[The Literature of the Ozarks](#) Phillip Douglas Howerton, 2019-02-25 The job of regional literature is twofold to explore and confront the culture from within and to help define that culture for outsiders Taken together the two centuries of Ozarks literature collected in this ambitious anthology do just that The fiction nonfiction poetry and drama presented in The Literature of the Ozarks complicate assumptions about backwoods ignorance debunk the pastoral myth expand on the meaning of wilderness and position the Ozarks as a crossroads of human experience with meaningful ties to national literary movements Among the authors presented here are an Osage priest an early explorer from New York a native born farm wife African American writers who protested attacks on their communities a Pulitzer Prize winning poet and an art history professor who created a fictional town and a postmodern parody of the region's stereotypes The Literature of the Ozarks establishes a canon as nuanced and varied as the region's writers themselves

Animal by-products (ABPs): origins, uses, and European regulations Raffaella Leoci, 2014-06-12 In theory about 95% of one animal is usable The remaining 5% is processing losses From that 95% about 55% on average of the animal is used for edible products and the remaining 45% is inedible by products The world production of ABPs derived from the meat and animal production industries is approximately 60 million tons per year It has been estimated that more than 10 million tons of products not destined for direct human consumption derived from healthy animals are produced in the EU every year A lot of ABPs are commonly used in important productive sectors such as in the pharmaceutical feed wool and leather industries but notwithstanding new technologies have widened the possible use of ABPs and derived products Consequently a wide range of ABPs are not utilized and are destined to disposal Further studies are required to hone accuracy and to find and define the appropriate application for the countless substances present in the animal reproductive organs
