Rudolf Steiner Als Architekt Von Wohnund Zweckbauten:

Rudolf Steiner als Architekt von Wohn- und Zweckbauten Erich Zimmer, 1971 **A Life for the Spirit** Henry Barnes, 1997 Whether or not Steiner's insights are valid is for each of us to determine His work is not easy and he challenges our usual thinking every step of the way The insights are radical in the original meaning of that word they go to the roots We are forced more and more to realize that only through such thinking can actions arise that are truly healing and constructive Henry Barnes from the introduction Few people today recognize Rudolf Steiner's name yet those who are aware of him know that his presence pervades every forward looking aspect of contemporary life Nearly all fields of life have been fructified by his insights not abstractly or theoretically but in a concrete way that changes lives No wonder then that Steiner has been called the best kept secret of the twentieth century Born in 1861 in Kraljvec Austria Steiner showed evidence early on of the most varied gifts a precise and probing scientific mind combined with a natural clairvoyant ability to see into the spiritual world a determined need to think things through for himself and a profound reverence for the divine He first made his mark as a philosopher and the editor of Goethe's scientific writings He also recognized the revolutionary spirit in Nietzsche But Steiner's destiny led him in a different direction Profound cognitive experiences determined that his task would lie in service to the spirit While recognizing the integrity of modern science's phenomenological empiricism he also knew that the time had come to extend the field of science to include investigation of the supersensible Working at first within the Theosophical Society but always speaking and writing out of his own experience Steiner developed the foundations for a thoroughly modern spiritual scientific discipline that would transform spiritual and cultural life Until his death in 1925 in countless lectures and books Steiner created the body of knowledge and practice known as anthroposophy which not only challenged and extended the underlying methods of modern knowledge but stimulated many practical cultural initiatives such as Waldorf education biodynamic agriculture the art of eurythmy the movement for a threefold social order and anthroposophical medicine Henry Barnes the author of *Into the Heart's Land: A Century of Rudolf Steiner's Work in North America* recounts the dynamic life of this remarkable man He does so by placing Steiner in the crosscurrents of history and showing him not as a spectator or ivory tower philosopher but as a leading actor in the drama one whose entire being was given in service to humanity and to the spirit Contents Foreword by Robert McDermott Introduction In Search of a New Thinking The Twentieth Century Battleground for Human Individuality Child of Middle Europe Biographical Foundations The Weimar Years Nietzsche Steiner and the Redemption of Thinking The Years of Inner Testing Berlin The Work Unfolds The Building Rises Insight Becomes Life The Three fold Movement for Social Reform The First Waldorf School and the Independence of Education The Healing Arts Religious Renewal Out of Fire Renewal from Within The Christmas Foundation Months of Grace Afterword The Battle Continues What Can I Do *Architecture as a Synthesis of the Arts* Rudolf Steiner, 1999 8 lectures plus extracts and notes CW 286 This collection introduces Rudolf Steiner's vision of architecture as a

culmination of the arts Such architecture unites sculpture painting and engraving as well as drama music and dance a vital synthesis of all the arts working in cooperation through the common ideal of awakening us to our individuality and task in life Unlike many of his contemporaries Steiner's ideas did not remain abstract Within his lifetime he was able to design and construct a number of buildings including his architectural masterpiece the Goetheanum a center for culture and arts near Basle Switzerland In these lectures Steiner describes with reference to the Goetheanum the importance of an architecturally coherent and integrated community and how this in turn affects social unity and harmony These lectures offer a panorama of the development of architecture in parallel with the emerging human soul in human evolution This is a valuable collection for all students of architecture the arts social science and those looking for a deeper spiritual understanding of the art of architecture Includes eight color plates and 30 black white illustrations CONTENTS Part One The Temple Is the Human Being An Art Architecture that Reveal the Underlying Wholeness of Creation The Task of Modern Art Architecture Proposals for the Architecture of a Model Anthroposophical Community at Dornach Part Two Ways to a New Style of Architecture True Artistic Creation Art As the Creation of Organs through which the Gods Speak to Us A New Concept of Architecture The Aesthetic Laws of Form The Creative World of Color Appendix The Evolution of Architecture at the Turn of Each New Millennium Notes Color Plates Architecture as a Synthesis of the Arts is a translation from German of Wege zu einem neuen Baustil Und der Bau wird Mensch A Study of Rudolf Steiner's First Goetheanum Bernadette Schwartz, 1983 *The Christmas Conference* Rudolf Steiner, 1990-05 This anthroposophic movement is not an earthly service this anthroposophic movement in its entirety in all its details is a service of the gods a divine service opening lecture At Christmastime 1923 one year after the first Goetheanum was destroyed by fire Rudolf Steiner in the wooden carpentry shop overlooking the charred ruins established the General Anthroposophical Society and joined his destiny with it This remarkable volume documents that occasion Here for the first time English readers will find the complete proceedings of that founding meeting as well as Steiner's in depth description of the structure and organization of the new society The discussions concerning the statutes are recorded in detail The laying of the Foundation Stone in the hearts of the members forms the center of the book The Foundation Stone verse is reproduced in various forms in which Rudolf Steiner gave it on each day of the conference together with his comments on its various rhythms Also included are Steiner's lecture on the plans for the second Goetheanum illuminating the spiritual significance of its architecture as well as a talk on the burning of the temple at Ephesus The text is complemented by a list of members mentioned with biographical data as well as by facsimile reproductions of Steiner's handwritten notes and blackboard sketches Here as Henry Barnes wrote we have the footprints of the process by means of which a spiritual archetype enters as a living reality into the human social sphere remaining true to its origins in the suprasensory realm yet leaving each human individual free to unite him or herself out of insight with the spiritual reality READ BOBBY MATHERNE'S REVIEW OF THIS BOOK The Christmas Conference is a translation from

German of Die Weihnachtstagung zur Begründung der Allgemeinen Anthroposophischen Gesellschaft GA 260 *Rudolf Steiner - Eine Biographie* Christoph Lindenberg, 2015-01-21 Mit seiner Biographie zu Rudolf Steiner dokumentiert Christoph Lindenberg eine der erstaunlichsten Lebensleistungen des 20. Jahrhunderts. Er zeichnet den beeindruckenden Aufstieg des naturwissenschaftlich begeisterten jungen Steiner vom Sohn eines einfachen freidenkerischen Bahnbeamten zum angesehenen Goethe-Forscher, Redakteur, Herausgeber und entschiedenen Freiheitsphilosophen nach, der sich beispielsweise mit Rosa Luxemburg intensiv in der Arbeiterbildungsschule in Berlin engagierte.
