**Leadership & Management Made Easy** Benson Katulwa,2015-12-02 Students enrolled for the International Qualification in Diploma in Leadership and Management sometimes find it challenging to understand what is expected as they attempt to complete various work based assignments Sometimes the questions are not straight forward and one is never sure whether they are on the right track As a result some students give up others get stuck and demotivated and for many more it takes longer to finish the course than anticipated For that reason this guide was developed as a support tool to guide you by simplifying the questions and giving the needed suggestions to get you moving ahead To help you get the most out of this guide here are a few things you need to know and pay attention to General Expectations The nature of ILM Qualifications The ILM Diploma in Leadership and Management is a vocational qualification As such it is different from many other exams you have taken in other schools and colleges While many examinations test your ability to memorize and reproduce what you were taught this diploma tests your ability to apply your learning in your workplace For this reason the emphasis is not on the right or wrong answer but more so on the relevance of your argument to your situation The Length of each assignment has been given below the unit purpose This will range between 800 and 2500 words depending on the number of questions given in the particular assignment Pass mark for each question or Assessment Criteria AC is 50% That means if a question has been allocated 10 marks then you need to score a minimum of 5 out of the 10 marks Scoring less than half the total mark allocation will mean the assignment will be returned to you for necessary improvement Evidence of workplace application All ILM assignments are work based meaning your response should be based on leadership and management practice in your work place Therefore the examiner of your work will be looking for evidence that you were able to apply your learning in your work place context Plagiarism is considered the worst crime one can commit in academic circles It involves using other people s ideas without acknowledging the source The punishment for plagiarism is a zero score for that paper and in extreme cases you may be discontinued from the study program
