The Death Hunters Warren T. Longtree,1985 **The Whole Story** John E. Simkin,1996 This work is the only comprehensive guide to sequels in English with over 84 000 works by 12 500 authors in 17 000 sequences The Publishers' Trade List Annual ,1985 Books in Print ,1991 The Crowd Gustave Le Bon,1908-01-01 This work is devoted to an account of the characteristics of crowds The whole of the common characteristics with which heredity endows the individuals of a race constitute the genius of the race When however a certain number of these individuals are gathered together in a crowd for purposes of action observation proves that from the mere fact of their being assembled there result certain new psychological characteristics which are added to the racial characteristics and differ from them at times to a very considerable degree Organised crowds have always played an important part in the life of peoples but this part has never been of such moment as at present The substitution of the unconscious action of crowds for the conscious activity of individuals is one of the principal characteristics of the present age I have endeavoured to examine the difficult problem presented by crowds in a purely scientific manner that is by making an effort to proceed with method and without being influenced by opinions theories and doctrines This I believe is the only mode of arriving at the discovery of some few particles of truth especially when dealing as is the case here with a question that is the subject of impassioned controversy A man of science bent on verifying a phenomenon is not called upon to concern himself with the interests his verifications may hurt Pref PsycINFO Database Record c 2005 APA all rights reserved *Steps to an Ecology of Mind* Gregory Bateson,2000 Gregory Bateson was a philosopher anthropologist photographer naturalist and poet as well as the husband and collaborator of Margaret Mead This classic anthology of his major work includes a new Foreword by his daughter Mary Katherine Bateson 5 line drawings Hereditary Genius Francis Galton,1891 **Shadow Country** Peter Matthiessen,2008-08-19 NATIONAL BOOK AWARD WINNER Altogether gripping shocking and brilliantly told not just a tour de force in its stylistic range but a great American novel as powerful a reading experience as nearly any in our literature Michael Dirda The New York Review of Books Killing Mister Watson Lost Man s River and Bone by Bone Peter Matthiessen s great American epic about Everglades sugar planter and notorious outlaw E J Watson on the wild Florida frontier at the turn of the twentieth century were originally conceived as one vast mysterious novel Now in this bold new rendering Matthiessen has marvelously distilled a monumental work while deepening the insights and motivations of his characters with brilliant rewriting throughout Praise for Shadow Country Magnificent breathtaking Finally now we have this three part saga welded like a bell and with Watson s song the last sound all the elements fuse and resonate Los Angeles Times Peter Matthiessen has done great things with the Watson trilogy It s the story of our continent both land and people and his writing does every justice to the blood fury of his themes Don DeLillo The fiction of Peter Ma tthiessen is the reason a lot of people in my generation decided to be writers No doubt about it Shadow Country lives up to anyone s highest expectations for great writing Richard Ford Shadow Country

Matthiessen's distillation of the earlier Watson saga represents his original vision. It is the quintessence of his lifelong concerns and a great legacy. W.S. Merwin: An epic masterpiece, a great American novel. *The Miami Herald*. ***A Little History of the World*** E. H. Gombrich, 2008-10-07 E. H. Gombrich's bestselling history of the world for young readers tells the story of mankind from the Stone Age to the atomic bomb, focusing not on small detail but on the sweep of human experience, the extent of human achievement and the depth of its frailty. The product of a generous and humane sensibility, this timeless account makes intelligible the full span of human history. In forty concise chapters, Gombrich tells the story of man from the stone age to the atomic bomb. In between emerges a colorful picture of wars and conquests, grand works of art and the spread and limitations of science. This is a text dominated not by dates and facts but by the sweep of mankind's experience across the centuries, a guide to humanity's achievements and an acute witness to its frailties. **The Rights of War and Peace** Hugo Grotius, 1814 **Peasants into Frenchmen** Eugen Weber, 1976 France achieved national unity much later than is commonly supposed. For a hundred years and more after the Revolution, millions of peasants lived on as if in a timeless world, their existence little different from that of the generations before them. The author of this lively, often witty and always provocative work traces how France underwent a veritable crisis of civilization in the early years of the French Republic as traditional attitudes and practices crumbled under the forces of modernization. Local roads and railways were the decisive factors bringing hitherto remote and inaccessible regions into easy contact with markets and major centers of the modern world. The products of industry rendered many peasant skills useless, and the expanding school system taught not only the language of the dominant culture but its values as well, among them patriotism. By 1914 France had finally become La Patrie in fact as it had so long been in name. Books in Print Supplement, 1988 **The Official Ohio Lands Book**, 2002 **Down and Out in Paris and London** George Orwell, 2024-07-07 There were eccentric characters in the hotel. The Paris slums are a gathering place for eccentric people, people who have fallen into solitary, half-mad grooves of life and given up trying to be normal or decent. Poverty frees them from ordinary standards of behaviour, just as money frees people from work. Some of the lodgers in our hotel lived lives that were curious beyond words. There were the Rougiers, for instance, an old, ragged, dwarfish couple who plied an extraordinary trade. They used to sell postcards on the Boulevard St Michel. The curious thing was that the postcards were sold in sealed packets as pornographic ones, but were actually photographs of chateaux on the Loire; the buyers did not discover this till too late and, of course, never complained. The Rougiers earned about a hundred francs a week and, by strict economy, managed to be always half-starved and half-drunk. The filth of their room was such that one could smell it on the floor below. According to Madame F, neither of the Rougiers had taken off their clothes for four years. **The Black Jacobins** C.L.R. James, 2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history, the Haitian Revolution of 1791-1803. One of the seminal texts about the history of slavery and abolition. Provocative and empowering. *The New York Times Book Review*. **The Black Jacobins** by Trinidadian historian C. L.

R James was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba It is the story of the French colony of San Domingo a place where the brutality of plantation owners toward enslaved people was horrifyingly severe And it is the story of a charismatic and barely literate enslaved person named Toussaint L Ouverture who successfully led the Black people of San Domingo against successive invasions by overwhelming French Spanish and English forces and in the process helped form the first independent post colonial nation in the Caribbean With a new introduction 2023 by Professor David Scott **Seeing Like a State** James C. Scott,2020-03-17 One of the most profound and illuminating studies of this century to have been published in recent decades John Gray New York Times Book Review Hailed as a magisterial critique of top down social planning by the New York Times this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail sometimes catastrophically in grand efforts to engineer their society or their environment and uncovers the conditions common to all such planning disasters Beautifully written this book calls into sharp relief the nature of the world we now inhabit New Yorker A tour de force Charles Tilly Columbia University Big Trouble J.
