mussolini who nonetheless instituted a police investigation of its author The contributors to this volume explore the reasons underlying the dedication as well as giving their own reflections on the genesis of war

Self and Emotional Life Adrian Johnston, Catherine Malabou, 2013-06-04 Adrian Johnston and Catherine Malabou defy theoretical humanities deeply entrenched resistance to engagements with the life sciences Rather than treat biology and its branches as hopelessly reductive and politically suspect they view recent advances in neurobiology and its adjacent scientific fields as providing crucial catalysts to a radical rethinking of subjectivity Merging three distinct disciplines European philosophy from Descartes to the present Freudian Lacanian psychoanalysis and affective neuroscience Johnston and Malabou triangulate the emotional life of affective subjects as conceptualized in philosophy and psychoanalysis with neuroscience Their experiments yield different outcomes Johnston finds psychoanalysis and neurobiology have the potential to enrich each other though

affective neuroscience demands a reconsideration of whether affects can be unconscious Investigating this vexed issue has profound implications for theoretical and practical analysis as well as philosophical understandings of the emotions Malabou believes scientific explorations of the brain seriously problematize established notions of affective subjectivity in Continental philosophy and Freudian Lacanian analysis She confronts philosophy and psychoanalysis with something neither field has seriously considered the concept of wonder and the cold disturbing visage of those who have been affected by disease or injury such that they are no longer affected emotionally At stake in this exchange are some of philosophy's most important claims concerning the relationship between the subjective mind and the objective body the structures and dynamics of the unconscious dimensions of mental life the role emotion plays in making us human and the functional differences between philosophy and science

Zizek's Ontology Adrian Johnston, 2008-03-19 By taking this avowal seriously Adrian Johnston finally clarifies the philosophical project underlying Žižek's efforts

Adventures in Transcendental Materialism Adrian Johnston, 2014-03-17 Critically engaging with thinkers including Slavoj Žižek Alain Badiou Catherine Malabou Jean Claude Milner Martin Hagglund William Connolly and Jane Bennett Johnston formulates a materialist and naturalist account of subjectivity that does full justice to human beings as irreducible to natural matter alone

Genealogies of Speculation Suhail Malik, Armen Avanessian, 2016-01-14 Genealogies of Speculation looks to break the impasse between the innovations of speculative thought and the dominant strands of 20th century anti foundationalist philosophy Challenging emerging paradigms of philosophical history this text re evaluates different theoretical and political traditions such as feminism literary theory social geography and political theory after the speculative turn in philosophy With contributions from leading writers in contemporary thought this book is a crucial resource for studying cultural and art theory and continental philosophy

Concept and Form, Volume 2 Knox Peden, Peter Hallward, 2012-12-12 Concept and Form is a two volume monument to the work of the philosophy journal the Cahiers pour l'Analyse 1966-69 the most ambitious and radical collective project to emerge from French structuralism Inspired by their teachers Louis Althusser and Jacques Lacan the editors of the Cahiers sought to sever philosophy from the interpretation of given meanings or experiences focusing instead on the mechanisms that structure specific configurations of discourse from the psychological and ideological to the literary scientific and political Adequate analysis of the operations at work in these configurations they argue helps prepare the way for their revolutionary transformation Volume One of Concept and Form translates some of the most important theoretical texts from the Cahiers pour l'Analyse this second volume collects newly commissioned essays on the journal together with recent interviews with people who were either members of its editorial board or associated with its broader theoretical project It aims to help reconstruct the intellectual context of the Cahiers and to assess its contemporary theoretical legacy Prefaced by an overview of the project's rigorous investment in science and conceptual analysis the volume considers in particular the Cahiers' distinctive effort to link the apparently incommensurable categories of structure and subject so as to prepare for a new

synthesis of Marxism and psychoanalysis Contributors include Alain Badiou, Étienne Balibar, Edward Baring, Jacques Bouveresse, Yves Duroux, Alain Grosrichard, Peter Hallward, Adrian Johnston, Patrice Maniglier, Tracy McNulty, Jean-Claude Milner, Knox Peden, Jacques Rancière, François Regnault, and Slavoj Žižek Prolegomena to Any Future Materialism Adrian Johnston, 2013-07-31 Adrian Johnston's *Prolegomena to Any Future Materialism* planned for three volumes will lay the foundations for a new materialist theoretical apparatus, his transcendental materialism. In this first volume, Johnston clears an opening within contemporary philosophy and theory for his unique position. He engages closely with Lacan, Badiou, and Meillassoux, demonstrating how each of these philosophers can be seen as failing to forge an authentically atheistic materialism. Johnston builds a new materialism both profoundly influenced by these brilliant comrades of a shared cause as well as making up for the shortcomings of their own creative attempts to bring to realization the Lacanian vision of an Other-less One-less ontology. The Outcome of Contemporary French Philosophy yields intellectual weapons suitable for deployment on multiple fronts simultaneously effective against the mutually entangled spiritualist and scientistic foes of our post-Enlightenment biopolitical era of nothing more than commodities and currencies **Propos d'une psychanalyste** Annie Guérineau-Jomelli, 2016-12-01 Dans ce recueil de textes placés comme des balises sur un parcours singulier, une psychanalyste tient le pari de s'impliquer dans une critique plurielle où prennent place les événements de sa vie. Alors que l'usage courant est de critiquer sur la psychanalyse la posture qu'adopte l'auteure est forcément critique et parfois juste titre par ceux qui demeurent dans une logique scientiste. Le lecteur assistera donc à la renaissance de la psychanalyse au travers d'une critique vitale et passionnée *Hegel and the Infinite* Slavoj Žižek, Clayton Crockett, Creston Davis, 2011-03-23 Catherine Malabou, Antonio Negri, John D. Caputo, Bruno Bosteels, Mark C. Taylor, and Slavoj Žižek join seven others including William Desmond, Katrin Pahl, Adrian Johnston, Edith Wyschogrod, and Thomas A. Lewis to apply Hegel's thought to twenty-first century philosophy, politics, and religion. Doing away with claims that the evolution of thought and history is at an end, these thinkers safeguard Hegel's innovations against irrelevance and importantly reset the distinction of secular and sacred. These original contributions focus on Hegelian analysis and the transformative value of the philosopher's thought in relation to our current turn to religion. Malabou develops Hegel's motif of confession in relation to forgiveness. Negri writes of Hegel's philosophy of right. Caputo reaffirms the radical theology made possible by Hegel, and Bosteels critiques fashionable readings of the philosopher and argues against the reducibility of his dialectic. Taylor reclaims Hegel's absolute as a process of infinite restlessness, and Žižek revisits the religious implications of Hegel's concept of letting go. Mirroring the philosopher's own trajectory, these essays progress dialectically through politics, theology, art, literature, philosophy, and science, traversing cutting-edge theoretical discourse and illuminating the ways in which Hegel inhabits them El psicoanálisis, en el siglo XXI Jacques-Alain Miller, Esthela Solano-Suárez, 2022-01-31 Pueden ser actuales una teoría y una práctica que nacieron con el siglo XX cuando nos adentramos en una época que en muchos aspectos es tan distinta. ¿Qué han hecho los psicoanalistas para

actualizarla teniendo en cuenta las profundas transformaciones de la civilización y sus efectos innegables en la subjetividad de los hombres y las mujeres de nuestra época cuyos malestares se expresan de formas hasta hace poco inéditas. Esta es la pregunta a la que responden diversos trabajos reunidos en este volumen empezando por la conferencia de Jacques Alain Miller. Como se deviene psicoanalista en los inicios del siglo XXI que constituye una preciosa orientación inicial. Le sigue un seminario de Esthela Solano Suñer en torno a conceptos que Lacan introdujo en el último periodo de su enseñanza y que como ella demuestra constituyen las herramientas más adecuadas para abordar hoy los retos inherentes a nuestra tarea. Y como broche final un artículo suyo que aborda la cuestión de lo sexual a partir de casos ya clásicos pero mostrando de un modo preciso hasta qué punto lo que Lacan llamaba sexualidad es un guapa para no perderse en el laberinto de las identificaciones de género. Con la participación de Silvana Di Rienzo, Rosana Fautsch Fernández y Erendira Molina Espinosa.

La psychanalyse Jean-Claude Liaudet, 2002. La psychanalyse reste souvent mal connue source d'idées reçues et de craintes injustifiées. L'auteur s'emploie ici explorer ce que chacun peut attendre de la psychanalyse ce qu'elle révèle de l'inconscient et ce qu'elle propose de changer.

Los psicoanalistas y el deseo de enseñar Graciela Brodsky, 2024-03-01. En Los psicoanalistas y el deseo de enseñar de Graciela Brodsky intervienen Fabián Naparstek, Silvia Salman, Ricardo Seldes, Gustavo Stiglitz, Mauricio Tarrab y Luis Tudanca. Se incluye un texto de Jacques Alain Miller. Para qué y por qué habrá que enseñar. Por qué habrá que enseñar lo que el psicoanálisis enseña. Por qué no decir que es imposible que el análisis es de lo singular y que solamente vale para uno solo que eso que no se transmite más que como resonancia como efecto de afecto mucho menos se enseña.

Las psicosis y el vínculo social Pierre Naveau, 2018-02-13. El vínculo social está creado por la estructura del lenguaje. Atenerse a las declaraciones y los escritos de los sujetos psicóticos abre un camino de sorpresas y descubrimientos porque cada uno de esos sujetos aunque sea de manera frágil y precaria inventa una solución que le es propia. El síntoma entendido aquí en el sentido del psicoanálisis es en cada caso lo que da a ese vínculo una escritura particular. Cuando se trata de un sujeto llamado psicótico el vínculo social se deshace o puede romperse. Así la función social de la enfermedad mental alcanza la dimensión de ironía. La palabra es entonces audible. El hilo de la frase es aún así legible. La respuesta es sí. Atenerse a la letra de las declaraciones y de los escritos de los sujetos psicóticos abre un camino de sorpresas y descubrimientos porque cada uno de esos sujetos aunque sea de manera contingente frágil y precaria inventa una solución que le es propia.

Terminaciones de análisis Jacques-Alain Miller, 2018-01-29. Reflexión sobre cómo podemos pensar esta repetición ya no interpretando las resistencias de lo social contra el psicoanálisis sino en relación con los analistas con la comunidad analítica y su implicación en ello. En este libro Jacques Alain Miller muestra que el psicoanálisis está vinculado a la libertad de palabra y a través de ella a los derechos humanos. Hemos visto últimamente tres historias de tres mujeres: primero la liberación de Rafah, Nached Siria y más recientemente Mitra Kadivar, Irán y Raja Ben Slama, Túnez. Esa serie de tres mujeres y el hecho de que se trate de psicoanalistas pone de manifiesto lo que Lacan había anticipado: la vinculación del psicoanálisis no con la libertad sino con las

libertades No se trata del concepto abstracto metafísico de libertad sino de lo que está en juego en la práctica es decir si se puede practicar el psicoanálisis o no con sus consecuencias Es ahí donde podemos decir si creemos o no en la democracia
