**Making Made Easy** Mary Ellen Ward, 2019-11-06 Winemaking is so complicated Or is it Home wine making used to be simple And now it is again Our grandparents and generations of grandparents before them made excellent wines with minimal fuss minimal equipment and no added sulfites or additives They made them not just from grapes but from all manner of available fruits berries honey and other produce They didn't spend a lot of money They didn't overwhelm themselves with minuscule measurements and chemistry They didn't dwindle down the savings to buy pricey containers for fermenting or for storing They made wine in tune with the rhythms of nature with basic equipment They made Good Simple Cheap Easy Homemade Wine If you've always wanted to make wine but thought the process or investment was beyond you this is the book for you This is the book that takes winemaking back to its roots The no fuss no frills method of wine making that uses everyday equipment you can buy right downtown This simplified and basic process uses no added preservatives sulfites or unrecognizable ingredients Just good clean wine making for good clean fun making wine     *The Wine Pioneers* Anton Massel, 2008 At first there were the horticulturists and wine growers then came the wine makers the coopers and the cellar masters Inevitably there were wine shippers and wine merchants Chemists and biologists added their skills in the past two centuries and only very recently came the oenologists and the professional wine tasters Wine writers play an important role in today's wine trade and there were always wine connoisseurs and wine snobs From 5000BC to the modern day this book provides a chronological history of the wine pioneers through the ages     *Science and Technology* Carnegie Library of Pittsburgh, 1977     *Science and Technology of Fruit Wine Production* Maria R.
