**Archives of Authority** Andrew N. Rubin, 2012-08-16 Combining literary cultural and political history and based on extensive archival research including previously unseen FBI and CIA documents Archives of Authority argues that cultural politics specifically America's often covert patronage of the arts played a highly important role in the transfer of imperial authority from Britain to the United States during a critical period after World War II Andrew Rubin argues that this transfer reshaped the postwar literary space and he shows how during this time new and efficient modes of cultural transmission replication and travel such as radio and rapidly and globally circulated journals completely transformed the position occupied by the postwar writer and the role of world literature Rubin demonstrates that the nearly instantaneous translation of texts by George Orwell Thomas Mann W H Auden Richard Wright Mary McCarthy and Albert Camus among others into interrelated journals that were sponsored by organizations such as the CIA's Congress for Cultural Freedom and circulated around the world effectively reshaped writers critics and intellectuals into easily recognizable transnational figures Their work formed a new canon of world literature that was celebrated in the United States and supposedly represented the best of contemporary thought while less politically attractive authors were ignored or even demonized This championing and demonizing of writers occurred in the name of anti Communism the new transatlantic civilizing mission through which postwar cultural and literary authority emerged

**Geniuses** David W. Galenson, 2011-06-27 When in their lives do great artists produce their greatest art Do they strive for creative perfection throughout decades of painstaking and frustrating experimentation or do they achieve it confidently and decisively through meticulous planning that yields masterpieces early in their lives By examining the careers not only of great painters but also of important sculptors poets novelists and movie directors Old Masters and Young Geniuses offers a profound new understanding of artistic creativity Using a wide range of evidence David Galenson demonstrates that there are two fundamentally different approaches to innovation and that each is associated with a distinct pattern of discovery over a lifetime Experimental innovators work by trial and error and arrive at their major contributions gradually late in life In contrast conceptual innovators make sudden breakthroughs by formulating new ideas usually at an early age Galenson shows why such artists as Michelangelo Rembrandt C zanne Jackson Pollock Virginia Woolf Robert Frost and Alfred Hitchcock were experimental old masters and why Vermeer van Gogh Picasso Herman Melville James Joyce Sylvia Plath and Orson Welles were conceptual young geniuses He also explains how this changes our understanding of art and its past Experimental innovators seek and conceptual innovators find By illuminating the differences between them this pioneering book provides vivid new insights into the mysterious processes of human creativity *Russell Drysdale* Christopher Heathcote, 2013 This book takes a fresh look at one of the nation s major modern artists surveying Drysdale s approach to landscape across painting drawing and photography Using original research Heathcote highlights what the artist saw as urgent issues facing Australia mid century revealing the underpinning symbolism of Drysdale s outback imagery *The Publishers Weekly* ,1980
