Rubian Romanticism:

Interracial Intimacy Rachel F. Moran, 2001 Crossing disciplinary lines Moran looks in depth at interracial intimacy in America from colonial times to the present She traces the evolution of bans on intermarriage and explains why blacks and Asians faced harsh penalties while Native Americans and Latinos did not She provides fresh insight into how these laws served complex purposes why they remained on the books for so long and what led to their eventual demise As Moran demonstrates the United States Supreme Court could not declare statutes barring intermarriage unconstitutional until the civil rights movement coupled with the sexual revolution had transformed prevailing views about race sex and marriage

From Romanticism to Modernismo in Latin America David William Foster, Daniel Altamiranda, 1997 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory

Personal Relationships: Developing personal relationships Steve Duck, Robin Gilmour, 1981 **Romance literature pamphlets**, 1905 **Forms of Modernity** Rachel Lynn Schmidt, 2011-01-01 It's a critical cliché that Cervantes' Don Quixote is the first modern novel but this distinction raises two fundamental questions First how does one define a novel And second what is the relationship between this genre and understandings of modernity In *Forms of Modernity* Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes' masterpiece as an exemplary novel in turn contributing to the emergence of key concepts within genre theory Schmidt's discussion covers the views of well known thinkers such as Friedrich Schlegel José Ortega y Gasset and Mikhail Bakhtin but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno These theorists' examinations of Cervantes' fictional knight errant character point to an ever shifting boundary between the real and the virtual Drawing from both intellectual and literary history *Forms of Modernity* richly explores the development of the categories and theories that we use today to analyze and understand novels *Advances in Family Intervention, Assessment and Theory*, 1983 **The**

France, 1919 **Unamuno's Theory of the Novel** C.A. Longhurst, 2017-07-05 Miguel de Unamuno 1864-1936 is widely regarded as Spain's greatest and most controversial writer of the first half of the twentieth century Professor of Greek and later Rector at the University of Salamanca and a figure with a noted public profile in his day he wrote a large number of

philosophical political and philological essays as well as poems plays and short stories but it is his highly idiosyncratic novels for which he coined the word *novela* that have attracted the greatest critical attention *Niebla* 1914 has become one of the most studied works of Spanish literature such is the enduring fascination which it has provoked In this study C A Longhurst a distinguished Unamuno scholar sets out to show that behind Unamuno's fictional experiments there lies a coherent and quasi philosophical concept of the *novela* genre and indeed of writing itself Ideas about freedom identity finality mutuality and community are closely intertwined with ideas on writing and reading and give rise to a new and highly personal way of conceiving fiction

The *Americana*, 1923 *An Introduction to Spanish-American Literature* Jean Franco, 1994 A revised updated edition of Jean Franco's *Introduction to Spanish American Literature* first published in 1969 **The Great Chiasmus** Paul R. Olson, 2003 In *The Great Chiasmus* Paul R. Olson explores the use of the chiasmus in the work of Miguel de Unamuno The chiasmus a reversal in the order of words or parts of speech in parallel phrases appears on a variety of levels from brief microstructures *blanca como la nieve y como la nieve fría* to the narrative structures of entire novel Olson even suggests the chiasmus encompasses the stages in Unamuno's novelistic work forming a chiasmus that can be schematized as ABC CBA As a phenomenon of enclosure the chiasmus is related to other enclosing phenomena such as the image of Chinese boxes and the *mise en abyme* These structures three dimensional version of the chiasmus are also frequent in Unamuno's texts The chiasmus is also found on the conceptual level in which Unamuno regards apparent contraries as freely reversible and thus identical From early adulthood he was fascinated by the Hegelian idea of the identity of pure Being and pure Nothingness and that concept provides the structure underlying a wide variety of his paradoxes and verbal conceits In this connection Unamuno explores concepts usually considered opposites such as mind and body or spirit and matter Olson's close readings of the texts in terms of this structure lead to observations on Spanish history events in Unamuno's life the psychological dimensions of his characters and the authorial self that is found within his texts **Getting What You Want** Kathy
